MONMOUTH COLLEGE IN WORLD WAR II

MEETING THE NEEDS of the nation at war is no new experience for Monmouth College. Men from Monmouth have served in every conflict since the Civil War. In the recent world conflict, more than a thousand Monmouth men and women served with honor and distinction. Forty-four of these were killed in action or died in the service.

CREDIT EARNED IN ADVANCE

Monmouth College will give credit for service with the armed forces under certain conditions. The adjustments are made on an individual basis.

Credit can be given for training courses of definite academic value in Army or Navy training schools. The record and description of these courses must be made to the College Registrar in the proper form by military authorities. In evaluating these courses, Monmouth College follows the "Guide to the Evaluation of Educational Experiences in the Armed Forces," prepared under the direction of the American Council on Education.

U. S. NAVY SCHOOLS AT MONMOUTH

During the war, two Naval training schools were established at Monmouth. The facilities of the college were turned over to the Navy, and the college faculty assisted in the teaching program.

The U. S. Naval Flight Preparatory School came to Monmouth in December, 1942. A new battalion arrived on the campus every month. A large portion of the cadets were men with previous college experience. All had been carefully selected on the basis of a series of tests and an examination of their records as civilians. The last battalion at Monmouth graduated October 1, 1944.

Upon the basis of grades earned in competition with Naval Aviation Cadets in training in other units of the N. F. P. S. program, the record made by men trained at Monmouth College was outstanding. This fact is certified by letters from the Bureau of Naval Personnel.

The Navy Academic Refresher Unit (V-5) was established at Monmouth College and seven other colleges and universities in the summer of 1944. Men who entered this program had been in service in the Navy and were candidates for admission to the Navy Pre-Flight Schools. The Monmouth College unit of the N. A. R. U. made an excellent record. The last battalion was withdrawn in October, 1945.

COMMENCEMENT CALENDAR

JUNE, 1948

June 3, Thursday, 8:00 p. m.—President's Reception to the Senior Class.

June 6, Sabbath, 3:00 p. m.—Vesper music.

June 6, Sabbath, 7:30 p. m.—Baccalaureate Service.

June 7, Monday—Alumni Day.

June 7, Monday, 10:00 a. m.—Annual meeting of the College Senate.

June 7, Monday, 6:30 p. m.—Alumni Banquet.

June 8, Tuesday, 10:00 a. m.—Commencement Exercises.

David M. McMichael	J. S. Diffenbaugh	Fred B. Pattee
--------------------	-------------------	----------------

The following in 1949:

Ivory Quinby	Ralph Graham	Joseph Sherrick
--------------	--------------	-----------------

The following in 1950:

Hugh R. Moffet	M. G. Soule	John J. Kritzer
----------------	-------------	-----------------

THE DIRECTORS

FIRST GROUP

Term of office expires January 1, 1949:

Rev. S. W. Woodburn, 1828 17th St., Rock Island, Illinois...	Synod of Illinois
Kenneth P. Gordon, 330 So. Austin Blvd., Oak Park, Illinois...	Synod of Illinois
W. Boyd Wilkin, 1596 Oak, Evanston, Illinois	Synod of Illinois
Rev. Daniel C. Campbell, D. D., 631 Greenlawn Ave., Dayton 3, Ohio	Second Synod
Rev. Allen Blair Layman, 211 North 11th St., Richmond, Ind...	Second Synod
Thomas K. Prugh, R. F. D. 12, Dayton, Ohio	Second Synod
Byford Anderson, M. D., Pawnee City, Nebraska	Nebraska Synod
Harry Meloy, Kirkpatrick, Matthias, & Meloy, 1240 Transportation Bldg., Chicago, Illinois	Alumni
Mrs. Ethel Lowry Rhodes, 1525 Atkinson Ave., Detroit, Michigan...	Alumni
Roy Fetherston, 544 South Park, Springfield, Illinois	Alumni

SECOND GROUP

Term of office expires January 1, 1950:

Rev. J. F. LeClere, D. D., Aledo, Illinois	Synod of Illinois
Robert H. White, Marissa, Illinois	Synod of Illinois
S. A. Fulton, 1912 So. 82nd St., Milwaukee, Wisconsin.....	Synod of Illinois

J. A. Finney, Xenia, Ohio	Second Synod
A. J. McCracken, M. D., Bellefontaine, Ohio	Second Synod
Rev. E. P. Vogel, Sycamore, R. F. D. 1, Loveland, Ohio.....	Second Synod
Rev. Frank C. Black, 850 So. 52nd St., Omaha, Nebraska.....	Nebraska Synod
Rev. George P. Kerr, D. D., Washington, Iowa	Keokuk Presbytery
R. J. Dellinger, 1030 East Detroit Ave., Monmouth, Illinois	Alumni
Margaret Josephine Holmes, 1582 So. 80th St., West Allis, Wis.	Alumni
Neal A. Sands, 81 Beech St., Bloomfield, New Jersey	Alumni

THIRD GROUP

Term of office expires January 1, 1951:

Rev. C. G. Lunan, 203 South Fourth St., Monmouth, Illinois..	Synod of Illinois
Rev. W. T. McIntyre, D. D., 4514 Oakland Ave., St. Louis, Missouri	Synod of Illinois
Rev. C. W. McGeehon, 3822 Fir Ave., East Chicago, Indiana.....	Synod of Illinois
Rev. W. C. Ball, 220 Cliffside Drive, Columbus, Ohio	Second Synod
Mrs. Ardith Murphy Scouler, 78 Redder Ave., Dayton, Ohio...	Second Synod
Rev. Harold C. Irwin, 1510 East 12th St., Indianapolis, Ind.....	Second Synod
Willard Reid, 423 Lake St., Ft. Morgan, Colorado	Nebraska Synod
Dr. H. J. Burkholder, 122 No. 2nd St., Alpena, Michigan	Alumni
Donald G. Beste, 505 Parkside Drive, Peoria, Illinois	Alumni
Mrs. Shirley Tubbs, 315 North 9th St., Monmouth, Illinois	Alumni

OFFICERS OF THE SENATE

J. H. Grier	President
David M. McMichael	Vice President
Hugh R. Moffet	Secretary

OFFICERS OF TRUSTEES

J. H. Grier	President
David M. McMichael	Vice President
Hugh R. Moffet	Secretary

COMMITTEES OF TRUSTEES

EXECUTIVE—Dr. J. H. Grier, H. R. Moffet, M. G. Soule, John S. Diffenbaugh, Ralph Graham, M. D.
FINANCE—M. G. Soule, Fred B. Pattee, Ivory Quinby, David M. McMichael.
MEMBERS OF ATHLETIC BOARD—David M. McMichael, Ralph Graham, M. D.
TEACHERS AND INSTRUCTION—Dr. J. H. Grier, H. R. Moffet, John J. Kritzer, Ralph Graham, M. D.
INSURANCE—Ivory Quinby, Fred B. Pattee, David M. McMichael.
Regular meeting second Tuesday of each month.

OFFICERS OF ADMINISTRATION

James Harper Grier, A. M., D. D., LL. D.	President
D. M. McMichael, A. B.	Vice President and Business Manager
J. S. Cleland, A. M., Ph. D., LL. D.	Dean
Jean Esther Liedman, A. M.	Dean of Women
Frank W. Phillips, M. A.	Dean of Men

CALENDAR OF EVENTS

JUNE, 1947

- 9—SUMMER SESSION. Opening.
- 10-13—ANNUAL CONVENTION. Women's General Missionary Society, United Presbyterian Church.
- 16-21—YOUTH CONFERENCE. Episcopal, Diocese of Quincy.
- 23-28—YOUTH CONFERENCE. United Presbyterian, Synod of Illinois.

AUGUST, 1947

- 29—SUMMER SESSION. Closing.

SEPTEMBER, 1947

- 15—FIRST FACULTY MEETING. Second United Presbyterian Church.
- 16-18—REGISTRATION. Freshman orientation and testing.
- 19—FIRST CLASS SESSIONS.
- 21—VESPERS.
- 23—TWO PIANO RECITAL. Edna Browning Riggs; Grace Gawthrop Peterson.
- 28—RUSH WEEK. Opening.

OCTOBER, 1947

- 5—VESPERS. Dr. Grier preaching.
- 14—ARTISTS' COURSE PRESENTATION. The Russian Trio.
- 20-21—RELIGIOUS EMPHASIS. Dr. Will Orr, speaker.
- 24—STUDENT UNION. Official opening.
- 25—HOMECOMING. Monmouth vs. Ripon.
- 28—ART LECTURE. Leon Pescheret.
- 30—PIANO AND ORGAN RECITAL. Dr. Sigfred Matson.

NOVEMBER, 1947

- 2—VESPERS. Dr. Grier preaching.
- 5-8—CRIMSON MASQUE PRODUCTION. "Uncle Harry."
- 8—PARENTS' DAY.
- 11—SCHOLARSHIP DAY. Dr. Jay Monaghan, speaker.
- 14—TURKEY DAY FOOTBALL GAME. Monmouth vs. Knox.
- 17—LECTURE COURSE. John W. Vandercook.
- 19—RECITAL. Knox College Trio.
- 19—Y. W. C. A. FOUNDERS' DAY DINNER. McMichael Dormitory.

DECEMBER, 1947

- 7—ORATORIO. Mendelssohn's "Elijah."
10, 11, 12—CRIMSON MASQUE PRODUCTION. "Ladies of The Jury."
19—CHRISTMAS HOLIDAY BEGINS.

JANUARY, 1948

- 6—COLLEGE REOPENS.
11—VESPER. The Rev. Howard M. Jamieson, preacher.
22—CONCERT. The Monmouth College Orchestra and Band.
26—FINAL EXAMINATIONS.

FEBRUARY, 1948

- 3—SECOND SEMESTER OPENS.
4—ARTISTS' COURSE RECITAL. Elizabeth Humphrey, soprano; Helen Kettner, pianist.
16—LECTURE. Ray Josephs.

MARCH, 1948

- 4, 5, 6—CRIMSON MASQUE PRODUCTION. "Antigone."
7—VESPER. Dr. Addison H. Leitch, preacher.
9—SCHOLARSHIP DAY. The Rev. Robert Robinson, D. D., Speaker.
15—LECTURE COURSE. H. R. Knickerbocker.
21—ORGAN RECITAL. Russell Miles.
31—SPRING VACATION BEGINS.

APRIL, 1948

- 6—SPRING VACATION ENDS.
12, 13—RELIGIOUS EMPHASIS. The Rev. Albert Nickless, D. D., Speaker.
29, 30—CRIMSON MASQUE PRODUCTION. "Macbeth."

MAY, 1948

- 1—CRIMSON MASQUE PRODUCTION. "Macbeth."
19—MAY FETE.
31—FINAL EXAMINATIONS BEGIN.

JUNE, 1948

- 3—PRESIDENT'S RECEPTION FOR SENIOR CLASS. Woodbine.
6—VESPER MUSICALE.
6—ALUMNI-LIBRARY TEA.
6—BACCALAUREATE.
7—ALUMNI DAY. Class Reunions, Alumni Banquet.
8—92ND ANNUAL COMMENCEMENT.

GENERAL INFORMATION

HISTORY

MONMOUTH is a co-educational, liberal arts college under the control of the United Presbyterian Church of North America. The enrollment at present is approximately 915.

In 1853, through the vision of pioneer ministers of the Associate Reformed Presbyterian Church, the institution now known as Monmouth College was founded as an academy. Three years later it was chartered as a college, with the Rev. David A. Wallace as the first president. Ninety-nine college students were enrolled in September of the same year.

Dr. Wallace, whose name is perpetuated on the campus in Wallace Hall, served as president for twenty-two years. Since his resignation in 1878, only four other men have held the office of president. They are: the Rev. Jackson Burgess McMichael, D. D., who served for nineteen years, retiring in 1897; the Reverend S. R. Lyons, D. D., who retired in 1901; the Reverend Thomas Hanna McMichael, D. D., who served for a third of a century, retiring from the active presidency in 1936; and the Reverend James Harper Grier, D. D., who came to the position which he now holds from a successful pastorate in the Second United Presbyterian Church of Monmouth. He assumed the duties of the presidency in 1936, and was formally inaugurated as the fifth president of Monmouth College on October 28, 1937.

Monmouth College was born in the troubled days before the Civil War. She has survived many trying periods in the history of the nation, including four major wars. Each generation saw significant additions to the campus and curriculum. It was under the leadership of Dr. T. H. McMichael, able son of the second president of the college, that Monmouth won herself a permanent place as one of the outstanding liberal arts colleges in the Middle West.

Dr. McMichael guided the college through several crucial periods, including World War I and the economic depression of the Thirties. During his thirty-three years in office, the student enrollment increased from 100 to 500, the property value of the college from \$100,000 to \$1,000,000 and the endowment from \$200,000 to \$2,000,000.

President Grier, who has seen the size of the student body almost double since he assumed office, has led the college through two critical periods. The first was the emergency of World War II, which drained the man-power from the normal campus group only to inundate the campus with thousands of cadets and bluejackets under the Naval Flight Training Program and the Navy V-5 training program.

The second is the post-war emergency, which has brought an overflow of students to the campus and taxed the physical and academic facilities to the limit. During these difficult years, new academic departments have been added, and new buildings completed, including two additional residence halls for women, Grier Hall and Winbigler Hall. A residence hall for men is already partially completed. During the year 1947, a new Student Union was added by the remodeling of the lower floor of Wallace Hall.

LOCATION

The college is located in a residential section of the city of Monmouth, Illinois, about 180 miles south and west of Chicago. On the main line of the Burlington railroad between Chicago and Denver, the city is only three hours from Chicago on the famous "Zephyr" streamlined trains. U. S. highways 34 and 67 intersect in the heart of the city. Monmouth airport, the oldest airport in the state of Illinois in point of continuous service, offers excellent facilities for private or charter planes.

Monmouth is located in the heart of the rich corn belt of the Midwest. Although agriculture is the backbone of the economy in this area, numerous small businesses, processing plants, and industrial firms have found the town of Monmouth a good location. The population of the city is approximately 9,500.

CONTROL

The governing body of Monmouth College is the Senate, composed of thirty-one Directors and nine Trustees. The thirty-one Directors are elected by certain official bodies of the United Presbyterian Church of North America, and by the Alumni Association. The Trustees are selected by the Senate.

The college was originally chartered by the State of Illinois on February 16, 1857, with complete control vested in the Synod of Illinois of the Associate Reformed Presbyterian Church. When that church merged with the Associate Presbyterian Church, the control was assumed by the Synod of Illinois of the new church, known as the United Presbyterian Church of North America. Later the Synod of Illinois invited other bodies to associate themselves with it in the control of the institution.

At present, the following bodies are permitted to elect directors to the Senate to the number indicated:

The Synod of Illinois (9).

The Second Synod (Ohio and Indiana) (9).

The Synod of Nebraska (3).

The Presbytery of Keokuk (1).

The Alumni Association (9).

ACCREDITED STANDING

MONMOUTH COLLEGE is:

Approved by the Association of American Universities.

A member of the North Central Association of Colleges and Secondary Schools.

Given Class A rating by the University of Illinois.

A member of the Association of American Colleges.

Approved by the American Association of University Women.

PHYSICAL PLANT

The College is in the eastern section of Monmouth, on a beautiful rolling campus of thirty acres. Compact, but not crowded, the campus is laid out so that all students can get to any building on the campus in a very few moments.

ACADEMIC BUILDINGS

WALLACE HALL is named for the first president of the College, Dr. David A. Wallace. The main recitation building, it contains twenty-two classrooms, as well as faculty offices, waiting rooms, and recreation rooms. The lower floor of this building has recently been converted into an attractively-furnished Student Union, with snack bar, lounge, and social room.

J. B. McMICHAEL SCIENCE HALL is named for the second president of the College. It was completed in 1910, and contains laboratories in biology, physics, geology, chemistry, botany, and zoology, as well as faculty offices.

THE LIBRARY BUILDING is the result of a gift by Andrew Carnegie. Erected in 1907, it was extensively redecorated in the summer of 1947. It houses two reading rooms, library offices and stacks, and depository stacks for government documents. In addition, the main administrative offices of the college are located in this building, including the office of the president, vice president, dean of the college, dean of women, the registrar, director of admissions, personnel and placement, and the alumni, publicity, and publications offices.

THE AUDITORIUM is better known by the students as "The Chapel." Nine hundred persons can be seated in the main room of this building, which contains the recently-installed three manual Schantz organ. In the basement is a small assembly room, with accomodations for two hundred and fifty persons. A portion of the department of Music is centered in this building, with faculty offices and rehearsal rooms.

THE FINE ARTS BUILDING was acquired in 1931, as the result of a gift by Dan Everett Waide of the class of '97 for the purpose of endowing a department for the "appreciation of the arts." The building, one of the most attractive residences in Monmouth, has housed the Department for the Appreciation of Art and the Department of Music ever since. It contains reading and display rooms for the fine arts, studios for the practice of music and a lecture room for classes in art and music.

RESIDENCE BUILDINGS

McMICHAEL HALL, the oldest residence hall now on the campus, was constructed in 1915. A fireproof structure throughout, it houses normally 85 young women in single and double rooms. This building also contains the main dining room for the college, and the kitchen. There is hot and cold water in each room.

JAMES HARPER GRIER HALL is a new residence for women, completed in 1940. In addition to providing quarters for 100 young women, it contains parlors, a "rumpus room," and a suite for the house director.

ALICE B. WINBIGLER HALL is the only building on the campus named for a teacher, honoring Miss Winbigler, who taught for fifty years in the mathematics department. In addition to rooms for 90 girls, it houses the Infirmary, and the laboratories of the Department of Home Economics. There are parlors, "rumpus room," and a suite for the house director.

EAST HALL was finished in 1920, and first was called "Sunnyside Dormitory." A residence for approximately thirty young women, East Hall provides hot and cold water in each room, and a recreation room, with smaller reception room and parlors, and a suite for the house director.

MARSHALL HALL, the gift of Mr. and Mrs. Hugh Marshall, was acquired in 1937. In recent years, apartments have been provided in this building for married veterans. Similar apartments for two veterans are available in the Fine Arts Building.

THE TERRACE was formerly the home of the president of the college, but since the acquisition of The Woodbine, has been used to house chapter rooms for the sororities, and apartments for faculty members.

THE WOODBINE, located across the street from the campus proper, is the home of the president of the college. It was acquired in 1915, partly by purchase and partly by gift.

The college makes provision for the young men on the campus in three fraternity houses, and in three small dormitories. Many men find rooms in town, although boarding at the college dining room. A new dormitory has been projected which will accomodate 100 men upon its completion.

THE FRATERNITY HOUSES are the Alpha Tau Omega, Tau Kappa Epsilon, and Theta Chi, each providing room and board for the majority of the men affiliated with the fraternal organizations.

VAN GUNDY HALL is the gift of Dr. and Mrs. David A. Murray, of Los Angeles, California. It provides quarters for seventeen young men and a house director. Another one of Monmouth's fine old residences, this building is located two blocks from the campus.

THE COLLEGE CLUB is an informal rooming house formerly occupied by one of the fraternities, located across the street from the Gymnasium. A dozen men find comfortable quarters here, eating in the college dining hall.

ROTARY HALL is the first segment of the projected men's residence hall, mentioned above. It is named Rotary Hall because the Monmouth Rotary Club provided much of the money that enabled the initial segment to be completed in order to house returning veterans. When complete, the building will provide quarters for approximately 100 men and dining room facilities for at least 250.

GOVERNMENT HOUSING has enabled provision to be made for 32 single men and eight married couples. Through cooperation with the Federal Public Housing Authority, the units for single men were erected on North Seventh Street across from the gymnasium, while eight apartments for married couples are on North Ninth Street, adjacent to the campus.

ATHLETIC FACILITIES

The heart of the Monmouth athletic and physical education program is the Waid Gymnasium, completed in 1925. Basketball floor, swimming pool, cinder track, firing range for rifle and pistol, handball courts, locker room and shower facilities, office for the physical education faculty, are all provided in this beautiful structure, built as a gift of Dan Everett Waid, '87.

Adjacent to the gymnasium, and a component part of it, is the athletic field of ten acres, making every provision for baseball, football, track, touch football, archery, tennis, and intramural sports.

LABORATORIES

BIOLOGY—The department of biology occupies the entire first floor of

Science Hall, providing three laboratories, a lecture room, store room, library and offices and laboratory for the professors. The largest laboratory is used for the beginning students and is equipped for forty-four students per section. One of the smaller laboratories is equipped with physiological apparatus and the other is a fully-equipped, modern bacteriological laboratory. The microscopic slides belonging to the department are the best that can be obtained. Sets for courses in zoology, botany, vertebrate embryology and histology are extensive. There are large numbers of preserved specimens in the museum representing every phylum of the animal and plant kingdoms. These play an important part in the lecture demonstrations. One of the most outstanding of the collections is the butterfly and moth collection of more than five thousand species. The molluscan shell, bird, and bird's egg collections are quite complete.

CHEMISTRY—The chemistry department occupies the entire second floor of Science Hall, and has ample room and equipment for two hundred or more students. A special effort has been put forth to individualize the entire laboratory program. Separate equipment and lockers and chemical supplies are provided for each student whenever this is practicable, particularly in the earlier courses. The department is fully prepared on this basis to offer standard work in general, analytical, organic, and physical chemistry, as well as special courses in chemical calculations, food chemistry, advanced chemistry, and undergraduate research. Semi-micro methods have been introduced. The work of this department has been found adequate as preparation for advanced study in graduate and medical institutions, and for entering positions in the industrial field and teaching.

GEOLOGY—The geology and mineralogy laboratory is located on the ground floor of the science building. It is supplied with ample equipment and an abundance of material for the study of determinative mineralogy, and historical geology. The lighting and physical setting of the rooms are conducive to thorough work. Adjoining this laboratory is the private laboratory and office of the professor in charge. The library of the college contains a large selection of geological literature.

PHYSICS—The physics laboratories are located on the ground floor of the science building. There are three laboratories, two smaller ones in addition to the main laboratory. A stock room adjoining the main laboratory supplies demonstration apparatus for the lecture room as well as the needs of the laboratories. The stock room is equipped properly for construction, repair, maintenance, and assembling of equipment. All laboratories are adapted to experimental studies in mechanics, heat, electricity, sound and light. Laboratory work is so arranged, with proper equipment and instruction provided, that the student is able to prove for himself the fundamental laws and equations of physics. The steady growth of the depart-

ment is encouraged by regular additions of valuable apparatus for laboratory and lecture methods.

THE LIBRARY

The Monmouth College Library is housed in a building, the gift of Andrew Carnegie. On the second floor are the main reading, reference and periodical rooms, the charging desk, catalog, and librarians' offices. At the rear of this floor are the stacks which house the greater number of the books and within which are nine cubicles for study. This floor has been redecorated the past year as well as having a new sound-proof ceiling, a new cork tile flooring and fluorescent lighting, making an attractive reading room. The rear of the first floor contains stacks and reading room in which are collected the books in the departments of business administration, history, social science, and the natural sciences. The seating capacity of both floors is 125. Documents, older periodicals, and duplicate material are shelved in the basement.

The library contains over 50,000 volumes. It is a depository library for many government documents. Over 300 periodicals—general and scientific—are currently received, including both American and foreign publications.

SPECIAL COLLECTIONS—The Carnegie Foundation in 1930 presented the library a collection of material for the study of art which included over 200 books and 2,000 mounted prints and photographs. Material is constantly being added to this collection so that in addition to art books, over 5,000 slides, 6,000 prints, 600 music records, 2 phonographs, and 3 excellent stereopticons are available. The art books in foreign languages, portfolios, pictures, slides, etc., are housed in the Fine Arts Library where they are in constant use by the classes. Others are in the main library collection. Most of the science books are kept in the McMichael Science Hall available for use during laboratory study.

The library's collection of books in history, classical language, modern language, social science, and English literature, has been enriched by the addition of over a thousand volumes from private libraries of five former Monmouth professors—Professors Chaffee, Clark, Goodrich, Robinson and Van Gundy.

SPECIAL FUNDS—Supplementing the regular annual appropriations from College funds is the income received from established Special Funds. These include the "John A. and Margaret J. Elliott Library of Religious Education," the "John Lawrence Teare Memorial Library Fund" for the purchase of books in the field of social science, and the "Kappa Kappa Gamma Founders Fund," used to buy fine books otherwise unobtainable. More recently, the Martin Oriental Collection has been provided by Dr. Howard H. Martin of the University of Washington, a former Monmouth student. This Oriental

Collection has been augmented by gifts from Takashi Komatsu of the class of 1910.

Through the generosity of many alumni who designate their gifts to the library, more funds than usual have been available for the past few years for the building up of several departments, especially those of English and science.

The Warren County Public Library of over 40,000 volumes cooperates closely with the college in extending free privileges to all students and faculty.

Library instruction is given to all freshmen early in the year. This includes training in the basic materials of reference.

THE LIBRARY STAFF is made up of three trained librarians and a student staff of some fifteen to twenty, as well as graduates who are employed part time.

THE LIBRARY HOURS are as follows:

MONDAY THROUGH FRIDAY

7:40 A. M. to 9:30 P. M.

SATURDAY

7:40 A. M. to 4:00 P. M.

PLAN OF STUDY

THE AIM OF MONMOUTH COLLEGE

MONMOUTH COLLEGE proposes to provide young men and women with an understanding of the world in which they live, in all of its most general aspects;

To provide them with an intelligent understanding and comprehension of the basic structure of the world of physical nature, the world of living organisms from the lowest to the highest forms, the world of human society and institutions, the world of ideas including the products both of imagination and conceptual thinking, and the world of values;

To provide them with a mature grasp of some one field of study, and to assure a moderate degree of skill in the use of the tools of the intellect.

Monmouth affirms that such a course of study is the only sound foundation for an effective life in modern society, both as a necessary preparation for further training in any occupation or profession that involves the exercise of personal responsibility, and for any function in any phase of human life requiring judgment and understanding in addition to mere skill.

ENTRANCE AND GRADUATION REQUIREMENTS

ADMISSION

ADMISSION by certificate may be granted to applicants fulfilling the following requirements:

1. Graduation from a high school on the approved list of the North Central Association of Colleges and Secondary Schools, or an equivalent association, or on the approved list of a state university.
2. Recommendation of the principal or superintendent.
3. A satisfactory record in fifteen units of high school subjects. A unit is defined as a subject carried for one year of not less than thirty-six weeks with five recitation periods of at least forty minutes each.
 - a. Applicants ranking in the highest one-fourth of a graduating class of forty or more may be admitted without regard to the pattern of subjects presented.
 - b. Applicants ranking in the middle half of graduating classes numbering forty or more, and those in the upper three-fourths of

graduating classes under forty may be admitted with a minimum of ten units in the following fields: English, history, or social science, foreign language, mathematics, or science. Three units must be in English.

- c. Those in the lowest one-fourth of the graduating class will not usually be admitted.

Application for admission should be made on official forms which will be furnished by the Director of Admissions upon request. This application should be filed with the Director of Admissions as early as possible.

Tentative action upon the application will be taken upon receipt of parts one and two of the application forms. Final action will be taken when the proper officer of the high school has certified graduation.

ADVANCED STANDING

A student who enters from another college must present a letter of honorable dismissal and a transcript showing entrance credits accepted and the credits earned while in attendance at that college.

THE CURRICULUM

The curriculum of Monmouth College aims to achieve its primary purpose by means of appropriate distribution requirements governing the work of the first two years, and by organizing the work of the last two years in a field of concentration. The purposes of these requirements are as follows:

- I. The distribution requirements are intended to help the student attain:
 - A. A broad and comprehensive acquaintance with the basic characteristics of the world in which we live.
 - B. Familiarity with the tools of the intellect, including
 1. The experimental method (the laboratory sciences).
 2. The method of empirical generalization (social science).
 3. Language (English composition and foreign languages).
 4. The method of formal analysis (mathematics and logic).
- II. The requirement of a field of concentration is intended to help the student attain:
 - A. A mature understanding of some one field of study.
 - B. Intensive training and skill in the use of one or more of the tools of the intellect.

DEGREES

The outline of courses described below leads to a bachelor's degree. The degree regularly conferred is Bachelor of Arts. Students who major in natural science may, upon application, receive the degree of Bachelor of Science. Candidates for degrees shall make formal application for them at the opening of the college year in which they seek their degrees. This application must be in the hands of the registrar not later than the fourth

Wednesday of the first semester. The course may be completed at the close of either semester but the formal graduation will occur at the Commencement in June, at which time all degrees are conferred. The senior year must be spent in residence.

Every student is required to present for graduation 124 semester hours of work. These must include all of the courses required for graduation, and in these 124 semester hours the students must attain or surpass an average grade of C (a grade point average of 2.)

A semester hour is the credit earned in one recitation period a week for one semester. Among the 124 semester hours each student must include:

DISTRIBUTION REQUIREMENTS

DIVISION I.

Languages, literature, and arts. (English, French, German, Greek, Latin, Spanish, speech, Bible, art, music).

(A) Specific requirements:

1. English 101, 102, 6 hours.
2. Speech 101, 102 or 221, 2 hours.
3. Bible, 5 hours. See "Requirements for Graduation," Department of Bible.
4. Foreign language, a reading knowledge of one language—ability to read with intelligence material of ordinary difficulty. This ability will be tested by an examination. To be eligible for examination, a student must have had two years of language or its equivalent. Two years of language in high school is regarded as the equivalent of one year in college.

English 101, 102; Physical Education 101, 102; and Speech 101 or 102 or 221; and a beginning course (2 hours) in Bible or religion are required in the freshman year, unless the student is following one of the suggested curricula which postpone one or more of these courses until the sophomore year.

(B) Two semesters in courses in Division I not included in (A).

DIVISION II.

Social Studies. (history, economics, political science, sociology, psychology, philosophy, Education 307 and 313).

Four semesters, two of which must form a year's sequence in one field.

DIVISION III.

Sciences and mathematics. (biology, chemistry, geology, physics, mathematics).

Four semesters, two of which must form a year's sequence in one laboratory science.

Note. Instead of taking the work in class, the student may satisfy any of these requirements by passing an examination sufficiently compre-

hensive to test his knowledge of the work presented in the required course or courses. This procedure will not entitle the student to credit in semester hours except when carried out under the provision for independent study.

These examinations must be passed satisfactorily before the beginning of the second semester of the year in which the required work must be done.

Freshmen and sophomores will be required to take physical education unless excused.

CONCENTRATION

The Field of Concentration shall consist of at least 40 hours, of which at least 24 hours must be in one department, and 16 hours must be in one or two related departments to be specified by the major department. Not more than 16 hours in courses numbered less than 200 may be included in this minimum of 36 hours. The Field of Concentration must be chosen not later than the beginning of the junior year.

Thirty-two hours of the candidate's work must be in courses of the Upper College, i. e., courses numbered 300 and over.

"D" (1.0) is a passing grade, but an average of "C" (2.0) is required in the 124 hours presented for graduation. (See "Academic Regulations"). All courses in the field of concentration must be "C" grade or better.

VOCATIONAL AND PRE-VOCATIONAL TRAINING

Monmouth holds two objectives before her students. The first is the opportunity for a broad, thorough, cultural education; the second is an integrated program of studies which provides vocational and pre-professional training.

Those who wish to develop their powers of appreciation in full measure and who plan a career in which breadth of information, scientific attitude, and developed personality are necessary for success are wise to secure the broad culture and general information of a liberal arts course. Young men and women sometimes believe that a liberal arts course is preparatory to a few vocations only. Yet, many of the most attractive occupations are open only to those who have a liberal education.

At the close of this chapter are suggested courses of study designed to help students prepare for definite occupations, or for entrance into the professional schools. Only a few of the many fields of life-work which are best approached through the college of liberal arts are outlined on these pages. Some of the fields of life-work for which these suggested courses of study have been prepared are the following: business, engineering, industrial biology, industrial chemistry, journalism, law, library work, medicine, ministry, dramatics, and teaching.

STUDENT PERSONNEL SERVICE

The college tries to help students to make satisfactory academic, personal, and vocational adjustments. This it does formally through the offices of the president, the deans, and the director of personnel, and through a dual system of faculty counselors and advisers.

Detailed information concerning each student is secured from the high school and college records and by means of various questionnaires, examinations and inventories. The data compiled and analyzed serve as a basis for counseling the students individually in regard to their courses of study, extra-curricular activities, choice of career, pre-professional training, etc.

The library is well stocked with books and pamphlets on occupational opportunities, and complete information on graduate, professional and training schools is kept on file and available for use. The college maintains a placement bureau that freely assists students in finding satisfactory remunerative employment after graduation. In order to provide for counsel concerning pre-professional training for certain fields of life work, special faculty committees have been appointed.

COUNSELING PROGRAM

Before the opening of the school year, one member of the faculty becomes a counselor to each student admitted to the freshman class. The counselor acts as a friendly personal adviser to the student and aids him in his educational, social, and personal adjustments. The Dean of the College is chairman of the group of freshman advisers.

The plan of studies for the work of the first year in college is outlined by the counselor in consultation with the student.

As soon as the student chooses a department as the field of his major interest, usually at the beginning of the sophomore year, the head of this department becomes the student's adviser. The adviser guides the student in his choice of subjects and acts as his personal adviser.

SUGGESTED CURRICULA

THE OUTLINES OF COURSES OF STUDY which appear on the following pages are presented with the thought that they will be of aid to students planning their work from year to year. These curricula are merely suggestive. They may be changed at the option of the student and adviser, and it is not intended that the presenting of these outlines shall affect the college graduation requirements.

AGRICULTURE

The student looking forward to agriculture will find courses in biology, chemistry, economics and business administration of advantage as pre-vocational training. Many Monmouth graduates are farmers, successful in their occupation and influential in their communities.

Freshman Year

	16	16		15, 16	15, 16

ART

The Department of the Appreciation of Art offers survey courses in periods or countries and also courses in the specific arts: architecture, painting, sculpture, and the graphic arts. There are no courses in applied art, but the student may obtain in the courses offered a knowledge and appreciation of art which, together with the broad training of a liberal arts course, will provide an excellent foundation for success in art as a vocation.

BIOLOGY

To prepare for graduate work in biology, a student should be well grounded in chemistry. A background in mathematics and physics is also desirable. A reading knowledge of German and French will be useful. Suggested electives include psychology, philosophy and social science. To prepare for teaching in high school, the program should include sufficient courses in education. Other curricula leading to various fields of applied biology are suggested in this section under other headings.

BUSINESS ADMINISTRATION

Monmouth offers a comprehensive program of courses in the field of business administration. This program embraces courses intended to provide the student with a broad cultural background as well as courses designed to acquaint the student with several phases of business administration including accounting and auditing, banking, corporation finance, insurance, personnel administration, public utilities, business law, and business organization and promotion.

The work of the first two years is outlined in detail and is common to all fields. During the junior and senior years each student's program is built up from the courses listed and from free electives in order to fit the needs and interests of the individual student.

			Elect from above 16-18 hours each semester		

One or more years of graduate study in a specific field of business administration is recommended.

Students who look to occupations in accounting and auditing, banking, corporation finance, insurance, personnel administration, public utilities, and similar fields should adapt the program of Business Administration to their needs.

CHEMISTRY

The courses outlined here prepare the student for graduate work in chemistry. Electives may include: biology, chemical calculations, organic qualitative analysis, differential equations, English, philosophy, psychology, scientific French and German, social science, and other courses.

CHURCH SECRETARY, CHRISTIAN LEADERSHIP

The leaders of our churches call attention to an increasing need for young women equipped to become congregational visitors and pastors' assistants. Many other forms of service are open to those equipped to be leaders in Christian work.

DENTISTRY

The accredited dental schools of the country require two or more years of general college preparation before beginning professional study. This general preparation must include certain basic courses in the sciences and a number of courses of general cultural value. Monmouth recommends that four years of pre-professional training be secured wherever possible because of the definite advantage of such training in later years. The suggestion of the Dental School of the University of Michigan is highly significant. "To secure a well balanced educational program it is desirable that three or four years be devoted to the pre-professional training. Students having additional preparation of a well-balanced and broadly cultural nature have a distinct advantage in the pursuit of the professional curriculum and are better equipped for professional and civic life."

The following two-year program of study meets the minimum requirements of the dental schools. During the junior and senior years, the student should follow the program of study preparatory to the field of medicine.

ENGINEERING

"A student who has been graduated from a recognized liberal arts college and has had the required courses in mathematics, physics, and chemistry can generally arrange his courses so as to complete any engineering curriculum at the University in two years. This more liberal training affords excellent preparation for the more responsible executive positions in engineering work." *University of Iowa Bulletin*, 1941.

In an increasing degree, men who have attained eminence as engineers hold positions of great responsibility in business administration and in government. Because this is true, the prospective engineer should strive for breadth of information and training. Lehigh University announces: "It is highly desirable for a student to complete a full course in the liberal arts and sciences before entering upon the professional training for engineering."

A student who expects to complete one of the standard courses in engineering may take the first two years of his course at Monmouth, thereby preparing himself to complete the course in two more years in an engineering school, provided he has sufficient entrance requirements. In order to complete this program in the minimum time the student must present at least three units entrance credit in mathematics including the following:

Algebra	1½ units
Plane Geometry	1 unit
Solid Geometry	½ unit

It is also recommended that the student present one unit in chemistry or physics.

A suggested two-year course for students planning to continue the study of engineering follows:

Freshman Year	Sem.		Sophomore Year	Sem.	
	1st	2nd		1st	2nd
English	3	3	Calculus	4	4
Mathematics	4	4	Physics	5	5
Engineering Drawing	3	3	Surveying	3	
Chemistry	5	5	Applied Mechanics		3
Speech, Bible	2	2	Descriptive Geometry	2	2
Physical Ed.	1	1	Elective	3, 4	3, 4
	18	18	Physical Ed.	1	1
				18, 19	18, 19

If the student who desires to continue the study of engineering pursues a four-year course at Monmouth, courses for the junior and senior year are to be selected from advanced courses in chemistry, physics, and mathematics. Courses necessary to satisfy graduation requirements and other cultural courses should be included.

GENERAL COURSE

Those who wish their college course to be in the broadest sense preparatory for life, and who wish to secure training and cultural value of general courses in several of the important fields of learning, may wish to study in the arts and sciences without an immediate vocational purpose. The outline below is based upon English as the field of concentration, but the student may choose as his field of concentration any one of the twenty fields of study offered at Monmouth as major subjects.

A General Course with a Major in English

Freshman Year			Sophomore Year		
	Sem. 1st	Hrs. 2nd		Sem. 1st	Hrs. 2nd
Eng. 101, 102, Composition....	3	3	English 201, 202, Survey	3	3
Speech 101, Elements	2	2	Foreign Language	2, 3	2, 3
Bible or Religion			Natural Science	4, 5	4, 5
Foreign Language	3, 5	3, 5	History 341, English	3	3
Math. or Natl. Science	4, 5	4, 5	Physical Education 201, 202...	1	1
History 101, 102, Survey	4	4	Electives	3	3
Phys. Education 101, 102	1	1			
	17, 20	17, 20		16, 18	16, 18
Junior and Senior Years					
	Sem. 1st	Hrs. 2nd		Sem. 1st	Hrs. 2nd
English	8, 10	8, 10	Econ. 201, 202, Principles....	3	3
Polit. Sci. 201, 202, American Government	3	3	History 251, 252, American..	3	3
Psychology 221, General	3		Electives	8, 10	8, 10
Philos., 202, Introduction....		3	Bible or Religion	3	(3)
Elect from above 16-18 semester hours each semester.					

GEOLOGY

A student who majors in geology and is interested in this subject as a profession should include within his curriculum courses in chemistry, biology, physics, and mathematics in order to be prepared for graduate work in this field. In order that he may be prepared for positions of responsibility in the mining and other extractive industries, it is advisable to have training in accounting and other phases of economics and business administration.

GOVERNMENT SERVICE

Freshman Year			Sophomore Year		
	Sem. 1st	Hrs. 2nd		Sem. 1st	Hrs. 2nd
Eng. 101, 102, Composition ...	3	3	History 251, 252, American....	3	3

History 101, 102, Survey	4	4	Modern Language	3, 4	3, 4
Physical Education 101, 102...	1	1			
	17, 19	17, 19		16, 19	16, 19
Junior and Senior Years					
	Sem. 1st	Hrs. 2nd		Sem. 1st	Hrs. 2nd
English 201, 202, Survey	3	3	Econ. 371, Money & Banking..	3	
Speech 303, 304	3	3	Econ. 375, Public Finance....	3	
Pol. Sci. 395, Const. Law	3		Econ. 374, Bus. Admin.		3
Language	6, 7	6, 7	Pol. Sci. 360, Public Admin...		3
Pol. Sci. 390, International Law		2	Soc. 301, 302, Prin. Prob.	3	3
Psychology 221, General	3		Pol. Sci. 381, Int'l. Rela....	3	3
Bible		3	Pol. Sci. 335-336, War	3	3
Econ. 281, 282, Accounting....	4	4	Electives	5, 7	5, 7

The student looking forward to foreign service should continue the study of one or more foreign languages in the junior and senior years.

HOME ECONOMICS

The courses in home economics are designed to furnish a basis for the important task of homemaking and the various vocations related to it. Courses afford technical information, with laboratory practice, in foods and nutrition,

textiles and clothing. In addition, instruction is given in hygiene, home care of the sick, family relationships, child care, and home management. A number of courses are given without prerequisites to accommodate students with a non-vocational interest in home economics.

The course of study outlined below is recommended for students who desire to teach home economics. Such a program fulfills the requirements for graduation from Monmouth College, and also enables the student to obtain a Limited State High School Certificate in Illinois. Students who do not plan to teach home economics may substitute other electives for the courses in the field of education.

SUGGESTED ELECTIVES—

English 201, 202, 207; Biology 304; History 251, 252; Art; Economics; Physics; Advanced Foreign Language.

INTERPRETER AND CORRESPONDENT

The various departments of the government, and also business firms engaged in international trade, offer opportunities as interpreters or correspondents for those well trained in foreign languages. Monmouth offers four years of instruction in each of the following: French, German and Spanish. The student who plans to be an interpreter or correspondent should acquire facility in English and should include in his curriculum courses in history, economics, and political science in order that he may be acquainted with the world of business and government.

JOURNALISM

A minimum of two years of college preparation is required by most schools of journalism before a student is permitted to begin his study of professional courses in the field of journalism. Some schools of journalism require three or more years of general college preparation before a student

is admitted to professional courses. Monmouth College recommends, therefore, that a student preparing for journalism secure three or more years of pre-professional training. A statement by the late Frank Knox, Secretary of the Navy, and former publisher of The Chicago Daily News, is significant. "My opinion, pretty well sustained by an experience of about forty years, is that the best training for newspaper work, whether in the business office or editorial department, is an ordinary college course which gives a bachelor of arts degree. . . . The broad, general culture which the bachelor of arts course gives is the best foundation upon which to build."

The following outline of courses is suggested:

Freshman Year			Sophomore Year		
	Sem.	Hrs.		Sem.	Hrs.

Elect from above 16-18 semester hours each semester.

LAW

The minimum pre-professional requirements for the legal profession are three years of liberal arts college training. In view of the advantage to the student of meeting something more than the minimum requirements for any profession, Monmouth College recommends that a student looking forward to law secure the baccalaureate degree after four years of general college training before entering upon his professional study in a law school. The pre-professional course of study is not prescribed by the American Bar Association, nor does any law school set up specific requirements. The Association of American Law Schools suggests that the principal aim of the college course should be to give the student a thorough mental training by means of fundamental subjects such as English, history, foreign language, the natural and social sciences. The Carnegie Foundation, in a report on pre-legal education found that among law schools the following major subjects were recommended most frequently in the order named: history, economics, English, political science, a foreign language, philosophy, a natural science, sociology, and mathematics.

The following pre-professional program is recommended with a field of concentration in economics, history, philosophy and psychology, or political science.

LIBRARY WORK

The graduate library schools make recommendations concerning the courses of study which should be taken in liberal arts colleges in preparation for the technical courses in library science. The statement of the Library School of the University of Wisconsin is typical. "Prospective students of library sciences are advised to include in their undergraduate work courses in English, composition and literature; foreign language (French and German are recommended); history, economics, political science, sociology, philosophy, psychology, and education; natural sciences, preferably in more than one field; and public speaking." The University of Michigan recommendation is similar except that some study of Latin is advised. Other library schools refer to the desirability of some acquaintance with art and music.

Those who plan to be librarians in high schools should prepare to meet the requirements for a teaching certificate.

German or French	3	3			
Elect. & grad. requirements..	2	6, 7			

The course outlined above provides for much more than minimum requirements for admission to medical schools. The requirements of the different schools vary and the student should consult his adviser in regard to specific requirements of the schools which he may enter.

THE MINISTRY

For the prospective minister's course The American Association of Theological Schools recommends a liberal arts program rather than a pre-professional program. "In the judgment of the Association the appropriate foundations for a minister's later professional studies lie in a broad and comprehensive college education, while the normal place for a minister's professional studies is the theological school."

NURSING PROGRAM

The increasing demand for nurses with a good scientific background and a liberal education to assume positions of responsibility in the nursing profession has led to the development of a nursing program at Monmouth College which leads to the bachelor's degree together with meeting the requirements for a certificate as Registered Nurse. This program normally consists of 93 credit hours of collegiate work in which the student is well grounded in scientific fields along with a balanced curriculum in liberal arts subjects. At the end of this period, the regular nursing program is completed in an approved hospital of high scholastic standards. Opportunities for nurses who have a background of college work together with the bachelor's degree are open as hospital supervisors, teachers in schools of nursing, public health nursing, school nursing, and directors of community nursing service.

Entrance requirements to the college portion of this program are the same as the general entrance requirements of the college. While in Monmouth College, the candidate will be expected to complete 93 hours of work and to meet other graduation requirements. If the student during the period of college residence does not complete 32 hours in courses numbered 300, and does not have all of the 36 hours required in the field of concentration, courses taken in the hospital may be used to fulfill these requirements. At least 60 hours of work including the last 30 hours of the 93 college hours must be completed at Monmouth College and all work taken at Monmouth College must average 2.5 or better. The suggested program below can be completed in two years and two summers under the accelerated plan. If, in the opinion of the faculty committee on nursing, the candidate is emotionally, socially and scholastically fitted for a nursing career, she will be recommended to an approved school of nursing. This recommendation does not guarantee acceptance by the school of nursing and the applicant should apply directly to the school concerned. The nursing program must be completed in an approved hospital in which the standards of instruction compare favorably with the academic level of the college. Grades in course work at the hospital must average as high as the Monmouth College grade requirements for graduation, and upon completion of the requirements for the R. N., the candidate must be recommended to the faculty of Monmouth College by the faculty of the school of nursing before the degree of bachelor of science is conferred.

SUGGESTED PROGRAM FOR NURSING

(The 93 semester hours to be completed at Monmouth College.)

OCCUPATIONAL THERAPY

Occupational therapy is a profession which has become prominent because of needs brought about by the war. Occupational therapists, under the direction of physicians, use various physical and mental activities to aid the patient in his recovery and adjustment to life. The course required for registry by the American Occupational Therapy Association includes basic cultural subjects, biological sciences, technical subjects, and clinical practice. The first two years of this course may be taken at Monmouth.

PHYSICAL EDUCATION—HIGH SCHOOL TEACHING

The school laws now require an increased emphasis upon physical education in all grades of the public schools. The opportunities for young men and women prepared to be directors of physical education are greater than ever before. Monmouth includes the Department of Physical Education as a department in which a student may major. The courses suggested below prepare the student for a position as director of physical education in a high school. By careful selection of elective subjects, the student may be prepared to teach not only physical education but also biology, general science, and at least one other subject.

SECRETARIAL TRAINING

A student who looks forward to a secretarial position may make preparation in two years. It is recommended, however, that whenever possible a student should plan to devote not less than four years to preparation for

this vocation in order to acquire a larger acquaintance with the economic, social and political organization of the 20th century. During the junior and senior years of such a program, a student should choose courses in accord with the program of study outlined under Business Administration.

Students preparing to teach commercial subjects in high school should give careful attention to the state teaching requirements of the state in which they expect to locate. The requirements of Illinois will be found in the program of study recommended for teaching.

SOCIAL SCIENCE

For students who are looking forward to graduate work in some field of social service the following undergraduate program of studies is recommended. The field of concentration should be chosen from a combination of the following subjects: economics, education, philosophy and psychology, sociology, and political science.

The work of the first two years is outlined in detail. During the junior and senior years, the student will take the courses listed and also a number of elective courses.

SPEECH AND DRAMATICS

Monmouth offers a program of study in the field of speech and dramatics looking toward professional work in a number of fields including radio, the theatre, the teaching of speech and play production in high schools, speech pathology, and others. The program for the first two years of pre-professional training is worked out in detail and may be followed with minor changes depending upon the student's individual interests. During the junior and senior years the student chooses courses from among those listed, together with a number of electives, in order to secure adequate preparation for the field of his major interest. Students preparing to teach should give careful consideration to the teaching requirements of the state in which they expect to locate.

TEACHING

The liberal arts colleges of America are making an invaluable contribution to the progress of education by training teachers and administrators for all levels of the school system but particularly for the high schools and other secondary schools. Approximately seventy-five per cent of the high school teachers of the United States are graduates of the liberal arts colleges.

This outline of courses is intended merely to be illustrative. It is suggested for one who is preparing to teach mathematics and natural science in high school, with English, social science or a foreign language as a third teaching subject.

TECHNICIAN—LABORATORY OR HOSPITAL

The Registry of Medical Technologists has prescribed certain minimum pre-professional requirements for all who are preparing for this profession. The following program of study enables a student to meet these requirements in two years. It is recommended, however, that a student should spend three and preferably four years in pre-professional study, thus securing a bachelor's degree before beginning his professional training. If the latter program is followed, the student's course of study during the first two years will be altered to include less of the scientific work in the freshman and sophomore years by deferring some of it until the junior and senior years. A student following a four-year program should choose biology or chemistry as his field of concentration.

ACADEMIC REGULATIONS

ENROLLMENT AND REGISTRATION

GENERAL REQUIREMENTS

A STUDENT upon enrolling will receive a registration card on which, under the direction of his adviser, he will make out his course of study for the semester.

After the course of study has been decided upon, the student takes the card to the business office and pays the tuition and fees. The registration card with the treasurer's receipt stamp upon it is then taken to the registrar and cards admitting to class are issued. The student's name is not placed on the class roll until the admission card has been received by the instructor.

When a student is advanced to sophomore rank he is expected to decide upon the subject in which he wishes to major. The professor at the head of the department chosen becomes his adviser. The student must consult him in all matters pertaining to his work.

A student may not change his major subject except at the beginning of the academic year.

A student ordinarily carries from fourteen to seventeen credit hours. The adviser may approve a schedule of seventeen hours, but advisers of freshmen and sophomores may grant permission to take seventeen hours only when physical education is included. For more than seventeen hours, permission must be granted by the faculty committee on extra studies. Permission to take more than eighteen hours will rarely be granted. The application for this work, approved by the student's adviser, must be made when registering.

CHANGES IN REGISTRATION

Until the second Saturday of the semester, at 5:00 p. m., the student may make changes in his registration without penalty. To make such changes, he must follow the procedure outlined below:

1. Confer with his adviser and secure a "Change of Course" card.
2. Confer with the dean, and secure his signature of approval. This step may be omitted if the change is made within the first week after the close of registration.
3. Secure the approval and signature of the instructor whose course is being dropped.
4. Secure the approval and signature of the instructor whose course is being entered.
5. Take the card to the business office to be certified, and pay a fee if it is required.

6. Take the completed card to the registrar, who will put the change into effect.

There will be no fee charged for these changes within the first week after registration. If the change results in a reduction of credit hours to less than 12 hours, adjustment will be made. If there is an increase in credit hours to more than 17 hours, tuition charges will be added.

A course from which a student withdraws without permission is recorded as "failure," as is also a course dropped with permission unless it is dropped not later than the week following the first survey report of the semester. Exceptions are made in case of illness or other unavoidable circumstances.

THE SYSTEM OF GRADING

All students pursuing a subject are ranked according to their work as A, B, C, D, E, I, F, or W.

A indicates Excellent.

B indicates Good.

C indicates Fair, or average.

D indicates Poor, but passing.

E indicates Conditioned.

I indicates Incomplete.

F indicates Failure.

W indicates Withdrawn.

Each teacher determines the rank of his own students in his own way.

A grade of "A" counts four grade points per semester hour.

A grade of "B" three grade points per semester hour.

A grade of "C" two grade points per semester hour.

A grade of "D" one grade point per semester hour.

RULES FOR REMOVAL OF "E" AND "I" GRADES

Students who have E or I grades and wish to have these temporary grades removed, must make application upon a form secured from the registrar within the first two weeks after the beginning of the semester following that in which the E or I grades have been incurred. This rule applies, also, to students who are not in college in the semester following that in which these grades have been received; these students may apply for permission to postpone the removal of the temporary grades until they have returned to college.

When the student has met the requirements and the teacher is ready to make the report to the registrar, the student will secure from the registrar a card upon which is reported the change of the E or I grade to a credit grade. A fee of \$1.00 is charged, payable when this card is secured by the student. In cases in which an I grade has been given because of an illness or other unavoidable circumstance, the fee is not required.

An E grade is given to students whose work for the course is between D and F. This grade shows that there is a deficiency in the quality of the work done and that another examination must be taken or other require-

ments met before credit can be given. The E grade can be changed only to a D.

The I grade does not indicate that the work of the course has been poorly done. This grade shows that there is a deficiency in the quantity of work done and that additional work must be done or other requirements met before a credit can be given. An I grade can be changed to any grade.

If the E or I grade is not removed during the semester following that in which it is incurred, except when definite arrangements approved by the dean have been made for an extension of time, the temporary grade is changed to F.

ATTENDANCE REGULATIONS

At Monmouth College responsibility for class attendance is placed upon the student except that this is limited by certain regulations which are printed in the "Monmouth College Red Book" which is available to students at the beginning of each college year.

STUDENTS PLACED ON PROBATION

A student who in any semester fails to earn a grade point average of at least 1.5 grade points per credit hour is placed upon probation for the following semester. At any time, a student doing very poor work (for freshmen this means a grade-point average of 1.0) may be warned and placed on probation, with the understanding that unless his grade-point average is at least 1.5 at end of the semester, he may be dropped from college. A student who in the semester that he is on probation fails to earn a grade-point average of at least 1.5 grade points per credit hour is required to withdraw from college for at least one semester.

CLASSIFICATION

The records in the registrar's office for the annual catalog close at the completion of registration for the second semester.

The student who has presented satisfactory entrance credentials is ranked in the catalog as a freshman.

The student who has thirty-one hours of college credit after deducting all entrance deficiencies and who has a grade-point average of 1.6 is ranked as a sophomore. A sophomore whose grade-point average is less than 1.6 is on probation.

The student who has sixty-two hours of college credit, and no entrance deficiencies and no unfinished freshman requirements and who has a grade-point average of 1.8, is ranked as a junior. A junior whose grade-point average is less than 1.8 is on probation.

The student who has ninety-three hours of college credit and who has a grade-point average of 2.0, is ranked as a senior. A senior whose grade-point average is less than 2.0 is on probation.

An applicant who does not present credentials showing that he is a graduate of a recognized accredited secondary school, or a student who has not gained as many as twelve hours of college credit is classed as a special student. Special students are subject to all class and college regulations applicable to regular members of the college.

EXAMINATIONS

Each semester's work is regarded as complete in itself, and credit is given in terms of semester hours, but the final examination in a subject covering more than a single semester may embrace the entire subject.

HONORS IN COURSE

The honors at graduation are either *summa cum laude*, *magna cum laude*, or *cum laude*. The student is ranked upon his own merit, not upon his comparative standing. To be eligible for honors at graduation, a student must have been in residence at least four semesters. To be eligible for the honor *summa cum laude*, the work taken in residence must average 3.9 grade points per hour. To be eligible for honors *magna cum laude*, the work taken in residence must average 3.75 grade points per hour. To be eligible for honors *cum laude*, the work taken in residence must average 3.5 grade points per hour.

INDEPENDENT STUDY

Students who are qualified to do independent work may apply to the Committee on Independent Study for permission to do independent work in any course. Such applications must have the approval of the applicant's adviser and of the instructor in the course.

REPORTS

Reports are sent to parents or guardians at mid-semester and at the close of each semester. The registrar should be notified where the report fails to come within ten days after the close of the semester.

RECORDS

A permanent record of all credits obtained by each student is kept by the registrar. The credits are kept on the basis of a full semester, no entry being made for less. No credits are placed in the records except as they are officially reported by the teacher under whom the work is done.

REGULATIONS OF THE SENATE

If any student shall be admitted after the beginning of a session, he shall pay the fee accruing on the whole session.

In case of sickness or other unavoidable reason, which causes a student to withdraw for more than one-half session, a refund order, covering one-third of the tuition for that session will be given in tuition not transferable, provided application is made within the session of absence, and provided that the student returns to college within three years. In no case will other fees be refunded.

The use or possession of alcoholic beverages or the frequenting of taverns and saloons is contrary to regulations of Monmouth College and is deemed sufficient cause for dismissal, as is any flagrant violation of the social code of morals and propriety.

RELIGIOUS MEETINGS

All students except those excused by vote of the faculty, are required to attend the worship of God in the chapel daily. All who do not reside with their parents are expected to attend public worship in some church on the Sabbath. All students are required to attend the monthly vesper service

which is held on the first Sabbath afternoon of each month in the college auditorium.

COLLEGE YEAR

The college year consists of two semesters of eighteen weeks each. There are two vacations, one at Christmas holidays, the other near the Easter season.

ATHLETIC FIELD

The athletic field and gymnasium are under the supervision of the Board of Athletic Control.

There shall be no match games played on the field during recitation hours without the consent of the faculty. There shall be no subletting of the field or gymnasium to any outside association, club, or individuals for the purpose of playing games, sharing gate receipts, or for any other purpose whatsoever except as authorized by the Board of Athletic Control and by the President of the College.

GOVERNMENT

It is the aim of the faculty to secure good order and diligence in study by force of moral and religious principles, rather than by direct exercise of authority. Those who persist in neglecting their studies, or in pursuing disorderly courses, or in exerting an evil influence, will not be permitted to remain in college.

EXPENSES

TUITION AND FEES

TUITION per semester\$200.00

This includes instruction, student activity fee*, health fee and laboratory fees for a complete program of from 12 to 17 semester hours inclusive except fees indicated below and minor incidental fees required in special courses.

When less than 12 hours are carried, the tuition charge is \$17.00 per semester hour. When by special arrangement a student carries more than 17 hours, the additional charge is at the rate of \$9.00 for each hour above 17. Courses by special arrangements are \$11.00 per hour.

Matriculation fee\$ 10.00

Graduation fee 10.00

Practice Teaching fee 10.00

Late Registration fee 3.00

Change in Registration after the second Saturday of the semester 3.00

Flight Training Laboratory fees:

Dual instruction per hour 11.00

Solo per hour 8.00

Private Lessons in Interpretative Reading:

Registration fee for students not enrolled in college 1.00

Eighteen lessons 18.00

Nine lessons 12.00

Individual lessons 1.50

Laboratory breakage is billed at the end of each semester.

TRANSCRIPTS

Each student who has taken work in Monmouth College is entitled to two transcripts showing the record of his work, without charge. For additional transcripts a fee of \$1.00 each will be charged.

SPECIAL EXAMINATIONS

Students absent from a regular final examination or from an announced test will be charged a fee for a special examination unless the reason for the absence is illness, illness in the family, or absence as a representative of the college. The fee for a final examination is \$2.50, for an announced test, \$1.25. A receipt showing that the examination fee has been paid must be presented before the examination is given.

* The student activity fee includes admission to all regular athletic games, artist-lecture course entertainments, a copy of the Ravelings (year book), a semester's subscription to the Oracle (college paper), admission to plays in the Little Theatre, support of forensics, the student council, Women's Athletic Association, the student union, and class membership dues.

DEPARTMENT OF MUSIC FEES

Courses in music may be included under the college tuition upon the same basis as other college courses except that additional charges are made for private lessons in applied music as shown below.

TEACHER	SUBJECT	LESSON LENGTH	LESSONS PER WEEK	TUITION EACH SEMESTER
Mr. Shaver	Voice	30 minutes	One	\$32.00
	Voice	30 minutes	Two	60.00
	Voice	20 minutes	Two	36.00
Miss Riggs	Piano, Organ	30 minutes	One	36.00
	Piano, Organ	30 minutes	Two	65.00
	Piano, Organ	20 minutes	Two	42.00
Mr. Matson	Piano, Organ	30 minutes	One	36.00
	Piano, Organ	30 minutes	Two	65.00
	Piano, Organ	30 minutes	One	25.00
	for H. S. and Grade	30 minutes	Two	45.00
Mr. Loya	Violin, Flute	30 minutes	One	25.00
	Violin, Flute	30 minutes	Two	45.00
	Violin for Grade School & H. S.	30 minutes	One	20.00
		Class	One	12.00
Mrs. Peterson	Piano	30 minutes	One	15.00
	Piano	30 minutes	Two	28.00

Piano rent per semester, one hour daily \$5; 2 hrs.. \$8; 3 hrs., ...\$10.00
 Organ rent per semester, one hour daily, \$25, or 25c. an hour.

DORMITORIES

RATES FOR ROOMS AND MEALS

Meals, per academic year\$315.00*
 Room Rent, per academic year\$117.00- 171.00*

ROOM RESERVATIONS

New students' applications for rooms should be made as early as possible. Freshman rooms are assigned in the order in which room reservations are received. Students in attendance, who plan to return the following year, are given a choice of rooms until April 1st. After April 1st, rooms will be assigned by the Business Office.

* Subject to change if necessitated by rising prices.

ROOM DEPOSITS

New students' room applications must be accompanied by a room deposit of \$10.00. This amount remains on deposit as a breakage or damage fee and will be returned to the student at the close of the school year provided there is no breakage or damage for which the college must be reimbursed.

Returning students' room applications must be accompanied by a room deposit of \$10.00 in order to secure a choice of rooms. All such applications for room for the following year must be made not later than April 1st. No room reservations for returning students can be held after this date without the deposit.

If, because of extraordinary circumstances, a student must cancel a room reservation, refund of the \$10.00 deposit will be made until June 1st. After June 1st, no refund can be made. (Latest refund date for new students entering college at mid-year is December 1st.)

PAYMENTS

New students are required to pay \$50.00, to apply on college expenses of the first year, upon receipt of notification of admission. If a student is unable to enter college because of illness or accident, this payment will be refunded if the college is notified prior to June 1st. (December 1st for new students entering at mid-year.)

Returning students are required to pay \$25.00, to apply on college expenses of the following year, not later than April 1st. Refund privileges for returning students are the same as for new students.

All other payments for tuition, fees, room and meals are due at the beginning of the year. For the convenience of the student, one of the following payment plans may be adopted:

(a) Tuition and fees for the year payable at registration in September, room and meals payable in nine equal installments throughout the academic year;

(b) Tuition and fees for the semester payable at registration in September and February, room and meals payable in nine equal installments throughout the academic year.

(c) All tuition, fees, room and meals payable in nine equal installments throughout the academic year.

If a student desires to pay in advance the full amount of room and meals for the entire academic year, a discount of 5% will be allowed. A student paying in advance the full amount of room and meals for a semester will be allowed a discount of 4%. These discounts are not allowed to students who hold assistantships, or who receive scholarships or grants-in-aid, or who are assigned work.

A charge of 5% will be made on all past-due balances. A student whose accounts are not paid in full 10 days before the end of the semester is not eligible to take the final examinations in his course.

Any deviation from the foregoing schedule of payments must be cleared by application to the Business Office.

AN ESTIMATE OF ANNUAL EXPENSES*

MEN:	<i>Minimum</i>	<i>Adequate</i>	<i>Liberal</i>
Tuition and Fees	\$400.00	\$400.00	\$400.00

	\$862.00	\$908.00	\$936.00

* Subject to change if necessitated by rising prices.

PRIZES AND SCHOLARSHIPS

PRIZES

AMONG the prizes offered each year for excellence in various lines of activity are the following:

1. *The Waid Prizes.* Six prizes are offered for biographical reading as a means of cultivating interest in biography among college students. Three prizes of \$25.00, \$15.00, and \$10.00 are offered to freshmen. Three similar prizes are available to members of the three upper classes. These prizes were endowed by Dan Everett Waid, '87.

2. *James-Nevin Debate.* A debate prize of \$40.00 to be known as the James-Nevin Debate Prize has been endowed by Captain William James and James M. Nevin of the class of '79, to stimulate debating.

3. *Forensic Emblem.* This medal is presented by the College and the Forensic League to those who have represented the college in intercollegiate debate or oratory.

4. *Mary Porter Phelps Prize.* A prize of \$50.00 is awarded each year to the student who, in the judgment of the faculty, has manifested superiority in three points: scholarship, thrift and economy, and the development of character. Only those who have completed at least two years work in Monmouth College are eligible for this prize.

5. *The William B. McKinley Prizes in English.* In 1925 Senator William B. McKinley, of Illinois, endowed two prizes of \$50.00 each to encourage individual study and research in advanced work in English. The prizes are awarded each year to students who offer the best theses upon specially assigned subjects.

6. *Sigma Tau Delta Freshman Prizes.* Rho Alpha Chapter of Sigma Tau Delta offers each year three prizes on Commencement Day to the freshmen writing the best compositions in verse or prose. Entries must be prepared especially for this contest.

7. *Dan Everett and Eva Clark Waid Prize.* This prize of \$100.00 is endowed by Mr. and Mrs. Waid of New York and is awarded by the faculty on the basis of all-round excellence and development.

8. *The Mr. and Mrs. W. J. Buchanan Memorial Awards.* Awards aggregating \$50.00 each year are granted in recognition of marked character development and of significant contributions made to the distinctly Christian objectives of the College. These are not cash prizes but help to defray expenses incurred in attending youth conferences.

9. *The David Park Memorial Award* for excellence in debate. This scholarship provides \$50.00 each year to that student who in the opinion of the faculty committee most deserves commendation for ability, industry,

progress, and originality of thought. A student becomes eligible to receive this award only after two years of competition, and cannot receive the award more than once. The faculty committee is composed as follows: Miss Liedman, Mr. Thompson, Dr. Grier, *ex-officio*.

STUDENT AWARDS

Monmouth College grants financial assistance to students by means of student assistantships, scholarships and grants in aid.

The value of these awards, save where specified by endowment, varies in amount according to the financial need and the funds available. No student may receive help under more than one of these classifications.

These forms of aid are outlined below:

I. *Student Assistantships*. A limited number of student assistantships in laboratories and other departments is available to upper class students of high scholastic standing recommended by department heads.

II. *Scholarships*. These are of two kinds:

1. Scholarships granted to freshmen coming from the upper 10% of their high school classes, whose character and record promise achievement in college work and who could not attend college without financial aid. Proof of financial need must be shown by the applicant and concurred in by parents or guardian.
2. Scholarships granted to upper class students who in the preceding semester maintained a grade point average of not less than 3.0, and whose character and record promise achievement, and who can demonstrate the need for aid. They are awarded for one year only, and apply to tuition bills one-half each semester. If the recipient registers for less than 12 semester hours of college work, the amount of the scholarship will be reduced by 10% for each hour of reduction.

III. *Grants in Aid*. These are made to students of promise who do not qualify scholastically for scholarships, but who would not be able to attend college without help. New students who apply for this must rank in the upper three-quarters of their high school classes. No grants in aid are awarded to upper class students who have not made a grade of at least 2.0 the preceding semester.

The value of grants in aid varies in amount according to the need. These grants apply on tuition bills, one-half each semester and are granted in the anticipation of at least 15 hours of college work.

The children of ministers and missionaries receive the courtesy of tuition (exclusive of fees) at one-half the regular rate.

Scholarships and grants in aid are awarded with the understanding that the student has sufficient free time to study consistently. They are considered by the college to be inconsistent with too much outside work.

Scholarships and grants in aid are given with the understanding that the recipient will be able to meet the balance of his tuition bills. No scholarships or grants in aid are awarded for more than eight semesters. All scholarships and grants in aid are administered by a committee. This committee is:

President Grier, Chairman; Trustees, Dr. Ralph Graham, Mr. Ivory Quinby; Business Manager, Mr. David M. McMichael; Professors Beveridge, Cleland, and Thompson, and Mr. Petrie, Director of Admissions.

ENDOWED SCHOLARSHIPS

The following endowed scholarships are held by the college:

1. *The Eli B. and Harriet B. Williams Fund.* Hobart B. Williams of Chicago in 1915 established a fund in memory of his father and mother, Eli B. and Harriet B. Williams. This fund amounts to \$2,562,240 and is administered by the Continental Illinois Bank and Trust Company of Chicago. Monmouth College is one of the beneficiaries of the foundation and receives each year a fund to be used in the education of "deserving young people."

2. *The LaVerne Noyes Scholarship.* By the will of Mr. LaVerne Noyes of Chicago, a fund has been established providing financial aid for men who took part in World War I or the direct descendants of such men. The income varies from this grant from year to year, and the amount awarded depends upon the accepted number of applicants. These scholarships are awarded upon the same condition governing other Monmouth College scholarships.

3. *The Kathryn Arbella McCaughn Scholarship.* This is a scholarship endowed in memory of Kathryn Arbella McCaughn of the class of 1921 by her father and mother, Dr. and Mrs. T. E. McCaughn. It yields \$250.00 per year and is awarded each year by a special committee to a student of superior character and scholarship who thus becomes known as the "Kathryn McCaughn Scholar." The committee is: President Grier, Dean Cleland, and Mrs. McCaughn's brother, Dr. Ernest Work of Muskingum College.

4. *Special Anniversary Scholarships.* These are scholarships endowed at the seventy-fifth anniversary of the college by a special fund in memory of:

Mrs. Minnie McDill McMichael.

Professor John H. Wilson.

Mrs. Jennie Logue Campbell.

Professor Russell Graham.

Professor John H. McMillan.

These scholarships are awarded to upper class students who have shown superior scholarship, excellence of character, and uniform maintenance of high ideals through at least two years of college work. A special committee has charge of these awards.

5. *The Margaret Lord Music Scholarship.* This scholarship is the gift of Mrs. Josephine Lord Rienzi and Mrs. Mary L. Ferguson, and provides \$250.00 per year to be awarded to a student of junior or senior standing majoring in music who has shown at least two years of work of superior quality. Preference is to be given to piano students. This scholarship is

administered by a committee: President Grier, the head of the Department of Music, the head of the department of piano, and Mr. David McMichael.

6. *The American Association of University Women Scholarship.* This is a \$50.00 scholarship awarded by the Association to some worthy young woman of promise and need.

7. *The Margaret N. Worden Special Scholarship.* This is a scholarship endowed by Mrs. Margaret N. Worden of Roseville, Illinois, on the basis of a gift of \$2,000.00, and provides \$80.00 annually.

8. *The Margaret N. Worden Special Scholarship.* This is a scholarship endowed by Mrs. Margaret N. Worden of Roseville, Illinois, on the basis of a gift of \$3,500.00, and provides \$140.00 annually.

9. *The Spring Hill Special Scholarship.* This scholarship has been endowed by the United Presbyterian Congregation of Spring Hill, Indiana, by a gift of \$2,000.00 and provides \$80.00 annually.

10. *The N. H. and Isabelle Brown Special Scholarship.* This scholarship endowed by Rev. N. H. and Isabelle B. Brown on the basis of \$2,000.00 has been named in their memory and provides \$80.00 annually.

11. *The J. Boyd Campbell Scholarships.* There are two of these scholarships: (1) one endowed by Miss Effie E. Boyd of Monmouth, as a memorial to her nephew, J. Boyd Campbell, providing \$120.00 annually; (2) the second endowed by Mary Boyd of Monmouth in memory of J. Boyd Campbell, is to be awarded to an English major by a committee composed of the college president, and the head of the English department. It produces \$40.00 annually.

12. *The Lois Diffenbaugh Scholarship.* This is a scholarship endowed by Mr. and Mrs. J. D. Diffenbaugh providing \$25.00 annually to be awarded to a violin student.

13. *The Mabel Hinman Scholarship.* This is a scholarship providing \$60.00 annually endowed in memory of Miss Mabel Hinman.

14. *The Max Turnbull Scholarship.* This scholarship is awarded to an outstanding high school graduate of either Warren or Henderson County for excellence in character, scholarship, and athletics. It amounts to \$200.00 and applies to the tuition of the freshman year.

15. *The Bigger (Sarah Holmes) Scholarship* endowed by J. Bradford Bigger of Ohio.

16. *The Bohart Scholarship* endowed by Jacob Bohart of Iowa.

17. *The Brush (George H.) Scholarship* endowed by George H. Brush of Iowa.

18. *The C. G. Denison-William M. Story Scholarship* endowed by Oscar Person of Indiana.

19. *The Elliott (Bella M.) Scholarship* endowed by Mrs. E. A. Brownlee of Pennsylvania.

20. *The Elmira Scholarship* endowed by the United Presbyterian Church of Elmira, Illinois.

21. *The Findley (John Q.) Scholarship* endowed by John Q. Findley of Illinois.

22. *The Gibson Scholarship* endowed by Robert J. Gibson of Iowa.
23. *The Hume Scholarship* endowed by Janet T. Hume of Illinois.
24. *The Kinkaid (Jane) Scholarship* endowed by Andrew Kinkaid of Indiana.
25. *The Kinkaid (Mattie) Scholarship* endowed by Andrew Kinkaid of Indiana.
26. *The Lafferty Scholarships* endowed by John Lafferty of Illinois.
27. *The Lowry (Olive J.) Scholarships* endowed by A. J. Lowry of Michigan.
28. *The Nash Scholarship* endowed by Hugh Nash of Illinois.
29. *The Norwood Scholarship* endowed by an association of college patrons of Norwood, Illinois.
30. *The Oliver (Adam) Scholarship* endowed by William Oliver of Illinois.
31. *The Somonauk Scholarship* endowed by the United Presbyterian Congregation of Somonauk, Illinois.
32. *The Hanover Scholarship* endowed by the United Presbyterian Congregation of Hanover, Illinois.
33. *The Wallace (Martha) Scholarship* endowed by Henry Wallace of Iowa.
34. *The Watson (J. F.) Scholarship* endowed by Mrs. J. F. Watson of Indiana.
35. *The Wright (John) Scholarship* endowed by four children of John Wright of Ohio.
36. *1901 Class Scholarship* endowed by the Class of 1901.
37. *The Park (Robert Y.) Scholarship* endowed by Robert Y. Park of Illinois.
38. *The Smith Hamill Scholarship* endowed by Smith Hamill of Iowa.
39. *The Marion B. Sexton Scholarship* endowed by Vice Admiral Walton B. Sexton of the United States Navy.
40. *The John Charles Hanna Scholarship* endowed by Mrs. Ella Porter Gillespie of Pennsylvania.
41. *The St. Clair Scholarship* endowed by William St. Clair of Iowa.
42. *The Garrity Scholarship* endowed by Mr. and Mrs. H. O. Garrity of Illinois.
43. *The Frew Scholarships* endowed by William B. Frew of Illinois.
44. *The Margaret Pollock Scholarship* endowed by Mrs. Mary Pollock Graham of Illinois.
45. *The Woods Scholarships* (3) endowed by the Misses Alice and Omaha Woods of Illinois.

46. *The Biggsville Scholarship* endowed by the United Presbyterian Congregation of Biggsville, Illinois.

47. *The First Washington Scholarship* endowed by the First United Presbyterian Church of Washington, Iowa.

48. *The Stronghurst Scholarship* endowed by the United Presbyterian Congregation of Stronghurst, Illinois.

49. *The Prudence Margaret Schenck Scholarship* endowed by her sons.

50. *The Luella Olive Parshall Scholarship* endowed by Mrs. S. K. Parshall of Illinois.

51. *The John Carothers Scholarships* endowed by the Carothers family of Illinois.

52. *The Mrs. Mary Elizabeth Kilpatrick Scholarship* endowed by her sons.

53. *The Henry A. Todd Scholarship* endowed by Henry A. Todd (Class of 1880) of Ohio.

54. *The McLaughlin Scholarship* endowed by the McLaughlin brothers of Iowa.

55. *The White Scholarship* endowed by Weaver White of Illinois.

56. *The Prugh Scholarship* endowed by J. Mason Prugh and Thomas K. Prugh of Xenia, Ohio.

57. *The Xenia Scholarship* endowed by the First United Presbyterian Congregation of Xenia, Ohio.

58. *The Emma Brownlee Kilgore Scholarship* endowed by Mrs. Emma Brownlee Kilgore of Illinois.

59. *The Andrew Johnston Scholarship* endowed by Andrew Johnston of Illinois.

60. *The Martha Thompson Scholarships* (2) endowed by W. I. Thompson of Illinois.

61. *The Hattie Boyd Campbell Scholarship* endowed by the sisters, Mrs. Emma Boyd Krause, Miss Mary Boyd, and Miss Effie Boyd, in memory of their sister Hattie Boyd Campbell.

62. *The Thomas McBride Dysart Scholarship* endowed by Dr. and Mrs. L. E. Robinson of Monmouth, in memory of their brother Thomas McBride Dysart, to be awarded to a student who has Christian work definitely in mind.

63. *The Luther Emerson Robinson Scholarship* endowed by his children, Mrs. Ina R. Huey, Philadelphia, Pa., Edgar E. Robinson, Berkeley, California, and Mrs. Harriet R. Stewart, Detroit, Mich., in honor of their father, Dr. L. E. Robinson, head of the English Department of Monmouth College, 1900-1938. This scholarship is to be awarded to a student of purpose and character.

64. *The Shields Scholarships* endowed by Nellie and Minnie Shields of Illinois.

65. *The Johnston Scholarship* endowed by Dr. and Mrs. Robert Curry Johnston of Aledo, Illinois in memory of Elizabeth Johnston Stewart.

66. *The J. B. Taylor Scholarship* endowed by Mr. and Mrs. J. B. Taylor of Iowa.

67. *The Nannie J. J. Taylor Scholarship* endowed by Mr. and Mrs. J. B. Taylor of Iowa.

68. *The Elder Ministerial and Christian Work Scholarship* endowed by John D. and Katherine Elder of Maryland. This scholarship is annually to be awarded to a student having Christian work definitely in mind.

69. *The Crimson Masque Scholarship*. This is a scholarship endowed by Crimson Masque and other friends of the college. It is to be awarded each year to a student of general speech efficiency who is especially skilled in dramatics. The administrative committee is composed of the President of the College and the faculty of the Department of Speech. This scholarship has been inaugurated and is being increased through gifts of former speech students and friends.

70. *The Dr. and Mrs. J. A. Barnes Scholarship* endowed by the children of Dr. and Mrs. J. A. Barnes of Illinois in memory of their parents. This scholarship has been inaugurated and is being increased. It has been designated for a student having in mind Christian work.

71. *The Women's General Missionary Society of the United Presbyterian Church Scholarship* endowed by the Women's General Missionary Society of the United Presbyterian Church. This provides a scholarship of \$200 annually for a student who is preparing for full time missionary service.

72. *The Synodical Scholarships*. Two scholarships are provided by controlling Synods: (a) The Second Synod of the West provides for a worthy student of good scholastic standing from Second Synod a scholarship each year amounting to half tuition, with the understanding that the college provide the other half. (b) The Synod of Illinois each year provides a scholarship in the amount of \$100 for a worthy student of good standing in his high school class from the Synod of Illinois.

73. *The Mildred Steele Nearing Scholarships* founded by the Florence Steele estate of Monmouth, Illinois, make provision for two scholarships of \$125 each to be awarded to graduates of Monmouth High School on the basis of scholarship, character, and need.

ENDOWED PROFESSORSHIPS

A large part of the endowment fund of the college has been given by those who desire to make perpetual certain chairs and departments of the college. These endowed professorships are:

1. The Harding Professorship of English Language and Literature, endowed by General A. C. Harding, of Illinois in 1856.

2. The Pressly Professorship of Natural Science, endowed by W. P. Pressly, of Illinois, in 1866.

3. The Alumni Professorship of Philosophy, endowed by the Alumni of the College in 1881.

4. The Mathers Professorship of Social Science. endowed by Joseph Mathers, of Illinois, in 1895.

5. The Laws Foundation of English Literature, endowed by James and Ellen C. Laws of New York, in 1899.

6. The John Young Bible Chair. Through the efforts of the United Presbyterian Board of Education, a chair of Bible has been endowed. This chair is known as the "John Young Chair of Bible," in memory of John Young of Knox County, Illinois, from whose estate came the largest contribution to the fund.

7. The Alice Winbigler Chair of Mathematics, endowed by Miss Alice Winbigler in memory of her sister, Julia E. Winbigler, and through funds added by friends of Miss Winbigler.

8. The Clyde Fulton Young Chair of Political Science. This department has been endowed in the amount of \$40,000 by Clyde Fulton Young, A. B., LL. B., of Pittsburgh, Pennsylvania. He was a graduate of the Class of 1899.

BUREAU OF SELF-HELP

A bureau to assist in obtaining employment for students of the college who are in a measure dependent upon their own resources has been in operation for several years.

STUDENT LOAN FUND

This fund is used for students who find it necessary to borrow money, in order to complete their college courses. Many students take advantage of this fund, repaying the loans as soon as they finish their education and obtain positions.

THE HENRY STRONG EDUCATIONAL FOUNDATION

The Henry Strong Educational Foundation allots a certain amount of money each year for making loans to upper classmen. Repayments are due after graduation; 10% the first year, 20% the second year, 30% the third year and 40% the fourth year. Interest at 4 per cent accrues after graduation. All repayments are again credited to Monmouth College for use in making additional loans. No loans can be made to students over twenty-five years of age.

LIBRARY ENDOWMENTS

1. The John A. and Margaret J. Elliott Library of Religious Education. A special fund has been set apart through the generosity of Mr. and Mrs. John A. Elliott, of College Corner, Ohio, for the maintenance and enlargement of a library in connection with the Department of Biblical Literature.

2. The John Lawrence Teare Memorial Library Fund. This fund of \$2,000, was presented by John K. and Grace C. Teare, of Monmouth, Illinois, in memory of their son, John Lawrence Teare, '16, who died in the U. S. Naval Service on September 11th, 1918, at Bumkin Island, Boston Harbor.

The income is to be used for the purchase of books related to the social sciences.

3. Kappa Kappa Gamma Memorial Fund. The Kappa Kappa Gamma national sorority, founded at Monmouth College in 1870, in 1931 established, as a memorial to its founders, a library fund in the amount of \$3,750. The income from this fund is used each year in the purchase of books for the library.

THE KILLOUGH LECTURE FUND

Hon. W. W. Stetson of Auburn, Maine, a few years ago, by the gift of \$5,000 endowed a fund to be known as the "Killough Lecture Fund." This provides for bringing before the students of Monmouth College from time to time prominent men.

LIFE ON THE CAMPUS

RELIGION ON THE CAMPUS

LIFE on Monmouth College campus is visibly influenced by the close bonds that exist with the United Presbyterian Church of North America.

Monmouth College recognizes that the only true wisdom is knowledge sharpened by Christian experience. It feels an obligation to the student and to the world to present Christianity as a way of living as well as a way of worship. Many of the activities on the campus are dedicated to this proposition.

CHAPEL SERVICES

Services are held daily in the College Chapel under the direction of President Grier. Every student, except those excused by the faculty, goes to chapel. A Chapel Choir is especially trained to present the musical background for the daily chapel worship.

Vesper services, at which attendance is required, are held one Sabbath each month. President Grier preaches and presides at these services.

THE CHRISTIAN ASSOCIATIONS

The Y. W. C. A. and the Y. M. C. A. are active on the campus. These two groups support the Monday evening college prayer meeting, the "Religious Emphasis" week, and other religious activities. They contribute in many ways to the social and religious life of the college. An important work of the Christian Associations is to welcome the new students to the campus. The new student coming to Monmouth may expect to be greeted by these organizations within the first few days of his arrival. The President of the Y. W. C. A. during the year has been Miss Helen Moore, of Hanover, Illinois. The President of the Y. M. C. A. has been Ralph Marshall of Chula Vista, California.

C. C. A.

Throughout the history of the College a religious meeting has been sponsored each week by the students. This meeting, known familiarly as the "C. C. A. (Campus Christian Association) Meeting" is now held on Monday evenings. Under the direction of the faculty and students a varied program is presented. A good attendance, on occasions nearly half the student body, shows that the meetings are appreciated.

ICHTHUS CLUB

Ichthus Club is the organization of men and women who have enlisted their lives in one of the professions of Christian leadership. It offers devotional meetings, fellowship, and other organized activities to its members. The President during the past year has been Harold Kurtz, of Nyssa, Oregon.

RELIGIOUS EMPHASIS WEEK

In addition to guest speakers in the chapel services from time to time, a special period each year is devoted to an emphasis upon the spiritual needs of the students. The services of an appealing Christian minister are secured. He makes daily appearances before the student body, and engages in personal counselling with the student who seeks his guidance. The guest minister for "Religious Emphasis Week," in the fall of 1947, was the Rev. W. W. Orr, pastor of the Westminster United Presbyterian Church in Des Moines.

COLLEGE AND STUDENT ORGANIZATIONS

LITERARY SOCIETIES

In her early days, Monmouth had four literary societies, the Ecclitean and Philadelphian for men, and the Amateur des Belles Lettres and Aletheorean for women. These societies were ably conducted and the work done in them was a very important part of the college training. Because much of the work formerly done by the literary societies has been taken over by other organizations or departments of the college, interest in the literary societies declined and these organizations have ceased to exist. The society halls on the third floor of Wallace Hall in recent years have been used by the Department of Speech and for social gatherings.

LECTURE-ARTIST COURSE

A Lecture and Artist Course is maintained which enables the students to hear distinguished lecturers and professional talent in music and art. This course is under the management of a faculty committee.

STUDENT ASSOCIATION

This organization of the student body directs such student activities, and regulates such matters of student conduct as fall within its province. Its officers are president, vice president, secretary and treasurer. The president of the Student Association during the past year has been Harold Kurtz, of Nyssa, Oregon. The Secretary was Jack Weckerly, San Diego, California.

The Student Council through which the organization functions consists of the following members: The officers of the Student Association, the several class presidents, one representative from each class, student representatives of the Athletic Board, editor of the Oracle, president of the Forensic Board, and dormitory house presidents.

COLLEGE PAPER

The Oracle, a weekly paper, issued by the students, furnishes opportunity to cultivate a literary taste and spirit, and gain practice in news gathering, editing, proof reading, advertising and other features of newspaper work. Don Whiteman, of Monmouth was editor during 1947-48.

FRATERNAL ORGANIZATIONS

Seven sororities and fraternities have been authorized by the Senate of the College, and are functioning under faculty supervision. Four of these,

Kappa Kappa Gamma, Pi Beta Phi, Alpha Xi Delta, and Kappa Delta are for women, while the other three, Alpha Tau Omega, Tau Kappa Epsilon and Theta Chi, are men's organizations. All groups are affiliated with the national organizations of the same names.

Kappa Kappa Gamma and Pi Beta Phi, two outstanding national sororities, were founded on the Monmouth campus.

THE RIFLE CLUB

The Rifle Club operates to give beginning and advanced instruction in gallery rifle shooting. It has a range, rifles, and other equipment, and is affiliated with the National Rifle Association.

HONORARY FRATERNITIES

SIGMA OMICRON MU

This is a permanent organization developed from the earlier Liberal Arts Club. Its members are those who rank highest in scholarship. Its purpose is to foster intellectual achievement. Only juniors and seniors who have earned a specified number of grade points, and have consistently maintained this high standard, are eligible for membership.

PHI ETA MU

Phi Eta Mu is an honorary freshman scholastic fraternity founded to promote high scholarship among the men of the freshman class. Any freshman carrying at least twelve hours of college work, who makes an average of three and one-half grade points per semester hour during the first semester of his freshman year, or who shall make this average over the entire year, is eligible for membership. The organization of the fraternity in 1931 was sponsored by Dr. Beveridge, now faculty adviser.

PI GAMMA PI

Pi Gamma Pi is an honorary scholastic sorority organized to encourage high scholarship among the women of the freshman class. A girl carrying at least 12 hours of college work must make an average of 3.5 for the first semester of her freshman year or for the first and second semesters combined. The girl who is taken into Pi Gamma Pi remains an active member as long as she is a Monmouth student. Miss Barr, who organized Pi Gamma Pi, serves as its faculty adviser.

PI KAPPA DELTA

For a number of years Monmouth's women belonged to one honorary national forensic society, Pi Kappa Delta, while the men belonged to another, Tau Kappa Delta. In 1929, to unify the forensic activities, both groups united with Pi Kappa Delta. Membership in the local chapter is limited to students who have represented the college for two years in intercollegiate oratorical or debate contests. A jewelled key, the emblem of membership, is awarded by the college each year to those who have become eligible.

SIGMA TAU DELTA

In February, 1926, the Rho Alpha Chapter of the Sigma Tau Delta professional English fraternity, was organized at Monmouth with four

faculty and twelve student members. Membership requires an average grade in all college work of not lower than "B". The purpose of the fraternity is to encourage creative writing among its members. Monthly literary programs are held from October to May at which original papers are presented, followed by discussion and criticism.

TAU PI

Tau Pi is a women's organization corresponding to Mortar Board on other campuses. It was founded by Dean Mary Ross Potter, and initiates its 17th class in May, 1948. Girls who achieve the finest ideals of womanhood are chosen at the end of their junior year, and make up the active membership of the organization during their senior year. Tau Pi makes an annual award to the "most outstanding freshman woman." The winner of that award in 1947 was Pauline Huxley Kurtz, of Des Moines, Iowa.

PI ALPHA NU

Pi Alpha Nu is an organization of campus musicians dedicated to the promotion of a closer fellowship among musically-inclined individuals. It encourages higher standards of study, work and performance. Admission comes after try-outs to demonstrate musical achievement.

INTERCOLLEGIATE FORENSICS

Intercollegiate debating is open to men and women. Within the last few years tournament debating has replaced the typical dual or triangular meet. Monmouth students during the year 1947-1948 participated in debate, oratory, extempore speaking, discussion, newscasting and after-dinner speaking in several tournaments. At the National Pi Kappa Delta tournament at Bowling Green, Ohio, Monmouth women representatives tied for first place in the "Sweepstakes." Monmouth entered in all events. Elsie Cory was rated "excellent" in oratory; Pat Hofstetter "excellent" in discussion; Margaret Petran, "good" in discussion; Cherry Lauder, "excellent" in extempore. Miss Lauder and Miss Hofstetter both were rated "superior" in debate. Their total score combined to bring the "Sweepstakes" trophy to Monmouth. William Butler was rated "superior" in extempore speaking, Roger Fritz, "excellent" in oratory, and both were rated "superior" in debate. At the Bradley Invitational Tournament, in Peoria, Elsie Cory was rated "superior" in newscasting and original poetry reading. William Butler was rated "superior" in oratory. Mr. Butler also placed first in extempore speaking at the tournament at Cedar Falls, Iowa.

In the latter part of the year 1947-48, attendance is planned for the Grinnell "United Nations" conference, at Grinnell, Iowa, the Illinois State Debate Tournament, and the Bi-Province Tournament of Pi Kappa Delta at Coe College, in Cedar Rapids, Iowa.

THE FORENSIC LEAGUE

This organization has for its primary object the planning for the preliminary and intercollegiate contests in oratory and debate. Related matters are often referred to it.

THE INTERCOLLEGIATE ORATORICAL ASSOCIATION

This organization plans for preliminary and intercollegiate contests in oratory. At the Illinois State tournament Lois Flament placed second in

oratory, Roger Fritz placed third in the men's division, and Marilyn Hofstetter placed second in extemporaneous speaking.

DRAMATIC CLUBS

CRIMSON MASQUE

Crimson Masque is the dramatic club of Monmouth College. It was organized in 1925 and its purpose is "to acquire an appreciation of good drama, skill in acting and producing plays, and to develop poise and power through self-expression." Students are eligible at the beginning of the second semester of the freshman year and are admitted to membership after extensive try-outs in acting and stagecraft. (See Department of Speech.) Crimson Masque occupies the college Little Theatre and owns all theatrical equipment, fixtures and furnishings in the building. Under the supervision of the faculty director, the club presents several public and laboratory productions during each school year.

NATIONAL COLLEGIATE PLAYERS

This is a national honorary dramatic fraternity which represents the organized educational theatre in America. National Collegiate Players joins together "trained college men and women" who "will serve as an intelligent nucleus to better and to further the interests of dramatic activities in the United States." Students who belong to Crimson Masque are eligible for membership in the second semester of the junior year provided they have earned a certain number of points in various dramatic activities and are elected by the local chapter. Elections must also have the approval of the national officers of National Collegiate Players.

DEPARTMENTAL GROUPS

THE INTERNATIONAL RELATIONS CLUB

This club consists of the students of the history and political science departments who are interested in the knowledge of the life, problems and aspirations of other people than our own. Monmouth is one of approximately forty colleges in the United States affiliated with the Institute of International Education of New York City and with the Carnegie Endowment for International Peace.

ZETA KAPPA EPSILON

The Beta chapter of Zeta Kappa Epsilon, honorary history fraternity, was organized at Monmouth in 1938. Active membership is limited to history students of high scholastic standing. Honorary memberships are granted to those, other than students, who have made outstanding contributions to historical study. By means of monthly meetings and a variety of activities, the fraternity attempts to stimulate an intelligent interest and participation in historical research.

BETA BETA BETA

The Gamma Pi chapter of Beta Beta Beta, a national honorary biological

fraternity, was recognized on the campus in 1945. The purpose of this organization is to promote scholarship and introduce students to methods of biological research. Active membership is limited to students with an active interest in biology who have completed three biology courses, and whose scholastic average for all courses is higher than that of the general college average. A number of provisional members are elected among students who have not as yet met these requirements. Frequent meetings are held throughout the year where reports of original work or reviews of biological literature are given by students or by visiting speakers.

MUSIC ORGANIZATIONS

The College Choir, which sings at the monthly vesper service is made up of sixty students, selected from a list of approved candidates who are permitted to register for the course in Choral Music. This choir works largely on unaccompanied music, and is well prepared to represent the college in a musical way in Monmouth and elsewhere.

The College Choral Society rehearses each Monday at eight. The Choral Society usually presents Handel's *Messiah* in December or another of the great oratorios. Last year the presentation was Mendelssohn's *Elijah*. Usually, an opera is given in the second semester. Membership is open to all students without try-outs at a fee of one dollar a year. In recent years the following Gilbert and Sullivan operas have been produced: "H. M. S. Pinafore," "Mikado," "The Gondoliers," "Trial by Jury," and in 1946, "Patience." In 1947 the operetta "Chimes of Normandy" was produced.

The Men's Glee Club is selected from the men of the choir; *The Girls' Glee Club* from the women of the choir.

The Monmouth College Band is under the direction of Mr. Heimo Loya and students enroll in it for credit in the theory and practice of band music. Membership is subject to permission by the director, and the course must be taken throughout the year. The band plays at athletic events and gives one or two public concerts each year.

The Monmouth College Orchestra is under the direction of Mr. Heimo Loya, and students enrolled in it are given credit for the course in the theory and practice of orchestral music. Membership is subject to permission of the director, and the course must be taken throughout the year. Last season it presented two home concerts.

The daily Chapel Choir consists of twelve to sixteen singers chosen from the college choir who rehearse two extra hours a week. They prepare special music for the daily chapel service.

ATHLETICS AND HEALTH

ATHLETICS at Monmouth are organized to benefit as many students as possible. Under the guidance of the Department of Physical Education every student receives in his first two years a thorough course in physical education, as well as basic training and participation in a variety of popular sports.

Monmouth College is a member of the Midwest Intercollegiate Athletic Conference. Monmouth participates regularly against Knox College in Illinois; Coe, Cornell and Grinnell Colleges in Iowa; Beloit, Ripon, and Lawrence Colleges in Wisconsin; and Carleton College in Minnesota. Competition is carried on in football, basketball, track, swimming, golf, tennis, and baseball. In recent years a rifle team has been formed which meets other schools, and is affiliated with the National Rifle Association. Both men and women shoot in this competition.

Part of the reason for the success of the "Fighting Scots" in inter-collegiate competition is found in the major emphasis placed on intramural competition. Every student takes part, if he desires, in one or more sports such as touch football, basketball, hand ball, volley ball, badminton, softball, track, swimming, golf, and tennis. This program is flexible, however, and in accordance with the needs and interests of students in the college various sports may be added from time to time.

Teams are organized to represent various groups in the college: residence halls, fraternities, town residents, non-fraternity men, married men, and other similar groups. Rules are compiled, schedules arranged, officials appointed, and equipment provided through the Department of Athletics. Suitable awards are provided in each sport.

ATHLETIC CONTROL

General oversight over all athletic activities is exercised by an Athletic Board, composed of two trustees, two members of the Alumni Association, two students and seven members of the faculty.

Physical examinations are required at the beginning of the year in order that the student may be fitted to the type of exercise for which he is adapted. These examinations are given under the supervision of the medical director.

WOMEN'S ATHLETIC ASSOCIATION

A program matching that for the men has been set up for the women of the college. With the expansion of the Department of Physical Education for Women in 1946 has come increased opportunity for the young women of the college to participate and secure instruction in many types of games, sports, and dancing.

The Women's Athletic Association is affiliated with the National Athletic Conference of American College Women. Its purpose is to promote the physical education of Monmouth women by:

1. The formation of good health habits.
2. Promotion of interest in games and all forms of activity which make for increased physical efficiency.

This organization, under the supervision of the Women's Athletic Director, sponsors archery, hiking, swimming, tennis, golf, basketball, hockey, and other sports.

HEALTH SERVICES

Monmouth College is vitally concerned to prevent sickness and promote good health among the students. Medical facilities are provided so that every student may be able to maintain his physical efficiency at a high level at all times, and the student who is ill may have good care in short order.

The completion of Winbigler Residence Hall for Women marked a mile-stone in the health program for Monmouth College students. The ground floor of the rear wing of the building is given over to a well-equipped infirmary. The integral parts of the installation are a dispensary, a treatment room, diet kitchen, and five standard hospital rooms, one containing a four-bed ward. It is possible to accomodate a maximum of twelve women patients. At the present time the use of the infirmary for hospitalization is restricted to the young women of the college. Hospitalization for the men, when necessary, is provided at the city hospital.

Dispensary facilities are available for all students. A physician is in residence near the campus giving full-time to the health service of the College. A registered nurse is also in residence on the dispensary floor of the dormitory, so that twenty-four hour medical service is available to meet emergencies.

From the time the new student submits the report of his medical examination at home until he leaves the campus, he is provided with excellent medical supervision. All these services are included in the tuition paid each semester by the student.

OUTLINE OF WORK OF DEPARTMENTS

COURSES taken in the several years are numbered as follows:

100-199 courses primarily for freshmen.

200-299 courses primarily for sophomores.

300-399 courses primarily for juniors and seniors.

APPRECIATION OF ART

THOMAS HOFFMAN HAMILTON, Professor

HARRIETT PEASE, Instructor

MARTHA M. HAMILTON, Instructor

This department aims to lead students to acquire that interest in art which is a mark of a liberal education. The courses are designed to furnish a foundation for the development of individual taste. Emphasis is placed on the vital connection between art and music, literature, religion, government, and other aspects of human society, past and present. Illustrated lectures, library reading, and study of photographs form the method of instruction. No courses are offered in practical art.

The field of concentration in art consists of:

(a) A departmental unit of at least 24 hours, including 101-102. Eight hours of the 24 must be in courses numbered 300.

(b) Related courses totaling 16 hours chosen from one of the following departments: Classics, education, English, history, music, philosophy, religion.

It is a great advantage for students concentrating in art to have a reading knowledge of Italian, French, and German.

INTRODUCTORY COURSES

101. SURVEY. A comprehensive course dealing with the art of Egypt, Mesopotamia, Greece, Rome, the Early Christian, Byzantine and Romanesque periods. First semester. Given each year. Two hours.

102. SURVEY.. A continuation of 101, through the Gothic, Renaissance, and Post-Renaissance periods. Second semester. Given each year. Two hours.

COURSES IN SPECIFIC ARTS

201. ARCHITECTURE. Ancient, mediæval, and Renaissance architecture as a basis for appraising contemporary architecture. First semester. Given in 1949-50. Three hours.

202. SCULPTURE. A review of the historical styles of sculpture, with special emphasis on American sculpture. Second semester. To be given in 1949-50. Three hours.

203. PAINTING. A study of painting from ancient times until 1500 A. D. First semester. Three hours.

204. PAINTING. From 1500 A. D. to the present. Second semester. Three hours.

206. GRAPHIC ARTS. A study of drawings, prints, with emphasis on picture structure, manuscripts, and printed books. Second semester. Given in 1948-49 and alternate years. Two hours.

211. DESIGN. A study of the fundamental elements and principles applied to costume and interior design. An analysis of each student's individual problems in relation to costume is stressed. First semester. Given each year. Two hours.

212. HISTORY OF INTERIOR DESIGN AND FURNITURE. A survey of interior design, furniture and decoration from prehistoric to modern times. Emphasis is placed upon the contemporary use of various styles. Second semester. Given each year. Two hours.

313. HOUSEHOLD MANAGEMENT. A study of house planning, exterior and interior; finance; selection and care of equipment. Special emphasis is placed upon contemporary materials and methods. Two hours.

314. AMERICAN FURNITURE AND DECORATION. Prerequisite: Art 211 and 212. Second semester. Two hours.

COURSES IN SPECIFIC PERIODS OR COUNTRIES

321. THE ART OF THE SPANISH RENAISSANCE. First semester. Two hours.

322. CONTEMPORARY ART. Twentieth century painting, architecture, and sculpture, with special emphasis on America. Second semester. To be given every year. Two hours.

323. THE ART AND CULTURE OF FRANCE. First semester. To be given in 1949-50 and alternate years. Two hours. Not open to freshmen.

325. BRITISH ART. First semester. To be given in 1948-49 and alternate years. Two hours.

326. ORIENTAL ART. India, China, and Japan. Prerequisite: junior standing or consent of instructor. Second semester. To be given 1949-50 and in alternate years. Two hours.

327. AMERICAN ART. First semester. To be given in 1949-50. Three hours.

328. GREEK ART. Second semester. Three hours.

331. THE ART OF THE FLORENTINE RENAISSANCE. First semester. To be given in 1948-49. Three hours.

332. THE RENAISSANCE IN VENICE. Second semester. To be given in 1948-49. Three hours.

333. NORTHERN RENAISSANCE. FLEMISH PAINTING. First semester. To be given in 1949-50. Two hours.

334. NORTHERN RENAISSANCE. DUTCH AND GERMAN PAINTING. Second semester. To be given in 1949-50. Two hours.

BIBLE AND RELIGION

HOWARD M. JAMIESON, JR., Assistant Professor

RUSSELL S. HUTCHISON, Assistant Professor

DAVID A. MURRAY, Special Lecturer

JOHN EASTWOOD, Assistant Professor

A. W. WEBSTER, Assistant Professor

with the assistance of

PROFESSOR HERBERT M. TELFORD, Department of Classics, and

PROFESSOR HAROLD J. RALSTON, Department of Classics.

Courses in this department have four main objectives:

1. To acquaint students with the Bible.
2. To assist students in their quest for moral and religious certainty.
3. To help students to discover the role of religion in contemporary life, personal and social.
4. To prepare students for the varied tasks of lay leadership and build a foundation for graduate work in the case of those choosing careers within the Church.

REQUIREMENTS FOR GRADUATION

Five hours of work in Bible and Religion. Of the five hours required for graduation, two must be completed by the end of the freshman year, and the other three must be taken in the sophomore, junior or senior year.

The field of concentration in Bible and Religion consists of:

- (a) A departmental unit of at least 24 hours.
- (b) Related courses, totaling at least 16 hours, chosen from one or two of the following departments: art, classics, education, English, history, music, philosophy and psychology, social science, and speech.

BIBLE

101. JESUS. A study of the life, character, and teachings of Jesus Christ as recorded in the four Gospels. First semester and second semester. Two hours.

102. PAUL. A study of the life, character, and teachings of the Church's foremost interpreter of the thought and spirit of the Master. Second semester. Two hours.

103. **LIFE AND LITERATURE OF THE NEW TESTAMENT.** A general introduction to the study of the world's greatest book and best seller. First semester. Two hours.

301. **BACKGROUND OF THE BIBLE.** A study of the conditions out of which our sacred Scriptures developed, familiarizing the student with the land and the people that produced the Book; the story of how this Book was made, transmitted, translated; practical consideration of the ways in which the Bible may be read and understood. First semester. Three hours.

302. **LIFE AND LITERATURE OF THE OLD TESTAMENT.** A survey of the history of the Hebrew people as revealed in the literature of the Old Testament and as seen against the background of world history with special emphasis on the great men of faith. Second semester. Three hours.

307, 308. **GREEK NEW TESTAMENT.** (See Greek 307, 308, Department of Classics.) First semester and second semester. Three hours.

311. **THE PROPHETS.** A study of the prophetic movement in Israel with emphasis on the chief characteristics of the life and work of the Old Testament literary prophets. Prerequisite: Bible 301 or 302. First semester. Two hours.

312. **HEBREW POETRY.** A study of the poetical books of the Old Testament. Prerequisite: Bible 301 or 302. Second semester. Two hours.

RELIGION

105. **BASIC BELIEFS.** A study of the fundamentals of our faith, and consideration of the chief creeds of Christendom. First semester. Two hours.

106. **CHRISTIAN LIVING.** The aim is to acquaint the student with Christian concepts of living, so that he will be enabled to meet his own personal problems with a Christian attitude and inject into the human community attitudes and practices that elevate its standards. Second semester. Two hours.

305. **CHURCH HISTORY.** A study of what the Christian Church has done in and for the world, from the apostolic age to the present, with special emphasis upon the great men who have been responsible for initiating and maintaining great movements of thought and action within the Church. First semester. Three hours.

306. **THE WORLD'S RELIGIONS.** An introduction to the history of religion, emphasizing the life and character of the founders, the philosophic development, the numerical and territorial expansion, the present faith and practice of the living religions of the world. Second semester. Three hours.

313. **PHILOSOPHY OF RELIGION.** See Department of Philosophy and Psychology.

321. **CHRISTIAN LEADERSHIP.** Intended specifically for and recommended strongly to students wishing to prepare themselves to render lay service in the Church. A general course on the history and organization and administration of the church school, principles and methods of religious education, including also a brief introduction to forms of worship, the use of the Bible, and the furtherance of missions. Three hours.

401. **THESIS COURSE.** On a subject of the student's own choosing. Open only to students who include Bible and Religion in their field of concentration. One or two hours.

402. READING COURSE. On problems of interest to the student. Open only to students who include Bible and Religion in the field of concentration. One or two hours.

BIOLOGY

W. MALCOLM REID, Professor

RALPH P. FRAZIER, Assistant Professor

RHODIA COOPER, Instructor

The field of concentration in Biology consists of:

(a) A departmental unit of at least 24 hours. In the pre-medical curriculum Chemistry 301 may be included in this 24 hours.

(b) Related courses totaling 16 hours, chosen from one or two of the following departments: chemistry, mathematics, physics, philosophy and psychology, sociology.

101. BOTANY. A review of the plant kingdom with emphasis on plant structure, physiology and classification. The economic importance of plants in the correlated fields of agriculture and forestry is considered. Open to beginners in biology. First semester. Four hours.

102. BOTANY. Continuation of Biology 101. Prerequisite: Biology 101 or special consent. Second semester. Four hours.

103. ZOOLOGY. An introduction to zoology designed to give an understanding of the morphology, physiology, ecology and heredity of representative species of the animal kingdom. Special emphasis will be placed on relating these concepts to man. Open to beginners in biology. First semester. Four hours.

104. ZOOLOGY. Continuation of Biology 103. Prerequisite: Biology 103 or special consent. Second semester. Four hours.

203. GENETICS. An introduction to the study of Mendelian inheritance in plant, animal and human heredity. Prerequisites: Biology 102 or 104 or special consent. Two hours.

301. BACTERIOLOGY. A general course consisting of a study of culture methods, morphology, analysis, sanitation, and disease. Prerequisites: Biology 101 and 102, or 103 and 104, Chemistry 101 and 102, or special consent. Three hours.

302. HISTOLOGY. Animal tissues are studied in lecture and in half of the laboratory time. The remainder of the laboratory deals with the theory and practice of microtechnique. Prerequisites: Biology 103 and 104. Lecture W. Three hours.

303. PHYSIOLOGY AND HYGIENE. A study of the anatomy and physiology of the human body. The course covers the skeletal, muscular and nervous systems. Prerequisites: Biology 103 and 104, an elementary knowledge of chemistry or special consent. First semester. Three hours.

303a, 304a. PHYSIOLOGY AND HYGIENE. By special consent these courses may be taken without laboratory. Two hours.

304. **PHYSIOLOGY AND HYGIENE.** A continuation of Biology 303. This course covers the circulatory, respiratory, digestive and urogenital systems. Prerequisites: See Biology 303. Second semester. Three hours.

305. **COMPARATIVE VERTEBRATE ANATOMY.** A detailed study of the comparative anatomy of vertebrates. Dogfish, Necturus, and cat are used as types in the laboratory. Prerequisites: Biology 103 and 104. Four hours.

306. **EMBRYOLOGY.** A study of the embryological development of vertebrates with emphasis upon human embryology. Prerequisites: Biology 305. Four hours.

307. **PARASITOLOGY.** A study of the animal parasites belonging to the protozoan, helminth and insect groups with particular emphasis on parasites of man. Prerequisites: Biology 104. Three hours.

401a, 401b, 401c. 401d. **RESEARCH.** Offered by special arrangement. One to four hours.

CHEMISTRY

WILLIAM S. HALDEMAN, Professor

GARRETT W. THIESSEN, Professor

BENJAMIN T. SHAWVER, Assistant Professor

JOSEPHINE K. MARSHALL, Instructor

The field of concentration in Chemistry consists of:

(a) A departmental unit of at least 24 hours including course 301.

(b) Related courses, totaling at least 16 hours in one or two of the following departments: biology, mathematics, physics, German.

Students preparing for graduate work in chemistry will not be recommended to the graduate schools unless their field of concentration includes Chemistry 302, 306, 401 and 402; Physics 202 and Mathematics 202. Chemistry 204 is desirable, also Chemistry 403 and 405.

They should have at least three years of French and German. If only three years of language are taken, it is suggested that this be two of German and one year of French. German or French taken in high school will partly satisfy the language requirement.

For the student preparing for training in medicine, pharmacy, dentistry, veterinary medicine, and nursing, or as a medical technician, it is recommended that the field of concentration include biology and physics. A reading knowledge of German is also recommended.

101e. **GENERAL—ELEMENTARY.** For students having had no previous chemistry course. A study of the simplest chemical elements, principles of equation writing, and stoichiometry. Simple preparations are done in the laboratory. Three class and one laboratory meetings per week. First semester. Four hours.

101enl. **GENERAL—ELEMENTARY.** This is Course 101e without laboratory. First semester. Three hours.

101a. GENERAL—ADVANCED. Chemistry students having had the subject in high school are required to enter this division. The commonest non-metallic and metallic elements, their compounds, and derived radicals of importance in qualitative analysis, are studied. Three class and two laboratory meetings per week. First semester. Five hours.

102e. GENERAL. This is a course primarily for liberal arts students. It will satisfy the prerequisite for organic and for qualitative analysis. The course consists of three main divisions: introduction to organic chemistry, food and nutrition, and industrial chemistry. Prerequisite: Chemistry 101e, 101enl, or 101a. Sections as for 101e. Second semester. Four hours.

102enl. GENERAL. The lecture, recitation and quiz topics and the hours of class meetings are the same as for 102e. No laboratory. Prerequisite: Chemistry 101e, 101enl, or 101a. Second semester. Three hours.

102a. GENERAL. A course primarily for students entering professions largely based on chemistry. Inorganic and organic topics are considered. The laboratory work consists largely of identification of solid single unknowns. Three classes and two laboratory periods per week. Second semester. Five hours.

201. QUALITATIVE ANALYSIS. The theory and practice of the separation and identification of common metallic and non-metallic radicals by semi-micro technique. A good knowledge of elementary algebra is presupposed. Prerequisite: Chemistry 102e or 102a; Math. 101 and 102, or 103 and 104, or instructor's consent. First semester. Four hours.

202. QUANTITATIVE ANALYSIS. A course covering the fundamental theory and practice of gravimetric and volumetric analysis. Class periods are devoted to lecture, problems and quiz work. Laboratory time is devoted to training in accurate quantitative analysis of representative materials. Prerequisite: Chemistry 201. Two class and two laboratory meetings per week. Second semester. Four hours.

204. CHEMICAL CALCULATIONS. An intensive study of the theory and practical use of the polyphase slide rule, and its particular application to chemical problems. A standard slide rule constitutes necessary individual equipment. Prerequisites: Chemistry 101a or 101e, and 102a or 102e, and mathematics through plane trigonometry, or instructor's consent. Two class meetings per week; no laboratory. Second semester. Two hours.

204a. CHEMICAL CALCULATIONS. By special arrangement, slide rule theory and practice only. The chemistry prerequisite is waived. One hour.

301. ORGANIC CHEMISTRY. An abridged study of compounds with low molecular weights in both the aliphatic and aromatic series, and few functional groups of the commonest sorts. Intended as a sufficient premedical, pre dental, or pretechnician course; and an introduction to Chemistry 302 for students preparing for graduate work in chemistry. The laboratory work is the preparation of some of the more important compounds studied in the course. Prerequisite: Chemistry 102a or 102e. Three class and two laboratory meetings per week. First semester. Five hours.

302. ORGANIC CHEMISTRY. A study of more complicated compounds, theories and reactions than those treated in the earlier course; including alicyclic compounds, alkaloids, dyes; stereoisomerism especially of sugars; structure proofs, etc. The laboratory work will be preparative, including a sample

of stepwise synthesis. Prerequisite: Chemistry 301. Schedule as for 301. Second semester. Five hours.

302nl. ORGANIC CHEMISTRY. By special arrangement, as lecture course without laboratory. Three hours.

306. QUANTITATIVE ANALYSIS. A continuation of Chemistry 202, offering work with special and instrumental methods of analysis. Prerequisite: Chemistry 202. One class and three laboratory meetings per week. Second semester. Four hours.

401. ELEMENTARY PHYSICAL CHEMISTRY. A study of the gaseous and liquid states of pure substances. Introductory treatment of solutions, equilibrium, electrochemistry, etc. Intended as an introduction to Chemistry 402 and 404 for students preparing for graduate work in chemistry. Prerequisites: Chemistry 202, 301; Mathematics 101 or 103; Physics 201 and 201a or instructor's consent. Three class and one laboratory meeting per week. First semester. Four hours.

402. PHYSICAL CHEMISTRY. A course primarily for candidates for graduate study in chemistry. A study of equilibrium, kinetics and thermodynamics. Prerequisites: Chemistry 401, Mathematics 202. Meetings as for 401. Second semester. Four hours.

403. ORGANIC QUALITATIVE ANALYSIS. A course for the identification of organic compounds as unknowns, pure and in mixtures. Prerequisite: Chemistry 302. One lecture and two laboratories per week. First semester. Three hours.

405. SEMINAR. Practice in abstracting chemical literature. Prerequisite: Senior major standing; reading knowledge of German. Two hours.

406. RESEARCH. Prerequisite: Chemistry 405. Arranged. Two hours.

CLASSICS

HAROLD J. RALSTON, Professor

HERBERT MCGEOCH TELFORD, Professor

EMMA GIBSON, Associate Professor

LATIN

I. The field of concentration in Latin consists of:

(a) A departmental unit of at least 24 hours in addition to Latin 101 and 102.

(b) Related courses totaling at least 16 hours, chosen from one or two of the following departments: English, French, German and Spanish, history, and philosophy.

101. ELEMENTS OF LATIN GRAMMAR. For those not entering with high school Latin credits who desire a knowledge of Latin. First semester. M. T. W. Th. F. Five hours.

102. CAESAR, SELECTED READING AND GRAMMAR. Continuation of 101. Second semester. M. T. W. Th. F. Five hours.

203. CICERO, SELECTED ORATIONS. Prerequisites: Two years of high school Latin or Latin 101 and 102. First semester. Three hours.

204. VIRGIL'S AENEID. Prerequisite: Latin 302. Second semester. Three hours.

301. CICERO, DE SENECTUTE AND DE AMICITIA. Review of forms and syntax. Roman literature. Prerequisite: three years of high school Latin, or 101-204. Four hours.

302. LIVY. SELECTIONS. Roman political development. Continuation of 301. Second semester. Four hours.

303. HORACE, ODES AND EPODES. Prerequisite: 301 and 302 or equivalent. First semester. Three hours.

304. HORACE, SATIRES, OR TERENCE, three plays. Second semester. Three hours.

305. TACITUS AND SUETONIUS. First semester. Three hours.

306. PLAUTUS AND LUCRETIVS. Second semester. Three hours.

435. TEACHERS' COURSE IN HIGH SCHOOL LATIN. For advanced students who desire recommendation as Latin teachers. Prerequisites: 303 or equivalent. First semester. Two hours.

460. PROSE COMPOSITION. Review of grammar especially for teachers. Second semester. Two hours.

GREEK

101, 102. ELEMENTARY COURSE. Grammar, reading and Xenophon's Anabasis. Both semesters, M. T. W. Th. F. Five hours.

201. HOMER, ODYSSEY I, IX-XI. Prerequisites: Greek 101 and 102. First semester. Three hours.

202. PLATO, APOLOGY AND CRITO. Prerequisite: Greek 201. Second semester. Three hours.

305. GREEK HISTORIANS. Selections from Herodotus and Thucydides. First semester. Three hours.

307. NEW TESTAMENT. Forms, syntax, reading. Prerequisites: ordinarily four semesters of Greek. First semester. Three hours.

308. NEW TESTAMENT. Textual and word studies, more difficult reading. Second semester. Three hours.

301, 302. READING AND THESIS COURSE. For advanced students by special arrangement.

401. GREEK PROSE. Later Greek prose, as the Septuagint, Lucian. Prerequisite: Greek 201. First semester. Three hours.

402. GREEK PROSE. Prerequisite: Greek 401. Second semester. Two hours.

CLASSICAL CIVILIZATION

Given in English. No foreign language prerequisite.

220. CLASSICAL MYTHOLOGY. A survey of the myths most commonly

alluded to in English and other literatures, and in art, music, and life. Second semester. Three hours.

321. GREEK CIVILIZATION. Introduction to Greek life and thought. First semester. Two hours.

322. GREEK LITERATURE. The study in English translation of the greatest works of Greek literature with some attention to their backgrounds and authors. No prerequisites. Required of Greek majors. Two hours.

323. WORD-ELEMENTS. Especially to aid in mastering technical derivatives from Greek and Latin stems. First semester. Two hours.

324. WORD-ELEMENTS. Prerequisite: Greek 323. Second semester. Two hours.

ECONOMICS AND BUSINESS ADMINISTRATION

LOUIS S. GIBB, Professor

RICHARD PETRIE, Professor

RUTH MITCHELL, Assistant Professor

The field of concentration in economics and business administration consists of:

(a) At least 24 hours including Economics 201-202, Political Science 201, and at least 10 hours of courses in Economics and Business Administration numbered 300 or above.

(b) Related courses, totaling at least 16 hours, chosen from one or two departments approved by adviser.

Students looking forward to business careers should take, in addition to Economics 201 and 202, at least one year of work in accounting, and Economics 212, 363, 364, 371, 372, 374.

Students expecting to do graduate work in business administration should take, in addition to Economics 201 and 202, two years of work in accounting, two semesters of business law, two years of French and German, and Economics 211, 212, 221, 351, 352, 371, 372, 374.

103. ECONOMIC INSTITUTIONS. A study of the origins, development, and mechanism of economic institutions, together with some emphasis upon their relation to human welfare. Designed particularly for those who are looking forward to a business career and who wish, in their freshman year, to begin preparing for this vocation. First semester. Two hours. (Open only to freshmen.)

104. ECONOMIC INSTITUTIONS. Continuation of 103. Second semester. Two hours. (Open only to freshmen.)

201. PRINCIPLES OF ECONOMICS. A general course dealing with the institutions and forces which affect production, distribution, and consumption of wealth. In the latter half of the course attention is given to present economic problems such as: money, international trade, transportation, taxation, and labor. Not open to freshmen. First semester. Three hours.

202. PRINCIPLES OF ECONOMICS. Prerequisite: Economics 201 or special

consent. Second semester. Three hours.

211. MATHEMATICS OF FINANCE. For a description of this course see Mathematics 211.

212. INTRODUCTION TO STATISTICS. For a description of this course see Mathematics 212.

221. MARKETING. A study of methods of getting goods to consumers. Consideration is given to wholesale and retail marketing, organized exchanges, price determinations and sales policies, market research, and related problems. Prerequisite: Economics 201. Two hours.

281. PRINCIPLES OF ACCOUNTING. An introduction to the fundamentals of accounting as applied to the construction of orderly systematic records of business dealings; methods of analyzing receipts and expenditures, of constructing balance sheets, profit and loss statements and working papers, and of determining assets and liabilities. Emphasis is placed upon the individual proprietorship. Prerequisite: Economics 201. First semester. Laboratory W. Four hours.

282. PRINCIPLES OF ACCOUNTING. Extensive problem work and analysis of accounting records employed in partnership and corporation accounting. Prerequisite: Economics 281. Second semester. Laboratory W. Four hours.

351. TRANSPORTATION AND PUBLIC UTILITIES. An introduction to the major problems in the field of transportation and public utilities including administration, valuation, rates of return, rate structures, regulation, public ownership, public relationship, combination, receiverships, reorganization. Prerequisite: Economics 201. First semester. Three hours.

352. LABOR PROBLEMS. A study of the problems arising out of industrial relations of the worker. A detailed analysis is made of the trade union movement and its method of effecting adjustments between capital and labor; standards of living, wages, immigration, unemployment, methods of personal management, and social security legislation. Prerequisite: Economics 201. Second semester. Three hours.

363. BUSINESS LAW. An introductory course presenting briefly the historical development of the common law, a survey of federal and state courts, and their jurisdiction, torts, contracts, agency, bailments, common carriers, and sales of personal property. The course is designed to aid the student in understanding the rights and obligations growing out of contractual relations as interpreted by the courts. Prerequisite: Economics 201 or junior standing. First semester. Three hours.

364. BUSINESS LAW. An extended analysis of the principles of law applicable to negotiable instruments, partnerships and corporations, real property, deeds, mortgages, wills, and insurance. Prerequisite: Economics 363. Second semester. Three hours.

371. MONEY AND BANKING. A study of fundamental principles of monetary theory and of the history and theory of banking. The course includes a discussion of current problems and recent legislation. Prerequisite: Economics 201. Economics 281 is advised. First semester. Three hours.

372. BUSINESS ADMINISTRATION. A study of the functions of the business manager; the financial organization of business; departmental organi-

zation; the selection and supervision of employees; the use of scientific management; methods of cost accounting, of credit extension, of directing advertising and selling. Prerequisite: Economics 201. Economics 281 is advised. Second semester. Three hours.

374. INVESTMENT AND FINANCE. An analysis of the various types of investment securities from the viewpoint of the investor, with attention to methods of corporation finance. Some training is afforded in reading the financial page, investment technique, planning an investment program, and forecasting. Investment cases and problems will be analyzed. Prerequisite: Economics 201. Economics 281 is advised. Second semester. Three hours.

375. PUBLIC FINANCE. A study of the theories and methods of taxation; the collection and disbursement of funds by federal, state and local governments. Prerequisite: Economics 201. First semester. Three hours.

391. ADVANCED ACCOUNTING PROBLEMS. General principles of valuation; factory costs; the voucher system; problems of depreciation; valuation of current assets and liabilities; the balance sheet and profit and loss summary; branch house accounting. A seminar course with extensive problem and research work. Prerequisite: Economics 282 with grade of B or higher. First semester. One laboratory period each week. Four hours.

392. ADVANCED ACCOUNTING PROBLEMS. Additional problems in fixed asset valuation, investments, goodwill and other intangibles, fixed liabilities, funds and reserve, estate accounting, consolidated statements, and interpretation of financial statements. Prerequisite: Economics 391. Second semester. One laboratory period each week. Four hours.

SECRETARIAL SCIENCE

101. ELEMENTARY TYPEWRITING. Instruction directed toward mastery of the keyboard and the technique of touch typewriting. Development of skill in the manipulation of the principal operative parts of the typewriter. Introduction to business letter writing. Four hours of laboratory work and two hours of class instruction per week. Two hours. Credit does not count towards graduation.

102. INTERMEDIATE TYPEWRITING. Problems and practice in letter and manuscript writing; direct dictation, tabulating, typing from rough draft, mimeographing. Prerequisite: Secretarial Science 101 or equivalent. Second semester. Four hours of laboratory work and two hours of class instruction per week. Two hours.

103. ELEMENTARY SHORTHAND THEORY. A beginning study of Gregg shorthand through the use of organized and connected shorthand material for reading and writing practice. Attainment of the knowledge and skills necessary to correct shorthand writing, with emphasis on the three thousand to five thousand most commonly used words. Prerequisite: Secretarial Science 101 or equivalent. First semester. Credit does not count toward graduation.

104. APPLIED SHORTHAND THEORY. Application of shorthand theory to the building of an adequate business vocabulary. Development of correct and rapid shorthand writing and reading habits. Instruction in the technique and practice of making typewritten transcriptions from shorthand. Prerequisite: Secretarial Science 103. Second semester. Three hours.

211. BUSINESS ENGLISH. A detailed consideration of and practice in

the writing of all types of business letters—credit, adjustment, collection, application, recommendation, inquiry, and sales. Emphasis is placed on mechanical make-up and physical layout of letters as well as on the composition of the letter body—including persuasive power, diplomacy, and the adaptation of the letter. Sophomore standing or above. Two hours. Both semesters.

301. **ADVANCED DICTATION.** Rapid dictation and transcription of business letters, general and legal materials, and articles from current literature. Emphasis on commercially satisfactory quality and quantity of stenographic productivity. Prerequisite: Minimum rate of 80 words per minute. First semester. Three hours.

302. **SECRETARIAL TRAINING AND OFFICE MANAGEMENT.** Development of executive ability and resourcefulness through problems selected from modern business. Business ethics. Definite training in secretarial duties, responsibilities, and procedures. Designed to give the secretary or junior executive an understanding of office work from the point of view of management. Prerequisite: Secretarial Science 301. Second semester. Three hours.

410. **TEACHING OF COMMERCIAL SUBJECTS.** Major emphasis on shorthand, typewriting and bookkeeping. A critical analysis of objectives, organization of materials, tests, standards of achievement, and methods of approach in teaching these subjects. Prerequisite: Secretarial Science 104 and Economics 282. First semester. Two hours.

EDUCATION

FRANK W. PHILLIPS, Professor

MILTON M. MAYNARD, Professor

The field of concentration in education consists of:

(a) A departmental unit of at least 24 hours including course 232, 305, and 306, or (311 or 313, and 314), and 307 and 308.

(b) Related courses totaling at least 16 hours, chosen from one or two subjects which the student is preparing to teach in high school.

Students expecting to teach in Illinois should plan to take education 232 and 305 and 306, or 311 or 313, and 314. Those expecting to teach in high schools should present in addition to the courses mentioned sufficient credit in education to make the total not less than sixteen hours, two of which should be in the teaching of the major subject. Those not living in Illinois should strive to meet the requirements of their respective states.

Provisions of the Illinois State Certificating Law for granting Limited State Certificates to graduates of recognized institutions of higher learning:

Limited State High School Certificates valid for four years of teaching Grades VII to XII. A limited State high-school certificate, valid for four years of teaching and supervising in the high school and in the seventh and eighth grades, may be granted without examination to graduates of recognized colleges and universities who, within three years after graduation, present certified credits accompanied by faculty recommendation of ability to teach in the high school, to those who meet the following requirements:

(a) Graduation from a recognized college.

- (b) Faculty recommendation of ability to teach in the high school.
- (c) Oral and written expression. 8 semester hours.
- (d) Natural science (biological and physical). 8 semester hours.
- (e) Social science. 8 semester hours.
- (f) Humanities. 8 semester hours.
- (g) Sixteen semester hours in Education including Educational Psychology, three hours, and Methods of Teaching, three hours; and five hours of Practice Teaching.
- (h) Three majors of sixteen semester hours in three subjects or groups of related subjects, or one major of sixteen semester hours and a double major of thirty-two semester hours.
- (i) Electives sufficient to make up the remaining number of semester hours required for graduation.

Students looking forward to teaching should plan to take in the first semester of the sophomore year Psychology 221 or Education 201, and in the second semester Education 232, Educational Psychology.

In the junior year, they should plan to take Education 305 and 306 if the teaching is to be done in the elementary school, and Education 311 or 313, and 314 if the teaching is to be done in the high school.

Preferably Student Teaching should be taken in the senior year.

A student wishing to enroll in Student Teaching should first consult the head of the Department of Education.

201. PRINCIPLES OF EDUCATION. An introductory course designed to orient the student as to the aims of education and the technique of learning and teaching. Primarily for sophomores, not open to juniors and seniors. Three hours. Each semester.

232. EDUCATIONAL PSYCHOLOGY. A study of individual differences, conditions of effective mental work, the laws of learning with special reference to their bearing upon effective learning and teaching. Prerequisite: Education 201 or Psychology 221. Second semester. Three hours.

305. ELEMENTARY EDUCATION. A study of the elementary school, its history, purpose, organization and place in the American system of education with special reference to modern trends in elementary education. Prerequisite: Education 232. First semester. Three hours.

306. PRINCIPLES OF TEACHING IN ELEMENTARY SCHOOLS. A study of the principles and methods of teaching and management in the elementary school. Prerequisite: Education 232 and 305. Second semester. Three hours.

307. EDUCATIONAL ADMINISTRATION. The units of control; federal and state support of education; the local unit and its relation to the state; equalization of educational advantages and burdens. Prerequisites: Education 201 or 335 and junior standing. First semester. Two hours.

308. EDUCATIONAL ADMINISTRATION. A continuation of Education 307 but may be taken without it. The local school system; the duties of superintendent, principal and teachers; the curriculum and the supervision of in-

struction. Prerequisite: Education 201 or 335 or junior standing. Second semester. Two hours.

311. PRINCIPLES OF SECONDARY EDUCATION. A study of the major problems of high school teaching and administration. For juniors and seniors. First semester. Three hours.

313. HISTORY OF EDUCATION. A comparative study of education in England, France, Germany, Italy, Russia and United States today. For juniors and seniors. First semester. Two hours.

314. PRINCIPLES OF TEACHING IN HIGH SCHOOL. A study of the principles and methods of teaching in secondary schools. Primarily for seniors, open to juniors. Prerequisites: Education 232 and 311 or 313. Second semester. Three hours.

317. EDUCATIONAL MEASUREMENTS. The science of measurements as applied to education; the interpretation of educational statistics. Prerequisite: Education 232. First semester. Two hours.

331. CHILD PSYCHOLOGY. A study of child psychology with special reference to the growth and development of the school child. Prerequisite: Education 232. Second semester. Two hours.

332. ADOLESCENT PSYCHOLOGY. A study of child psychology with special reference to the problems arising during the junior and senior high school years, and the early years in college. Prerequisite: Psychology 221 or 232. Alternates with Education 331. Second semester. Two hours.

333. MENTAL HYGIENE. A study of the mental hygiene of the child with special reference to the duty of the home and the school in looking after the mental health of the child. Prerequisite: Education 232. Second semester. Two hours.

335. EDUCATIONAL AND VOCATIONAL GUIDANCE. A study of the principles underlying sound educational and vocational courses. First semester. Three hours.

401. STUDENT TEACHING. This course provides opportunity for the prospective teacher to observe, and to participate in, the instructional and administrative activities of a public school class room. Conferences with the school principal, the class room teacher and the director of student teaching supplement these experiences. Each semester. Five hours credit.

Regulations governing appointment to student teaching:

1. Appointment is limited to members of the junior and senior classes. Exceptions may be made to this rule at the discretion of the Director of Teaching.

2. Assignments will be in the field of concentration but may be in either the major or related departments.

3. Applicants must have been in residence for at least one semester, have an average grade of "C" in the field of concentration and be recommended for appointment by the head of the subject matter department in which the teaching is to be done.

4. Prerequisites:

- A. For elementary school teaching:

Education 201 or 232.

Education 305.

Education 306 (may be taken just before or concurrently).

B. For high school teaching:

Education 311 or 313.

Education 232.

Education 314 (may be taken just before or concurrently.)

403. THE TEACHING OF ENGLISH. (See English 430.)

432. THE TEACHING OF MATHEMATICS. (See Mathematics 432.)

433. THE TEACHING OF FRENCH. (See French 433.)

435. THE TEACHING OF LATIN. (See Latin 435.)

439, 440. THE TEACHING OF MUSIC. (See Music 439, 440.)

442. THE TEACHING OF SPEECH. (See Speech 442.)

452. THE TEACHING OF SOCIAL STUDIES. (See History 452.)

454. METHODS OF TEACHING PHYSICAL EDUCATION. (See Physical Education 454.)

460. THE TEACHING OF SPANISH. (See Spanish 460.)

465, 466. THE TEACHING OF INSTRUMENTAL MUSIC. (See Music 455, 466.)

ENGLISH

C. A. OWEN, Professor

EMMA GIBSON, Associate Professor

ADELE KENNEDY, Assistant Professor

BERNICE L. FOX, Assistant Professor

WILLIAM H. PATRICK, Instructor

RALPH ECKLEY, Instructor

MARY JANE DEVLIN, Instructor

The field of concentration in English consists of:

(a) A departmental unit of at least 24 hours above the freshman requirement, including 201, and 204, and at least three of courses 313, 314, 315, 316, 403, and 404.

(b) Related courses totaling at least sixteen hours, to be chosen from one or two departments with the approval of the English adviser.

101, 102. FRESHMAN ENGLISH. During the freshman year, the student reviews the elements of English grammar, studies the mechanics of English composition and practices the art of writing; weekly themes are required. Attention is given to the improvement of the student's vocabulary and to facility in self-expression and self-correction. The course also provides an introduction to various types of literature, including the essay, the short

story, the drama, the novel, poetry and biography. 101 is prerequisite to 102. Both semesters. Three hours.

Note: Both the above courses are required for all freshmen.

Those whose work in freshman English is unsatisfactory are required to take English 205, Fundamentals of Good English, in addition to the usual freshman courses.

201. SURVEY OF BRITISH LITERATURE. English prose and poetry from their beginnings to the present. Prerequisite: 101 and 102. First semester. Three hours.

204. SURVEY OF AMERICAN LITERATURE. A study of our national letters from colonial days to the present. Prerequisite: 201, except for upperclassmen with satisfactory records in English 101 and 102. Second semester. Three hours.

205. FUNDAMENTALS OF GOOD ENGLISH. This course is designed for students whose knowledge of the principles of grammar, rhetoric, and composition is inadequate. It will include the mechanics of English, vocabulary building, and the writing of reports and business letters. First semester. Two hours.

207. 208. JOURNALISM. During the first semester, students are introduced to the elements of theory and practice of newspaper writing. Readings in the metropolitan dailies are required and discussed. The writing and criticism of news stories are stressed. During the second semester, the work of the first semester is continued and extended by practice work in news features, interviews, feature writing, and editorial comment. Prerequisite: first semester, English 101, 102. Prerequisite, second semester, English 207. Students in Journalism whose groundwork in English is inadequate should plan to take English 205 concurrently. Three hours each semester.

211. BUSINESS ENGLISH. See Secretarial Science 211.

300. ADVANCED COMPOSITION. A course in practical writing for those who feel the need of more training in this field, but who are not prepared to attempt strictly creative effort. For reports and research papers, students may choose individual projects in line with their own interests. Emphasis will be placed upon assembling and organizing material, and presenting it with clearness and force. Offered the first semester if at least six students register for the course. Two hours.

301. CONTEMPORARY BRITISH PROSE. A study of contemporary English thought as found expressed in books and current periodicals. Among the authors read are Galsworthy, Conrad, Bennett, Shaw, Wells, and Chesterton. Open to upperclassmen, and to sophomores who have shown special ability in English 101, 102. First semester. Two hours. (Not offered in 1948-49.)

302. CONTEMPORARY AMERICAN PROSE. Continuous with English 301, but may be taken separately. The purpose is to assist the student to interpret the contemporary scene through the reading of current periodicals and significant new books. Some attention is given to sectionalism in literature today. Prerequisite: as in 301. Second semester. Two hours. (Not offered in 1948-49.)

303. CONTEMPORARY BRITISH POETRY. A survey of the field of British poetry since 1900, with emphasis upon the work of the poet laureate, John

Masefield. The poetry of the World War, the Celtic Revival, and other movements are studied as well as the thought and art of the leading poets. Prerequisite: English 201 and 204. First semester. Two hours.

304. CONTEMPORARY AMERICAN POETRY. The purpose of this course is to give an understanding of American life today as interpreted by the leading poets of the century. Robinson, Frost, and Sandburg are emphasized. Various types of writers and verse form are considered as an expression of the age. Prerequisite: English 201 and 204. Second semester. Two hours.

305. CREATIVE WRITING. POETRY. A study in the theories and practice of the art of versification. Prerequisite: the written approval of the instructor. First semester. Two hours.

306. CREATIVE WRITING. PROSE. The purpose of this course is to encourage self-expression through writing. It is open only to students with creative ability and a desire to perfect their style. Written approval of instructor is required for admission. Assigned readings are given to stimulate thought, to serve as models of style, and to familiarize the students with the types of work finding a market in the magazines of today. However, the greatest freedom is permitted as to the kind of writing done. Second semester. Two hours. This course may be repeated for credit.

307. THE NOVEL. A study of the English novel from its beginnings to 1860. Prerequisite: 201 and 204. First semester. Two hours.

308. THE NOVEL. Continuation of the above from 1860 to the present time. Prerequisite: as in 307. Second semester. Two hours.

309. SURVEY OF THE EUROPEAN DRAMA. Lectures on the leading dramatists from Aeschylus to Ibsen. The readings include the work of Greek, Roman, French, German, and Spanish dramatists. Prerequisite: English 201 and 204. First semester. Two hours. (Not offered in 1948-49.)

310. SURVEY OF THE MODERN DRAMA. A study of modern dramatists including Ibsen, Tolstoy, Echegaray, Benavente, Pirandello, Shaw, Coward, Robert Sherwood, Maxwell Anderson, Rice, O'Neill, and others. Prerequisite: as in English 309. Second semester. Two hours. (Not offered in 1948-49.)

311. GREAT BOOKS AND WRITERS. A course in comparative literature including translated masterpieces from Egypt, Greece, Rome, Palestine, Persia, and India, both prose and poetry. Much effort is spent to recapture the spirit that produced and received the material to be studied. Prerequisite: English 201 and 204. First semester. Two hours.

312. GREAT BOOKS AND WRITERS. A continuation of the above, with extensive library readings and class discussions of the best literary productions of Europe and the Near East from 800 to 1900. The problem is: What is great literature, and how does it affect the world? Prerequisite: English 201.

313. SHAKESPEARE. Twenty plays and the sonnets. Prerequisite: English 201 and 204. First semester. Three hours.

314. THE ENGLISH ROMANTIC MOVEMENT. English prose and poetry of the Romantic school, with emphasis upon the works of Wordsworth, Coleridge, Byron, Shelley, and Keats. Prerequisite: English 201 and 204. Second semester. Three hours.

315. MILTON. The minor poems, the epics, and two essays. Prerequisite: English 201 and 204. First semester. Three hours. (Not offered in 1948-49.)

316. TENNYSON AND BROWNING. Prerequisite: English 201 and 204. Second semester. Three hours. (Not offered in 1948-49.)

317, 318. THE ESSAY. The great essays and essayists from Montaigne to Stevenson are studied, with supplementary readings from living authors. Although the chief emphasis is on the "informal essay," other types are also considered. Prerequisite: English 101, 102. Both semesters. Two hours.

319, 320. THE SHORT STORY. An extensive study of the great short stories of the world. First semester—an anthology, with library readings in Poe, Hawthorne, Kipling, and others. Second semester—a study of one author, with supplementary readings, chiefly from European writers. The student is required to justify his tastes in this field. Open only to upperclassmen each semester. Two hours.

321. SEVENTEENTH CENTURY LITERATURE. Three hours. Prerequisite: British Survey, English 201. First semester. (Not offered in 1948-49.)

322. EIGHTEENTH CENTURY LITERATURE. Three hours. Prerequisite: English 201, 313, and 321. Second semester. (Not offered in 1948-49.)

323. ENGLISH DRAMA, 1500-1700, except Shakespeare. Three hours. Prerequisite: English 201—British Survey. Second semester. (Not offered in 1948-49.)

401. SEMINAR IN BRITISH LITERATURE. Open only to English majors, seniors, or those whose related fields include English. Two hours. First semester.

402. SEMINAR IN AMERICAN LITERATURE. Two hours. Second semester. Admission as in 401.

403. ENGLISH PHILOLOGY. The history of the origin, structure and chief modifications of the English language. Open only to upperclassmen with major or minor requirements in any language. First semester. Three hours. (Not offered in 1948-49.)

404. CHAUCER. His language and writings, especially The Canterbury Tales. Prerequisite: English 201, 204. Some knowledge of French is desirable. First semester. Three hours.

430. THE TEACHING OF ENGLISH. A critical study and evaluation of present and possible methods of teaching English in junior and senior high schools. The secondary curricula of Illinois and other states are given special attention, modern trends in this field investigated, and serious effort made to discover how material may be thoroughly mastered and attractively presented. Especially for upperclassmen who have majored in English or in a related field. Second semester. Two hours.

GEOLOGY

FRANCIS M. McCLENAHAN, Professor

The following courses are planned to be stimulative to interest in the earth sciences, whether as pre-engineering course-training or for the pedagogic

and general culture values to be derived therefrom. They are arranged in sequence. Students who plan to elect earth science as a field of academic concentration, or are interested in the field of professional geology, should confer with the head of the department as soon as possible upon entering college so as to develop a broad and well balanced scheme of studies.

The field of concentration in geology consists of:

(a) A departmental unit of not less than 24 hours credit including Geology 401 and 402. (Not including 151, 152).

(b) Related courses, totaling at least sixteen hours credit. These may be chosen with the approval of adviser, but must include, 151, 152.

101. PHYSICAL GEOLOGY. Dynamic and structural geology. This has to do with the significant surface and sub-surface feature of the earth crust and the agencies which have combined to bring about present earth conditions. Geology 101a is recommended but is not required as a co-ordinate to this course. First semester. Three hours.

101a. PHYSICAL GEOLOGY LABORATORY. This course consists of an elementary acquaintance with minerals and rocks. The purpose of the laboratory work is to confirm the reasonings met with in Geology 101. It is recommended to all who elect Geology 101 but is not required. Co-ordinate: Geology 101. Prerequisite, or corequisite: Elementary Chemistry. First semester. Two hours.

102. HISTORICAL GEOLOGY. A study of the divisions of geologic times and their characteristics. Second semester. Prerequisite: Geology 101. Three hours.

102a. HISTORICAL GEOLOGY LABORATORY. This course consists of the study of selected United States Geological Survey Folios so as to confirm topics in structural and historical geology. It is recommended to all who elect Geology 102, but it is not required, however. Coordinate: Geology 102. Second semester. Two hours.

151. COLLEGE GEOGRAPHY. Earth forces as determining factors in geography. First semester. Three hours.

152. COLLEGE GEOGRAPHY. Physical Geography and Human Ecology. Prerequisite: Geology 151. Second semester. Three hours.

301. INTRODUCTION TO ECONOMIC GEOLOGY. Prerequisites: Geology 101, 102, 101-a, 102a. First semester. Two hours.

302. INTRODUCTION TO ECONOMIC GEOLOGY. A continuation of Geology 301. Second semester. Two hours.

307. MINERAL CHEMISTRY. A course in geo-chemistry and mineralogy. This is designed for advanced students in geology. Prerequisites: Geology 101, 101a, 102, 102a. First semester. Three hours.

308. MINERAL CHEMISTRY. A continuation of Geology 307. Second semester. Three hours.

401. PROBLEMS IN GEOLOGY. This course is offered primarily to majors in geology. The subject matter is diverse and suited to the student's aptitudes. The problems may be in topography, mineral interpretations, historical sketches,

and paleontology. Its purpose is to serve as a background for the synthesis of geologic thought. First semester. Two hours.

401a. Three hours.

402. PROBLEMS IN GEOLOGY. A continuation of Geology 401. Second semester. Two hours.

402a. Three hours.

HISTORY AND GOVERNMENT

F. GARVIN DAVENPORT, Professor

CARL W. GAMER, Assistant Professor

MARY BARTLING, Instructor

The field of concentration in history consists of:

(a) A minimum of 24 hours of history courses, including History 101 and 102, History 251 and 252, History 401 or 402.*

(b) 16 hours of courses in one or two related departments chosen after consultation with the adviser.

The field of concentration in government consists of:

(a) A minimum unit of 24 hours including History 101 and 102 and Government 201 and 202.

(b) A minimum of 16 hours of courses in one or two related departments, chosen after consultation with the adviser.

GOVERNMENT

201. AMERICAN GOVERNMENT, NATIONAL. A study of the federal government and its constitutional development. Prerequisite: sophomore standing. First semester. Three hours. Mr. Gamer.

202. AMERICAN GOVERNMENT, STATE AND LOCAL. A study of the political institutions of the forty-eight states and their subdivisions. Prerequisite: sophomore standing. Second semester. Three hours. Mr. Gamer.

300. CURRENT EVENTS. A study of major developments in contemporary history in the light of their historical background. Summer term. Two hours. (This course may be taken for History credit.) Mr. Gamer.

311. POLITICAL PARTIES AND ELECTIONS. A study of the problems and conduct of elections and primaries in the United States. Special studies are made of the current political campaign. Prerequisite: History 101, 102, or Government 201, 202, or History 251, 252. First semester. Two hours. Mr. Gamer.

330. MUNICIPAL GOVERNMENT. City government and administration studied in more detail than is possible in the elementary government course. Each student is assigned some special research report. Prerequisite: Government 202, or History 101-102. Two hours. Mr. Gamer.

360. PUBLIC ADMINISTRATION. A study of the structure, organization, and

function of public administrative establishments. The course is intended especially for those interested in the public service as a career, but is of value as a preparation for intelligent citizenship. Prerequisite: junior standing, or the consent of the instructor. Three hours. Mr. Gamer.

380. TWENTIETH CENTURY WORLD POLITICS. A study of fundamentals underlying international relations: nationalism, economic forces, power politics. Prerequisite: History 101 and 102 or consent of instructor. Second semester. Three hours. Mr. Gamer.

381. ENGLISH AND EUROPEAN GOVERNMENT. A study of the governments of England, France, Germany, Russia, past and present; also, a briefer treatment of others like the governments of Switzerland, Japan, a South American country. Prerequisite: History 101-102, or Government 201-202, or History 341. Three hours. Mr. Gamer.

390. INTERNATIONAL LAW. A consideration of the public international law from texts and cases. Both law of war and law of peace are considered. Prerequisite: History 101-102, or Government 201, or History 335-336. Two hours. Mr. Gamer.

395. CONSTITUTIONAL LAW OF THE UNITED STATES. A study of the constitutional law of the United States from the decisions of the Supreme Court. The course is designed to serve as a background for understanding American institutions. Prerequisite: Government 201-202, or History 251-252. Three hours. Mr. Gamer.

HISTORY

101. WORLD CIVILIZATION. A survey of human progress from the Palaeolithic Age to the seventeenth century. The ancient civilizations of Asia and Europe; rise of Christianity; The Renaissance and Reformation; the Commercial Revolution; Rise of National states. First semester. Three hours. Staff.

102. WORLD CIVILIZATION. A continuation of History 101. Rise of the great commercial empires; development of the democratic doctrine; intellectual and industrial revolutions; imperialism and two world wars. The emphasis is placed on European civilization but considerable attention is given to India, China and Japan. Second semester. Three hours. Staff.

(Note: History 101 and 102 in sequence form the introductory course in the department, which must be taken, preferably in the freshman year, by all History or Government majors. It may be counted either for History or Government credit.)

246. ORIENTAL HISTORY. The rise of middle and far eastern Asiatic cultures with particular emphasis on far eastern history since 1800 and the origins of Japanese imperialism. Second semester. Two hours. (Not offered in 1948-49.)

250. AMERICAN COLONIAL HISTORY TO 1750. The foundations of American civilization and the development of an American consciousness. Usually offered in the summer term. Three hours. Mr. Davenport.

251. AMERICAN HISTORY, 1750-1865. Nationalism and sectionalism, from the union of the colonies to the war between the states. First semester. Three hours. Mr. Davenport.

252. AMERICAN HISTORY, 1865 TO DATE. The expansion of the United

States to an economic and political world power. Second semester. Three hours. Mr. Davenport.

(Note: History 251 and 252 in sequence form a unit which must be taken by history majors, preferably in the sophomore year.)

291. **LATIN AMERICAN HISTORY.** Central and South America from the day of the conquistadors to the good neighbor policy. First semester. Two hours. Miss Bartling.

300. **CURRENT EVENTS.** (For description see Government 300.) Summer term. Two hours. Mr. Gamer.

311. **ANCIENT HISTORY.** The story of mankind from the dawn of civilization through the Greek and Roman empires. Prerequisite: History 101. This course is recommended to Greek and Latin majors and may be taken by those of junior rank without prerequisite. Three hours. (Not offered in 1948-49.)

322. **MEDIEVAL HISTORY.** Origins of European civilization in barbarian conquests, and rise of European peoples to the level of the Renaissance. Prerequisite: History 101. First semester. Three hours. Miss Bartling.

332. **FRENCH REVOLUTION.** The rise of political liberalism in eighteenth century Europe and its expression in the French upheaval, 1789 to 1815. Second semester. Two hours. Miss Bartling. (Not offered 1948-49.)

334. **NINETEENTH CENTURY EUROPE.** A study of the industrial revolution, the growth of democracy, nationalism and imperialism from 1815 to 1914. Second semester. Three hours. Miss Bartling.

335. **TWENTIETH CENTURY.** An investigation of world history since 1914 and of current events with the object of gaining a better understanding of contemporary problems. Open to juniors and seniors. First semester. Three hours. (Not offered 1948-49. See Government 380.)

341. **HISTORY OF GREAT BRITAIN.** Origins of political, social and cultural heritage in England. First semester. Three hours. Miss Bartling.

342. **HISTORY OF GREAT BRITAIN.** Growth of the British empire and development of parliamentary institutions and English culture. Second semester. Three hours. Miss Bartling.

344. **STUDIES IN RUSSIAN HISTORY.** Special problems in Russian social and political history since 1800. Conducted on the seminar plan. Prerequisite: History 101-102 and the consent of the instructor. Second semester. Three hours. Miss Bartling.

351. **HISTORY OF AMERICAN CULTURE.** A study of American intellectual and cultural growth from the colonial period to the twentieth century. The course is selective and interpretative. Emphasis is placed on the development of religion, science and art in relation to the democratic ideal. Prerequisite: History 251-252 or consent of instructor. Three hours. First semester. Mr. Davenport.

352. **AMERICAN DIPLOMATIC HISTORY.** A survey of our national effort to find America's proper place in a constantly changing world. Prerequisites: History 251, 252. Second semester. Three hours. (Not offered in 1948-49.)

360. **HISTORY OF ILLINOIS.** A social and political study. Summer term. Two hours.

384. HISTORY OF THE SOUTH. A study in regional history. A social and economic history of the South with the emphasis on the period since 1800. The cotton and tobacco kingdoms, slavery, the industrial revolution, the place of the New South in the nation. Prerequisite: History 251-252 or consent of instructor. Second semester. Three hours. Alternates with History 386. Mr. Davenport.

386. HISTORY OF THE WEST. A study in regional history. The various stages of the frontier: the forest culture, the prairie culture, and the plains culture. The cattle kingdom and the mineral frontier. The West as a social, economic and political force in the nation's history. Prerequisite: History 251-252 or consent of instructor. Second semester. Three hours. Alternates with History 384. Mr. Davenport.

401. HISTORY SEMINAR. Bibliography, historiography and individual research problems in European history. Either History 401 or 402 is required of history majors; it is desirable to take both courses. Usually offered first semester but may be repeated second semester. Two credits. Mr. Davenport.

402. HISTORY SEMINAR. Bibliography, historiography and individual research problems in American history. Usually offered second semester but may be offered first semester to meet demand. Two hours. Mr. Davenport.

452. THE TEACHING OF SOCIAL STUDIES. Principles and techniques of teaching the social studies in secondary schools. Offered in the summer term. Emphasis will be placed on the application of local history to the enrichment of the social studies. Two hours.

HOME ECONOMICS

LUELLA A. WILLIAMS, Assistant Professor

MARTHA M. HAMILTON, Instructor

The field of concentration in Home Economics consists of:

1. A departmental unit of at least 24 hours.

2. Related courses, totaling at least 16 hours, from one or two of the following departments: chemistry, biology, sociology, and art.

101. ORIENTATION. (FOODS AND NUTRITION). A general orientation to education for home and family life, with emphasis on planning and preparing meals for the family. Includes a study of food products with reference to production, selection, nutritive value and cost. Laboratory work in preparation of food on the meal basis. One class hour and four laboratory per week. First semester. Three hours.

102. ORIENTATION CONT'D. (TEXTILES AND CLOTHING). Includes a study of the nature and limitations of common household textiles, and the testing of recently discovered fibers. Emphasis will be placed on the selection and use of textiles in the home. Laboratory work provides for the use of commercial patterns and the application of both hand and machine sewing to the making of specified simple garments. One hour class and four hours laboratory per week. Second semester. Three hours.

201. MEAL PLANNING AND TABLE SERVICE. Includes food marketing, planning and serving family meals. and family entertaining. Prerequisite:

Home Economics 101. One class and four laboratory periods per week. First semester. Three hours.

202. ADVANCED CLOTHING. Emphasis on consumer economics in relation to personal and family wardrobes. Laboratory work includes the more difficult problems encountered in clothing construction, such as making a tailored suit or coat. Six hours laboratory per week. Second semester. Three hours. Prerequisite: Home Economics 102.

301. NUTRITION AND HEALTH. Emphasizes the essentials of an adequate diet, nutritive value of common foods, and their selection to meet the needs of persons of different ages and activities. Open to juniors and seniors. No prerequisites, but required, in the twenty-four hours of concentration in Home Economics. First semester. Three hours.

302. ECONOMICS OF THE HOUSEHOLD. Includes financial and managerial problems of the modern home: investigation of family income, standards of living, budgets and records, housing, etc. Three class hours per week. A non-laboratory course, involving field trips of various sorts. Open to juniors and seniors. Required in the field of concentration. Second semester. Three hours.

MATHEMATICS

HUGH R. BEVERIDGE, Professor

PAUL CRAMER, Assistant Professor

MRS. PAUL CRAMER, Instructor

GALE CUTLER, Instructor

With the assistance of:

LYLE W. FINLEY, of the Department of Physics

The field of concentration in mathematics consists of:

(a) A departmental unit of at least 24 hours including 202 and two courses numbered above 300.

(b) Related courses totaling at least 16 hours selected from one or two of the following departments: biology, chemistry, geology, physics, economics, philosophy.

101, 102. INTRODUCTION TO COLLEGE MATHEMATICS. A course including college algebra, trigonometry, and analytic geometry. Prerequisite: entrance algebra, one and one-half units; plane geometry, one unit. Four hours each semester.

103, 104. INTRODUCTION TO COLLEGE MATHEMATICS. Prerequisite: entrance algebra, one unit; plane geometry, one unit. Five hours each semester.

106. SOLID GEOMETRY. Two hours.

201, 202. DIFFERENTIAL AND INTEGRAL CALCULUS. A first course in the calculus. Prerequisite: 102 or 104. Four hours each semester.

211. MATHEMATICS OF FINANCE. Interest, discount, annuities, amorti-

zation, sinking funds, bonds, depreciation, elements of actuarial science. Prerequisite: 102 or 104. Three hours.

212. INTRODUCTION TO STATISTICS. Elementary principles in the analysis of data, with applications. Prerequisite: 102 or 104. Three hours.

301, 302. ADVANCED CALCULUS. Series, partial differentiation, definite integrals, multiple integrals, Fourier series. Prerequisite: 202. Three hours each semester.

303, 304. DIFFERENTIAL EQUATIONS. An introduction to ordinary and partial differential equations and their applications. Prerequisite: 301. Three hours each semester.

311. THEORY OF EQUATIONS. Complex numbers, equations related to ruler and compass constructions, determinants, and other topics related to the solution of equations. Prerequisite: 201. Three hours.

312. INTRODUCTION TO HIGHER ALGEBRA. Matrices, bilinear and quadratic forms, linear transformations, invariants, elementary divisors. Prerequisite: 311. Three hours.

321, 322. INTRODUCTION TO HIGHER GEOMETRY. Linear dependence, projective geometry. Prerequisite: 202. Three hours each semester.

432. THE TEACHING OF MATHEMATICS. Prerequisite: 202. Two hours.

ASTRONOMY

202. DESCRIPTIVE ASTRONOMY. A course dealing with the fundamental facts and principles. Prerequisite: Mathematics 102 or 104. Three hours.

ENGINEERING

101. ENGINEERING DRAWING. A course in the use of instruments, lettering, sketching machine parts, working drawings, tracings, and blue printing. Prerequisite: Plane geometry. Three hours.

102. ENGINEERING DRAWING. A continuation of 101. Prerequisite: 101. Three hours.

201. DESCRIPTIVE GEOMETRY. A drawing course in the solution of problems of three dimensions. Prerequisite: 101, 102, solid geometry. Two hours.

202. DESCRIPTIVE GEOMETRY. A continuation of 201. Prerequisite: 201. Two hours.

203. SURVEYING. Plane and topographic surveying. Prerequisite: Mathematics 102 or 104. Three hours.

204. APPLIED MECHANICS. Force systems; equilibrium; centroids; center of gravity; friction; introduction to dynamics. Prerequisites: Mathematics 201, Physics 201; registration in Mathematics 202. Three hours.

MODERN LANGUAGES AND LITERATURES

DOROTHY DONALD, Professor

CHARLES LELAND NEIL, Professor

RUTH E. GARWOOD, Assistant Professor

CAROLINE HENNINGSSEN, Assistant Professor

FRIEDERICH COLLOREDO MANNSFELD, Assistant Professor

The enlargement of the American horizon has emphasized the need for practical knowledge of foreign language and for better understanding of foreign background and culture. The courses of this department, which includes French, German, Russian and Spanish, aim to convert these languages into serviceable means for international understanding and for greater cooperation of the nations of the Western Hemisphere. The immediate objectives of comprehension, speaking, and writing are supplemented, therefore, by a conscious attempt to understand the political, social, and economic factors that determine national direction and tendencies.

FRENCH

The field of concentration in French consists of:

(a) A departmental unit of at least 24 hours in addition to courses 101, 102.

(b) Related courses, totaling at least 16 hours, chosen from one or two of the following departments: art, classics, German, Spanish, history, English, philosophy.

101, 102. **ELEMENTARY.** A comparatively brief introduction to the basic facts of grammar followed by extensive reading of graduated difficulty. Much practice in oral composition of the question-answer type. A continuous effort towards an acceptable pronunciation is emphasized. Both semesters. Four hours.

201, 202. **INTERMEDIATE.** For those students who have had one year of college or two years of high school French. A thorough review of grammar, much written and oral composition. Extensive reading for the purpose of acquiring a large passive vocabulary. Continued emphasis upon an acceptable pronunciation. Both semesters. Three hours.

207, 208. **ELEMENTARY COMPOSITION.** Both semesters. One hour.

301, 302. **SURVEY OF FRENCH LITERATURE.** Rapid reading of interesting selections from the more important and entertaining authors. The selections will be read in their entirety, not as excerpts. An "aperçu" of the history of French literature. The basic text has been: *Nouvelle Anthologie Française* by Shinz-Robert-Giroud. Both semesters. Two hours.

305, 306. **FRENCH CIVILIZATION.** Something about the history, geography, life, customs, institutions of France—all that which gives the historical and social background necessary to an intelligent understanding of the literature and culture of a foreign people. Both semesters. Two hours.

307, 308. **INTERMEDIATE COMPOSITION.** Both semesters. One hour.

309, 310. **READING IN THE FIELD OF CONCENTRATION.** Both semesters.

One hour. Of special interest to those who wish to make an immediate practical use of their French.

311, 312. READINGS IN CONTEMPORARY LITERATURE. Both semesters. One hour.

401, 402. LITERATURE OF THE SEVENTEENTH AND EIGHTEENTH CENTURIES. Study of the outstanding works of the seventeenth and eighteenth centuries, with emphasis on the classical French drama and the "philosophes" and the "encyclopedistes." Reports by students in French term papers. Both semesters. Two or three hours. (Not offered in 1948-49.)

403, 404. LITERATURE OF THE NINETEENTH CENTURY. This course deals with the main literary French movements of the nineteenth century including romanticism, realism, naturalism, and symbolism. Reports in French by students, lectures in French, term papers. Both semesters. Two or three hours.

407, 408. ADVANCED COMPOSITION. Both semesters. One hour.

433. TEACHING OF FRENCH. Readings, observations, discussions, conferences. Some practice teaching. Two hours. Offered only upon request of those with satisfactory preparation in the language.

GERMAN

The purpose of instruction is twofold: (a) to familiarize the student with the structure, form and idiomatic use of the language; (b) to introduce the student to German literature with its rich background.

The field of concentration in German consists of:

(a) A departmental unit of at least 24 hours in addition to courses 101, 102.

(b) Related courses totaling at least 16 hours, chosen from one or two of the following departments: art, classics, English, French, history, philosophy, and Spanish.

Students are advised to present at least one course above 101, 102 in some other foreign language.

101, 102. ELEMENTARY GERMAN. An introduction to the German language, with special emphasis on oral and aural practice. Both semesters. Four hours.

201, 202. INTERMEDIATE GERMAN. Reading chosen from the works of modern authors. Collateral reading. Prerequisite: German 101-102 or its equivalent. Both semesters. Three hours.

203, 204. ELEMENTARY CONVERSATION-COMPOSITION. Corequisite or prerequisite, German 201, 202. Two hours. Both semesters.

301, 302. INTRODUCTION TO THE STUDY OF GERMAN LITERATURE. Both semesters. Three hours.

303, 304. THE CLASSIC PERIOD. Lessing, Goethe, Schiller. Both semesters. Three hours.

307, 308. GERMAN DRAMA OF THE XVIIITH AND XIXTH CENTURIES. Careful reading of several of the great plays of the period. Collateral read-

ing. Both semesters. Two hours. (Not offered in 1948-49.)

309. GERMAN LITERATURE SINCE 1890. Study of important novels, dramas and some poetry of these decades. Prerequisite: German 203-204. Two hours. (Not offered in 1948-49.)

311, 312. PROSE COMPOSITION AND CONVERSATION. Intended especially for those majoring in German. Two hours.

318. DIE NOVELLE. Representative short stories of the nineteen and twentieth centuries. Prerequisite: German 204. Two hours.

321, 322. READING IN THE FIELD OF CONCENTRATION. This course gives students an opportunity to make practical use of German by reading in whatever fields their interests lie. Both semesters. One hour.

RUSSIAN

101, 102. ELEMENTARY. An introduction to the Russian language, with elements of grammar and practice of pronunciation. Extensive use of Russian-language records. Both semesters. Three hours.

SPANISH

The field of concentration in Spanish consists of:

(a) A departmental unit of at least 24 hours beyond courses 101 and 102. Emphasis may be upon the literature of Spain or of South America. Student selecting the former must be well acquainted with the literature of both the modern field and the Golden Age of Spain, and must be familiar with the main literary movements of Spanish America. (Courses 305, and, or 306, 311, 312, and 401 are designed to meet these needs.) Students selecting the field of Spanish-American literature for emphasis must be well acquainted with the civilization, history, and literature of Spanish America and be familiar with the main literary movements of Spain. (Courses 307, 308, and 401 as well as History 291 are designed to meet these needs.)

(b) Related courses totaling at least 16 hours, chosen from one or two of the following departments: art, classics, economics, English, French, German, and history.

Students are advised to present at least one course above 101 and 102 in some other foreign language.

101, 102. ELEMENTARY COURSE. Essentials of grammar, dictation, oral and aural practice, reading, simple composition, drill in pronunciation. Both semesters. Four hours.

203, 204. INTERMEDIATE COURSE. Intensive class reading of modern literature. Review of grammar, practice in conversation and composition. Outside reading. Stress laid on gaining proficiency in reading language. Both semesters. Three hours.

205, 206. CONVERSATION AND COMPOSITION. Emphasis on oral facility and accuracy. Review of grammar. Use of Spanish language periodicals and records. Two hours.

305, 306. MODERN SPANISH LITERATURE. First semester, study of most important dramatists of the nineteenth and twentieth centuries. Extensive

collateral reading. Second semester, study of outstanding novelists of the nineteenth and twentieth centuries with special emphasis on the regional novel. Extensive collateral reading. Three hours. (Not offered in 1948-49.)

307, 308. SPANISH AMERICAN LITERATURE. Effort is made to interpret the various Spanish American countries, their people, their history, and their institutions through their literature read in the original. Three hours.

309. ADVANCED COMPOSITION AND CONVERSATION. Required for those whose field of concentration is Spanish. In addition to composition, the elements of phonetics and the rudiments of Spanish commercial correspondence will be studied. One semester. Two hours. (Not offered in 1948-49.)

311, 312. LITERATURE OF THE GOLDEN AGE. First semester, study of the Golden Age Drama. Second semester, a study of the life and work of Cervantes and their relation to the culture of the sixteenth century, with special emphasis on *Don Quijote*. Two hours.

401. SEMINAR. Survey of Spanish and Spanish-American literature. Effort is made to provide correlation and supplement for course work. Required for those whose field of concentration is Spanish.

460. METHODS. Lectures, discussions, observation, and reports dealing with modern aims and methods in language teaching. Advanced students only. Offered upon request. One semester. Two hours.

MUSIC

THOMAS HOFFMAN HAMILTON, Professor

Director of Music; Professor of Music Appreciation.

Director of the Daily Chapel Choir.

SIGFRED MATSON, Professor

Teacher of Piano, Organ, and Theory.

EDNA BROWNING RIGGS, Associate Professor

Teacher of Piano and Organ.

GLENN C. SHAVER, Assistant Professor

Director of the Choir and Choral Society.

HEIMO LOYA, Assistant Professor

*Teacher of Violin, Orchestral Instruments, Orchestration.
Instrumental Methods, Director of the Orchestra and Band.*

GRACE GAWTHROP PETERSON, Instructor

Teacher of Piano.

GENERAL INFORMATION

ADMISSION. To obtain freshman standing in music, graduation from an accredited high school is required. In addition the student should have had work in piano or some other instrument, and should be able to read music readily.

PURPOSE. The student wishing to major in music must follow the course leading to the degree of Bachelor of Arts concentrating either in applied music, music education, or in theory of music. The student who is majoring in some other field may elect courses in either applied or theoretical music. Membership in the music clubs offers training to such students.

EQUIPMENT. The Auditorium contains one teaching studio, a large and a small recital hall, and seven practice rooms. The Art Building contains four teaching studios. The auditorium has a Mason & Hamlin grand piano, and a three-manual Schantz organ, installed in 1946. The music library contains 900 phonographic records, a collection of miniature scores, and a carefully chosen list of books on musical subjects. The Seashore tests of musical talent are given to incoming students.

DEGREE REQUIREMENTS

The A. B. Degree with Major in Music.

I. The field of concentration in theory of music consists of:

(a) A departmental unit of 28 hours including 18 hours of theory, 6 hours of history of music, and 4 hours of orchestration.

(b) Related course: 8 hours of applied music, and 4 hours of ensemble.

II. The field of concentration in applied music consists of:

(a) A departmental unit of 20 hours including 16 hours of applied music and 4 hours of ensemble.

(b) Related course: 18 hours in theory of music and 6 hours in history of music.

III. The field of concentration in music education consists of:

(a) A departmental unit of 28 hours including 18 hours of theory, 4 of orchestration, and 6 of history of music. In addition to this, 8 hours in music education, which counts as education.

(b) Related courses: applied music 8 hours, 4 hours of ensemble.

DESCRIPTION OF COURSES

101, 102. **ELEMENTARY THEORY.** Melodic and harmonic dictation, keyboard harmony, sight singing, and part writing. Knowledge of elementary piano is desirable. Four hours each semester. Mr. Loya.

201, 202. **ADVANCED THEORY.** Dictation, keyboard harmony, sight singing, part writing, counterpoint based on the chorale harmonizations of J. S. Bach. Three hours each semester. Mr. Matson.

227, 228. **THE APPRECIATION OF MUSIC.** *No prerequisite.* A survey course aiming to give a feeling for the style of the different periods and composers, and some acquaintance with the principal forms of music. Intended for college students who are not majoring in music. The first semester deals with form. The second semester deals with individual composers. This course may be taken either or both semesters. Professor Hamilton. Two hours each semester.

261, 262. COLLEGE ORCHESTRA. A laboratory course in the theory and practice of orchestral music, meeting three hours a week for one hour's credit. Registration by permission of instructor. The course may be repeated for credit. One hour each semester. Students dropping the course at midyear receive no credit. Mr. Loya.

263, 264. CHORAL MUSIC. A laboratory course in the theory and practice of choral music, meeting three hours a week for one hour's credit. Registration by permission of the director. Applications for membership should be made in advance. Attendance at Choral Society on Monday night at eight o'clock is required. The course may be repeated for credit. One hour each semester. Mr. Shaver.

263a, 264a. CHORAL MUSIC. College Chorale, limited to 24 persons. The course may be taken with or without credit, and may be repeated for credit. Registration by permission of the instructor. One hour each semester. Mr. Matson.

267, 268. COLLEGE BAND. A laboratory course in the theory and practice of band music, meeting three hours a week for one hour's credit. This course may be repeated for credit. Permission of the instructor must be secured for admission to the course. Students dropping at midyear receive no credit. Qualified seniors will be given training in score-reading and conducting in conjunction with the band. One hour each semester. Mr. Loya.

301, 302. XVI CENTURY COUNTERPOINT. Prerequisite: Music 201, 202. Two hours each semester. Mr. Matson.

321, 322. HISTORY AND LITERATURE OF MUSIC. A study of the growth and development of music as an art. Two hours of lecture and discussion, one hour of supervised listening, and two hours of independent laboratory. Three hours each semester. Mr. Matson.

325, 326. ORCHESTRATION. A study of the capabilities of the instruments of the orchestra and practice in arranging music for orchestra. Prerequisite: Music 202. Mr. Loya. Two hours each semester.

327, 328. SACRED MUSIC. Designed to afford church and social workers, ministers, choir leaders, music teachers, and the general student a basis for discriminating judgment in the selection and study of sacred music. Prerequisite: Music 227, 228. Two hours. Mr. Hamilton.

465, 466. PUBLIC SCHOOL MUSIC—INSTRUMENTAL METHODS. Teaching of instrumental music in the public schools. The course is designed to give prospective public school music directors a knowledge of the technique and potentialities of band and orchestral instruments. Two hours each semester. Mr. Loya.

439, 440. PUBLIC SCHOOL MUSIC—VOCAL METHODS. A study of methods and materials. The first semester covers the first four grades, the second semester covers grades 5 to 8 and high school. No prerequisite. Three hours each semester. Mr. Shaver. Given alternate years.

439a. MATERIALS. A supplementary course to 439 and 440 for those who desire a more thorough acquaintance with the graded music used in public schools and high school. One semester only, one hour credit for two hours' class work. Mr. Shaver.

PRIVATE LESSONS IN APPLIED MUSIC. One or two hours.

151, 152.	Freshman Voice.	153, 154.	Freshman Piano.
251, 252.	Sophomore Voice.	253, 254.	Sophomore Piano.
351, 352.	Junior Voice.	353, 354.	Junior Piano.
451, 452.	Senior Voice.	453, 454.	Senior Piano.
155, 156.	Freshman Organ.	157, 158.	Freshman Violin.
255, 256.	Sophomore Organ.	257, 258.	Sophomore Violin.
355, 356.	Junior Organ.	357, 358.	Junior Violin.
455, 456.	Senior Organ.	467, 458.	Senior Violin.

CLASS LESSONS IN APPLIED MUSIC. No credit.

- 151c, 152c. Class Lessons in Voice.
 153c, 154c. Class Lessons in Piano.
 157c, 158c. Class Lessons in Violin.

ADDITIONAL DEPARTMENTAL REQUIREMENTS

Attendance at the weekly recitals is required of all music majors and of all other college students taking applied music for credit.

All music majors will be required to take Physics 104, Sound and Elementary Acoustics. It is understood that this course will be taken in the normal succession, Physics 101, 104.

All music majors will be required to pass a piano sight reading examination covering material used in their respective fields of concentration. This may be done at any time during the first three years of the college course.

All persons taking applied music for credit must take a final examination by performing before the music faculty at the close of each semester.

The department of music recognizes the importance of public performance for student progress, and provision is made for frequent appearances in the student recitals.

CONDITIONS UNDER WHICH MUSIC COURSES MAY BE ELECTED TOWARD

THE A. B. OR B. S. DEGREES:

A total of 40 semester hours of music may be applied toward the A. B. or B. S. degree under these conditions:

1. Eight hours of the forty must be in applied music for theory and school music majors. and no more than eight hours may be offered.
2. Majors in applied music must present 16 hours in applied music and no more may be counted.
3. Except majors in applied music, no one may offer more than eight hours of applied music, nor more than four hours of ensemble nor more than twelve hours of applied music and ensemble combined, toward the degree, when the major is in music.

PHILOSOPHY AND PSYCHOLOGY

SAMUEL M. THOMPSON, Professor

with the assistance of

PROFESSOR FRANK W. PHILLIPS, Department of Education

PROFESSOR HAROLD J. RALSTON, Department of Classics

The field of concentration in philosophy consists of:

(a) A departmental unit of at least 24 hours in philosophy including 202 or 221, 310, and either 301, 302 or 303, 304.

(b) Related courses totaling at least 16 hours, chosen from one or two fields with the approval of the adviser.

The field of concentration in psychology consists of:

(a) A departmental unit of at least 24 hours in psychology including 221 and 310.

(b) Related courses totaling at least 16 hours, chosen from one or two fields with the approval of the adviser.

PHILOSOPHY

202. INTRODUCTION TO PHILOSOPHY. An introduction to the general field and problems of philosophy, including the basic ideas and concepts we use to organize and interpret our experience. Open to all students. Three hours.

221. GENERAL PSYCHOLOGY. (For description see Psychology 221.) Three hours.

301. GREEK PHILOSOPHY. A study of the development of Greek thought with special reference to Plato and Aristotle. Some attention will be given to the religious and ethical thought of the Hellenic and Roman periods and to the synthesis of Greek and Christian thought in the middle ages. Open to juniors and seniors. Alternates with 303. First semester. Three hours. (Not given in 1948-49.)

302. MODERN PHILOSOPHY. A study of the more important philosophers of the modern period with special emphasis on Descartes, Spinoza, Locke, Hume, Kant, and Hegel. Open to juniors and seniors. Alternates with 304. Second semester. Three hours. (Not given in 1948-49.)

303. INTRODUCTION TO ETHICS. The origin and development of basic moral concepts and the main systems of ethical thought. Open to juniors and seniors. Alternates with 301. First semester. Three hours.

304. POLITICAL AND SOCIAL ETHICS. The function of the state, the problem of sovereignty, political obligation, and the ethical problems of economic and social relationships. Open to juniors and seniors. Alternates with 302. Second semester. Three hours.

305. ENGLISH EMPIRICISM. A study of selections from Locke, Berkeley, and Hume. Given by special arrangement. Two hours.

306. PHILOSOPHY OF KANT. A study of selections from Kant. Given by special arrangement. Two hours.

307. NINETEENTH CENTURY THOUGHT. A study of the more important thinkers of the nineteenth century, with major emphasis on British and American thought. Special attention will be given to the scientific and religious developments of the period. Open to juniors and seniors. Alternates with 315. First semester. Two hours.

308. TWENTIETH CENTURY THOUGHT. A continuation of 307, from the close of the nineteenth century to the present. Open to juniors and seniors. Alternates with 316. Second semester. Two hours.

310. LOGIC. The logical analysis of argument, the tests of truth, and methods of investigation in science, history, law, and philosophy. Open to sophomores, juniors and seniors. Second semester. Three hours.

313. PHILOSOPHY OF RELIGION. A study of basic religious concepts, including the relations of faith and knowledge. Special emphasis will be given to Christian thought. Open to sophomores, juniors, and seniors. First semester. Three hours. (This course is listed also under Department of Bible and Religion.)

315. PROBLEMS OF PHILOSOPHY. A course designed to aid the student in developing his own interpretations and solutions of the basic problems of life and thought. Open to juniors and seniors. Alternates with 307. First semester. Two hours. (Not given in 1948-49.)

316. PROBLEMS OF PHILOSOPHY. A continuation of 315. Open to juniors and seniors. Alternates with 308. Second semester. Two hours. (Not given in 1948-49.)

404. THESIS. Open only to students completing a major in philosophy. Given by special arrangement. Three hours.

PSYCHOLOGY

221. GENERAL PSYCHOLOGY. An introductory study of the fundamental types of human experience and behavior. Open to sophomores, juniors, and seniors. First semester. Three hours.

224. APPLIED PSYCHOLOGY. A study of the basic processes of adjustment with special attention to their use in the various fields of human activity. Prerequisite: Psychology 221. Second semester. Three hours.

232. EDUCATIONAL PSYCHOLOGY. For a description of this course see Education 232. Second semester. Three hours.

310. LOGIC. (For description see Philosophy 310.) Three hours.

323. ABNORMAL PSYCHOLOGY. A study of personality disorders and maladjustments. Prerequisite: Psychology 224. First semester. Two hours.

324. SOCIAL PSYCHOLOGY. Relations of personality to society and culture, with special attention to the psychological aspects of human conflicts and mass behavior. Prerequisite: Psychology 224. Second semester. Two hours.

331. CHILD PSYCHOLOGY. For a description of this course see Education 331. Prerequisite: Psychology 221 or 232. First semester. Two hours.

332. ADOLESCENT PSYCHOLOGY. For a description of this course see Edu-

cation 332. Prerequisite: Psychology 221 or 232. Second semester. Two hours.

333. MENTAL HYGIENE. For a description of this course see Education 333. Prerequisite: Psychology 224 or 232. First semester. Two hours.

335. EDUCATIONAL AND VOCATIONAL GUIDANCE. For a description of this course see Education 335. Prerequisite: Psychology 221 or 232. First semester. Three hours.

343. COMPARATIVE PSYCHOLOGY. Forms of behavior and learning processes at different levels of animal life, and their relation to human behavior and learning. Given by special arrangement. Three hours.

344. PSYCHOLOGICAL THEORIES. An analysis of basic psychological concepts and a comparison of the leading contemporary systems of psychology. Given by special arrangement. Three hours.

420. THESTS. Open only to students completing a major in psychology. Given by special arrangement. Three hours.

PHYSICS

LYLE W. FINLEY, Professor

PAUL CRAMER, Assistant Professor

W. GALE CUTLER, Instructor

The field of concentration in physics consists of:

(a) A departmental unit of at least 24 hours including three courses numbered above 300.

(b) Related courses totaling at least 16 hours, chosen from one or two of the following departments: chemistry, mathematics, biology, geology.

101. INTRODUCTORY PHYSICS. A survey course in the fundamentals of mechanics, heat, and sound. Open to beginners in physics. Three class meetings each week consisting of demonstrations, lectures, informal discussions and quizzes. One laboratory period each week. First semester. Four hours.

102. INTRODUCTORY PHYSICS. A survey course in the fundamentals of electricity, magnetism, and light. A continuation of Physics 101. Second semester. Four hours.

104. INTRODUCTION TO SOUND AND ACOUSTICS.. A study of the production, propagation, properties, and measurements of sound waves. Special emphasis on speech and hearing, theory of common musical instruments, musical scales, and acoustics of rooms. One laboratory period each week. Prerequisite: Physics 101 or consent of instructor. Second semester. Three hours.

201. GENERAL PHYSICS. The fundamentals of mechanics, heat, and sound. A more mathematical treatment of these subjects than that of 101 with more emphasis on problems. One laboratory period each week. Prerequisite: Mathematics 102 or 104. First semester. Five hours.

202. GENERAL PHYSICS. The fundamentals of electricity, magnetism, and light. A continuation of Physics 201. One laboratory period each week. Second semester. Five hours.

203. INTERMEDIATE LABORATORY AND PROBLEMS. A further study of forces, rotary motion, elasticity, and vibratory motion. This course is intended for students who have taken 101 and 102 and who wish to continue the study of physics. Prerequisite: Physics 101. First semester. Two hours.

204. APPLIED MECHANICS. Coplanar forces, forces in space, centroids, center of gravity, friction, moment of inertia, introduction to dynamics. Prerequisites: Mathematics 201. Physics 201 or 203, registration in Mathematics 202. Second semester. Three hours.

230. RADIO. An introductory course in radio. Three recitations, and one laboratory period each week. Open to all students. Four hours.

301. LIGHT. An introductory course in geometric and physical optics. Lectures and laboratory exercises in the laws of reflection and physical optics, and their application to optical instruments, phenomena of interference, diffraction, dispersion, polarization, laws of radiation, the nature and fundamental laws of atomic and molecular spectra. Three recitation periods each week. Prerequisites: Physics 101 and 102 or 201 and 202, or consent of instructor. Three hours.

302. HEAT. An intermediate course in heat and thermal measurements, including the phenomena of expansion, calorimetry, change of state, elementary kinetic theory, and a brief introduction to thermo-dynamics. Two recitations and one laboratory period each week. Prerequisites: Physics 101 and 102 or 201 and 202.

303. ELECTRICITY AND MAGNETISM. An intermediate course in the principles of electricity and magnetism. Two recitations and one laboratory period each week. Prerequisites: Physics 101 and 102 or 201 and 202. First semester.

304. ELECTRICITY AND MAGNETISM.. Continuation of 303. Prerequisites: Physics 303, Mathematics 202. Second semester. Three hours.

306. ANALYTIC MECHANICS. Rectilinear motion, curvilinear motion and rotation, work, energy and power, dynamics of rotating bodies, plane motion, impulse, momentum, and impact. Prerequisites: Physics 204, Mathematics 202.

308. MODERN PHYSICS. Introductory survey of atomic physics; properties of fundamental particles (electrons, protons); atomic energy levels; excitation and emission phenomena; photons; atomic and X-ray spectra; periodic arrangement of atoms; radioactivity isotopes; nuclear structure; transmutations. Prerequisites: Physics 101 and 102, or 201 and 202. Three hours.

401. (a, b, c). SPECIAL TOPICS IN PHYSICS. Advanced theoretical or experimental physics. This course is planned to serve as a background for synthetic thinking in the student's field of concentration. Prerequisites: Twenty hour credit in physics. (a) one hour. (b) two hours. (c) three hours.

402. (a, b, c). SPECIAL TOPICS IN PHYSICS. A continuation of Physics 401. Second semester. Hours to be arranged. (a) one hour. (b) two hours. (c) three hours.

AVIATION—FLIGHT TRAINING

Monmouth College, in cooperation with Martin Airways, Inc., a Civil Aeronautics approved flying school, offers training in both ground school and flying.

Ground-school courses will be taught in classrooms on the campus and the flight training will be taught at the airport. Airplanes used for training purposes include Aeroncas and Ryan PT22s.

The Monmouth Municipal Airport, oldest continuously operated airport in the state, is an excellent flying field with grass runways, ample hangar and shop facilities and is approved by the C. A. A. and by the Illinois State Department of Aviation as a Class I airport. It is located less than one mile from the campus.

AVIATION

101. GROUND SCHOOL. A study of theory of flight, meteorology, and navigation. Forces on airfoil, actions of controls, forces on airplane in flight, stability, performance. Air temperature and insulation, atmospheric pressure and winds, atmospheric moisture and precipitation, storms and their associated weather types. Maps, charts, navigation instruments, dead reckoning, elements of radio and celestial navigation. Open to all students. Three hours.

101A. FLIGHT TRAINING. A course supplementing 101 designed for beginners in flight training. Taxiing, effects of controls, straight and level turns, coordination exercises, confidence maneuvers, climbs and turns, stalls, rectangular course, take-offs, approach-90°, landings. S-turns, coordination climbing and gliding exercise, eights-30°, approach-180°, steep turns, accidental spins, normal spins. This course includes 8 hours of dual flight instruction. The average student will be qualified to solo at the end of this period of instruction although it must be realized that there are many who will not prove so apt. Prerequisite: Aviation 101 or simultaneous registration therein.

101B. FLIGHT TRAINING. Four hours of dual and six hours of solo instruction. This training includes stage B as outlined in Civil Aeronautics Bulletin No. 5. Initial solo work and dual checks. After satisfactory completion of stage B the student will begin stage C as outlined in the above bulletin. The student in this course and in the others listed below will be advanced in his training according to the judgment of the instructor. Prerequisite: Aviation 101 and 101A.

101C. FLIGHT TRAINING. Continuation of 101B. Five hours of dual and four hours of solo instruction. Completion of stage C. Apt students may begin work as outlined in stage D in Civil Aeronautics Bulletin No. 5. Prerequisite: Aviation 101 and 101B.

101D. FLIGHT TRAINING. Continuation of 101C. Four hours of dual and five hours of solo instruction. This course includes work as outlined in stage D in Civil Aeronautics Bulletin No. 5. Prerequisites: Aviation 101 and 101C.

101E. FLIGHT TRAINING. Four hours of dual and five hours of solo instruction. Complete review and practice for private flight test. Prerequisites: Aviation 101 and 101D.

201A. INSTRUCTOR'S COURSE. Six hours of dual instruction and four hours of solo instruction. In this course and in 201B, 201C, 201D, and 201E, the flight curriculum is arranged so that instruction and solo flight practice is given on all maneuvers necessary to enable a student to demonstrate proficiency to the degree required for a flight instructor's rating. 201A includes stage A of this training.

201B. INSTRUCTOR'S COURSE. Stage B. Four hours of dual and six hours solo instruction.

201C. INSTRUCTOR'S COURSE. Stage C. Five hours of dual and five hours of solo (Buddy Ride) instruction.

201D. INSTRUCTOR'S COURSE. Stage D. This course includes the first half of Stage D. Five hours of dual and four hours of solo instruction. The number of hours of dual may be increased and that of solo decreased at the discretion of the instructor in charge.

201E. INSTRUCTOR'S COURSE. Stage D. This course includes the last half of stage D. Five hours of dual and four of solo instruction.

Note: College credit will be allowed for courses 101A, 101B, 101C, 101D, 101E, 201A, 201B, 201C, 201D, and 201E, at the rate of one-half hour credit upon satisfactory completion of any two of the above courses.

Students who do not finish a course in flight training are charged only for the actual number of hours completed. For schedule of fees see "Expenses"

PHYSICAL EDUCATION

GLENN E. ROBINSON, Director of Physical Education
Football, Track, Tennis.

ROBERT G. WOLL, Director of Athletics and Intramural Sports
Basketball, Golf

JACK C. JAQUET, Instructor
Baseball, Freshman Football

THOMAS MCMICHAEL, Assistant
Swimming

HELEN HUSTON BERSTED, Co-Director in Women's Physical Education

MARY HUNTOON FLEMING, Co-Director in Women's Physical Education

BERNADINE PORTER, Assistant, Women's Physical Education
with the assistance of

GARRETT W. THIESSEN, Professor of Chemistry
Instructor in Rifle Marksmanship

EDWARD SACHS,
Instructor in Rifle Marksmanship

The curriculum in Physical Education for both Men and Women is designed to prepare students for teaching physical education, health, safety, coaching athletics and intramural sports, and directing recreational activities.

A field of concentration in Physical Education consists of:

- (a) A departmental unit of at least 24 hours, including course 455.
- (b) Courses totalling at least 16 hours in biology, including Biology 101,

102, 303, 304. Sufficient hours in education and psychology to satisfy state requirements for teachers of physical education. These courses include Education 201, 206, 311 and 314.

(c) Related courses totaling at least 16 hours chosen from one or two subjects which the student is preparing to teach. (See material presented under Education Department for additional information.)

COLLEGE REQUIREMENT

Freshman and sophomore men and women are required to take four (4) semesters of 100 courses in physical education unless excused by college physician or college committee on extra hours. Classes meet two days a week. Freshman and sophomore men engaging in athletic competition are excused from physical education only during the time that they are a member of a team.

COURSES FOR CONCENTRATION IN HEALTH AND PHYSICAL EDUCATION

*P. E. 205. INTRODUCTION TO P. E. A course in the basic principles of physical education. It is primarily an indoctrination for students intending to go into the field of physical education and acquaints them with problems of this field as well as ideals, aims, and objectives. Open to both men and women. First semester. Two hours.

P. E. 210. PERSONAL HYGIENE. A basic course in the study of personal health and hygiene with special emphasis on development of sound physical and mental health. Prerequisite: Sophomore standing. Open to both men and women. Two hours.

P. E. 305, 306. ORGANIZATION AND ADMINISTRATION OF PHYSICAL EDUCATION IN THE SECONDARY SCHOOLS. The philosophy of physical education, organization and planning of a program of physical education for the high school. For teachers, supervisors and administrators of physical education and athletics in the public schools. Open to both men and women. Both semesters. Prerequisites: junior or senior standing. Three hours each semester.

P. E. 455. METHODS AND CURRICULUM OF HEALTH EDUCATION. This course is for all those responsible in any way for health instruction in the public schools. Special consideration is given to the selection of materials and methods of instruction in establishing primary health habits. Emphasis will be given to the drawing up of a course of study which will be in line with the Illinois State Health and Physical Education law. Prerequisite: junior standing. Second semester only. Two hours.

**P. E. M. 206. RECREATIONAL SPORTS. Theory and practice in performing sports of recreational aspects such as: handball, golf, swimming, squash, badminton, table tennis, group games, contests, relays. Open to freshman and sophomore men expecting to major in the field. Second semester. Two hours.

P. E. M. 301, 302. COACHING AND MANAGEMENT OF INTERSCHOLASTIC SPORTS. Lectures and demonstrations in the fundamentals of football, basketball, baseball, and track. Management of athletics is also discussed. The course is intended to aid students who intend to coach in high schools. Emphasis

* P. E. Physical Education classes open to both men and women.

** P. E. M. Physical Education classes open to men only.

*** P. E. W. Physical Education classes open to women only.

will be placed on team play in interscholastic sports. Open to both junior and senior men, others may be admitted by special permission. Both semesters. Three hours each semester.

P. E. M. 303, 304. **THEORY AND PRACTICE.** The fundamentals of activities as carried on in a class of physical education. Gymnasium apparatus work, formal class exercises and formulation of an intramural program will receive major emphasis. Those planning to be teachers of physical education should take this course. Practice teaching to meet the requirements as set by the State of Illinois will be arranged. Both semesters. Two hours.

P. E.W. 206. **LEADERSHIP IN PLAY AND RECREATION.** A study of the methods of teaching physical education activities in elementary grades and methods of leadership in play and recreation with special emphasis on programs for playgrounds and summer camps. Not open to freshmen. Prerequisites. 101 and 102. Two hours.

P. E. W. 301. **ANALYSIS OF INDIVIDUAL SPORT TECHNIQUES.** A study of analyzing swimming strokes and diving and the techniques of individual activities including tennis, golf, badminton, archery, and bowling and some practice in teaching these activities. Open to junior and senior women. Three hours.

P. E.W. 302. **CORRECTIVE PHYSICAL EDUCATION.** Analysis and practice of body mechanics, corrective exercises and posture training. Open to juniors and senior women. Three hours.

P. E. W. 454. **METHODS OF TEACHING PHYSICAL EDUCATION.** Principles and techniques of teaching and a study of teaching progressions for various activities with major emphasis on team sports. Open to junior and senior women. Three hours.

SERVICE CLASSES IN PHYSICAL EDUCATION FOR MEN

P. E. M. 100. **FRESHMAN FOOTBALL.** Participation in freshman football or member of the squad. One hour.

P. E. M. 101. **SOPHOMORE FOOTBALL.** Participation in sophomore football or member of the squad. One hour.

P. E. M. 102. **FRESHMAN BASKETBALL.** Participation in freshman basketball or member of the squad. One hour.

P. E.M. 103. **SOPHOMORE BASKETBALL.** Participation in sophomore basketball or member of the squad. One hour.

P. E. M. 105. **TOUCH FOOTBALL AND VOLLEY BALL.** Instruction in individual skills and team play in touch football and volleyball. One hour.

P. E. M. 106. **BASKETBALL AND SOFT BALL.** Instruction in techniques and playing of basketball and soft ball. One hour.

P. E. M. 108. **ARCHERY AND HANDBALL.** Instruction in the fundamentals of target shooting. Second nine weeks there will be instruction in four-wall handball, both singles and doubles play. One hour.

P. E. M. 109. **WRESTLING AND BOXING.** Instruction in the fundamental skills of wrestling and boxing. Nine weeks instruction in each. One hour.

P. E. M. 110. **SOCCER AND BADMINTON.** Instruction in individual skills and team play in soccer and badminton. One hour.

P. E. M. 111. **TUMBLING AND INDIVIDUAL ATHLETICS.** Instruction in single and double tumbling. Second nine weeks will be spent in individual events of track and field and physical fitness skills. One hour.

P. E. M. 112. **VOLLEYBALL AND HANDBALL.** Instruction in individual skills and team play in volleyball and handball. One hour.

P. E. M. 115. **BEGINNING GOLF.** Instruction in elementary golf strokes, rules and etiquette of the game. A semester course. One hour.

P. E. M. 120. **BEGINNING TENNIS.** Instruction in fundamental tennis strokes with major emphasis placed on the service, forehand and backhand strokes. Tennis racket is required equipment. One hour.

P. E. 125. **BOWLING.** Introduction in elementary bowling skills and techniques. One hour.

P. E. M. 130. **BEGINNING SWIMMING.** Instruction given in floating, fundamental swimming strokes and elementary diving. A semester course. One hour.

P. E. M. 160. **ADVANCED GOLF.** Review of and further practice of the skills and techniques of golf. Prerequisite: a set of golf clubs and previous golf experience. One hour.

P. E. 170. **ADVANCED BOWLING.** Review of and further practice of skills and techniques. One hour.

P. E. 181. **BASIC RIFLE MARKSMANSHIP.** Theory and practice of safe and accurate rifle firing, adapted from the National Rifle Association's basic course. Consists of lectures, practice in firing and coaching on the fifty-foot gallery range, and written and firing tests as prescribed by the Association. Open to men and women. One lecture and one firing period each week, for eight weeks. Prerequisite: two semesters of Physical Education in 100 group. First semester. One hour.

P. E. 182. **ADVANCED RIFLE MARKSMANSHIP.** Shooting for advanced civilian and college NRA recognitions, varsity postal and shoulder-to-shoulder competition, college championship. Men and women. Prerequisite: Physical Education 181. Second semester. One hour.

P. E. M. 190. **ADVANCED TENNIS.** Review of and further practice in skills and techniques of tennis. One hour.

P. E. M. 195. **ADVANCED BASKETBALL.** Review and further practice in skills and techniques of basketball.

SERVICE CLASSES IN PHYSICAL EDUCATION FOR WOMEN

P. E. W. 105. **FIELD HOCKEY AND VOLLEYBALL.** Instruction in the individual techniques and in the playing of field hockey and volleyball. One hour.

P. E. W. 106. **BASKETBALL AND SOFTBALL.** Instruction in the individual techniques and in the playing of basketball and softball. One hour.

P. E. W. 107. **BADMINTON AND ARCHERY.** Instruction in the techniques and playing of badminton and instruction in the fundamentals of target shooting. One hour.

P. E. W. 109. **FOLK DANCES.** A study of the folk dances of various countries with special emphasis on European dancing. One hour.

P. E. W. 110. **MODERN DANCE.** A study of the fundamentals of body mechanics through muscular experience in the basic locomotor and axial movements and the techniques of modern dance. One hour.

P. E. W. 112. **MOTOR FITNESS.** A study of the fundamentals of the body mechanics through muscular experience. One hour.

P. E. W. 120. **BEGINNING GOLF.** Instruction in fundamental golf techniques and in the rules and etiquette of the game. One hour.

P. E. W. 114. **BEGINNING TENNIS.** Instruction in fundamental techniques with emphasis on service, forehand and backhand drives. One hour.

P. E. 125. **BOWLING.** Same as for men's physical education.

P. E. W. 130. **BEGINNING SWIMMING.** Instruction is given in floating, treading water, elementary swimming strokes, and elementary diving. One hour.

P. E. W. 132. **INTERMEDIATE SWIMMING.** Continued practice of swimming strokes and instruction in springboard diving. One hour.

P. E. W. 154. **ADVANCED SWIMMING.** Advanced work in strokes, endurance, springboard diving and beginning work in rhythmic swimming. One hour.

P. E. W. 150. **ADVANCED TENNIS.** Review of and further practice in baseline strokes, volley strokes and general tactics of the game. One hour.

P. E. W. 160. **ADVANCED GOLF.** Same as for men's physical education.

P. E. W. 165. **LIFE SAVING.** Instruction is given in American Red Cross Life Saving and the Senior Life Saving Tests are passed. One hour.

P. E. 170. **ADVANCED BOWLING.** Same as for men's physical education.

P. E. 181. **BASIC RIFLE MARKSMANSHIP.** (Same as listed in men's physical education.)

P. E. 182. **ADVANCED RIFLE MARKSMANSHIP.** (Same as listed in men's physical education.)

P. E. W. 202. **THEORY OF DANCE.** A course in methods and techniques of dance with special emphasis upon modern dance. This course is open to any student but required for women majors. Prerequisite: Beginning Modern Dance.

SOCIOLOGY

A. LeROY HUFF, Professor

The field of concentration in sociology consists of:

(a) Twenty-four hours of work in sociology and allied subjects. This must include eighteen hours of work in courses listed in this department and also Political Science 201 and Economics 201.

(b) Sixteen hours in one or two departments approved by the student's adviser. Sixteen of the thirty-six hours included in the field of concentration must be upper division.

301. **INTRODUCTION TO SOCIOLOGY.** A brief study of human society, its composition, group behavior, social institutions, and the development of social ideals. Prerequisite: two years of college work or special consent. First semester. Three hours.

302. **SOCIAL PROBLEMS.** A study of social pathology. Attention is given to the conditions and the forms of behavior which harm the individual and society. Some consideration is given to plans for amelioration of adverse conditions. Text, library reading, and special reports. Prerequisite: Sociology 301 or special consent. Second semester. Three hours.

304A. **RURAL URBAN SOCIOLOGY.** Consideration of the divergent culture patterns of rural and urban life. An analysis of the differences that characterize the major social institutions; the church, school, leisure, industry and home; the dominance of technology in transportation and manufacture in molding the social life of both city and country. Prerequisite: Sociology 301 or consent.

305. **AMERICAN POPULATION AND RACE PROBLEMS.** A study of the growth, composition, and distribution of the population of the United States. Attention is given to population and race problems of the present. Open to juniors and seniors. First semester. Two hours.

306. **THE FAMILY.** A study of family forms and functions with emphasis upon the social and economic changes which are affecting modern American families. Attention is given to some of the present problems of marriage and family life. Open to juniors and seniors. Second semester. Two hours.

308. **INTRODUCTION TO SOCIAL WORK.** A survey of the fields and methods of social work. Prerequisite: Sociology 301, 302, or instructor's consent. Second semester. Two hours.

310. **CRIME AND DELINQUENCY.** A study of the nature and causes of crime, with special attention given to the social and personal factors leading to delinquency. A review of the theories of punishment, and an evaluation of the programs of prevention and cure. Prerequisite: Sociology 301 or special consent.

312. **RACIAL TENSIONS AND CULTURE CONFLICTS.** A survey of race and culture conflicts in contemporary civilization; a review of the cumulative effects of economic and political expansion on East West relations; the significance of the present situation on efforts to achieve satisfactory international relations and lasting world peace. Prerequisite: Sociology 301 or consent.

321. **SOCIAL PSYCHOLOGY.** For description see Psychology 321. Two hours.

352. **LABOR PROBLEMS.** For description see Economics 352. Three hours.

SPEECH

JEAN LIEDMAN, Professor

RALPH FULSOM, Assistant Professor

GREGORY FALLS, Instructor

The field of concentration in speech consists of:

(a) A departmental unit of at least 24 hours in addition to the fresh-

man requirements including courses 221, 222, 303, and 341.

(b) Related courses, totaling at least 16 hours, chosen from one or two of the following departments: Bible, biology, English, history, music, philosophy and psychology, physics, and social science.

The beginning work in speech is offered on three levels as indicated in the courses outlined. Students will be enrolled in the courses which best serve their individual needs. Those enrolled in one of the three fundamental courses are required to have a voice recording made at the beginning and at the close of the semester.

101. FUNDAMENTALS OF SPEECH. For those students with no particular difficulties of speech but who have had no previous courses in the field. Designed to acquaint the student with the terminology of the subject, and to develop ease through coordinated bodily action and correct conversational speech. Pantomimes, reading from the printed page, and short original talks. Both semesters. Two hours.

102. EXTEMPORE SPEAKING. For those students with special aptitude in speech or those who have had a year or more of high school speech. Elected the second semester by those who take 101 in the first semester. A course in practical platform speaking with special emphasis on the material content and speech organization. Delivery of speeches of information, impression, conviction, and entertainment. Both semesters. Two hours.

104. SPEECH CORRECTION. For students needing minor corrective work. Designed to improve faults of breathing, articulation, pronunciation, unpleasant pitch and quality of voice, and to increase the poise of students suffering from excessive timidity. Analysis of individual problems and assignment of special work for remedial purposes. Substituted for course 101 upon advice of the instructor. Speech 104 does not fulfill the graduation requirement but must be followed by another course in speech. First and second semester. Two hours.

204. RADIO SPEECH. A course in the basic principles of radio speaking. Designed to acquaint the student with script writing and announcing. Rehearsals and practice in interviews, talks, panel discussions, dramatic sketches, and stories are included. Class work will be supplemented by the public address system, recording machine and occasional broadcasts over neighboring radio stations. Prerequisite: Speech 102. Second semester. Two hours.

206. ADVANCED PUBLIC SPEAKING. The course is divided into three units: 1. A consideration of the psychology of influencing human conduct by means of the spoken word; 2. The study and delivery of speeches for special occasions—introductions, presentations, acceptances, welcomes, and various types of short speeches; 3. Practice in the application of the principles of parliamentary law. Prerequisite: Speech 102. Second semester. Two hours.

215. DEBATE SEMINAR. Open only to those who have won a place on the intercollegiate debate squad. One hour.

221. INTERPRETATIVE READING (VOICE AND PHONETICS). Mechanics of oral reading; breathing exercises; voice production; pronunciation; articulation; phrasing; emphasis; correct use of the elements of voice. A basic course which may (upon consent of the instructor) be substituted for the required course Speech 101, or Speech 102. Prerequisite: One semester of college speech. First semester. Two hours.

222. INTERPRETATIVE READING. A continuation of 221 with more emphasis upon creative power. Development of vocal energy and the practical working out of the theory of vocal quality, pitch and time. Oral reading of various types of English literature. Prerequisite: Speech 221. Second semester. Two hours.

303. DISCUSSION AND DEBATE. The theory of argumentation and the application of that theory in various forms of discussion and debate. A study of evidence, reasoning, fallacies, briefing. Directed discussions, symposiums, committee hearings, panel discussions and team debating. Prerequisite: Speech 102. First semester. Three hours.

304. SPEECH COMPOSITION. A course in speech rhetoric. A study of the distinctive features of oral style. Types of introductions and conclusions, and methods of developing the central contention in the body of the speech. Building the speech from the selection of the subject to the completed manuscript. The analysis of models of style. Much practice in writing. Prerequisite: Speech 102. Second semester. Three hours.

315. ORATION SEMINAR. Intensive study of the writing and delivery of an oration. One hour.

321. ADVANCED INTERPRETATIVE READING. A course designed to develop skill in the technique of reading, in creative imagination, and in the expression of emotional power. Advanced and difficult materials will be used from the field of literature. Prerequisite: Speech 221 and 222. First semester. Two hours.

322. ADVANCED INTERPRETATIVE READING. A continuation of 321. In this course the student gains experience in finding and abridging material suitable for oral interpretation. Platform reading of individual projects. Second semester. Two hours.

324. ADVANCED INTERPRETATIVE READING. A continuation of Speech 321 through study in private lessons. Since the objective for each student is a public recital, only those who have unusual skill in platform reading may elect this course instead of Speech 322. Arrangements for lessons may be made at the college office with the consent of the instructor. The fee is \$18.00 per semester. Second semester. Two hours.

341. SPEECH PATHOLOGY. A study of the disorders in speech, with emphasis upon their physiological and structural causes. Attention given to diagnosis and suggested therapy. Prerequisites: Psychology 221 and junior standing. First semester. Three hours.

342. SPEECH PATHOLOGY. Continuation of Speech 341.

401. SEMINAR. For senior speech majors. To integrate the work of the four years, and prepare for the comprehensive examinations. Intensive review, correlation of subjects, additional study and research. First semester. Two hours.

402. SEMINAR. A continuation of 401. Second semester. Two hours.

442. THE TEACHING OF SPEECH. Designed for those who expect to teach speech in high school. A review of the fundamentals of speech with emphasis on methods of teaching them. Special attention will be given to the directing of co-curricular activities such as debating, dramatics, and oral reading. The class will review and evaluate speech texts and study current speech

publications. Open only to juniors and seniors. Second semester. Two hours.

136. **DRAMATICS.** A laboratory course in acting and stagecraft. Production shall consist of one long play and (or) a series of one-act plays directed by the faculty director or by students in Dramatics 445 under the supervision of the faculty director. Students are eligible in the second semester of the freshman year or in any succeeding semester. No credit is given for this course but if the student does satisfactory work he may then become a member of Crimson Masque (dramatic club) and register for a course in dramatics. Registration for Dramatics 136 is made in the department of speech.

235, 236. **DRAMATICS.** Open to students who have satisfactorily passed the probationary requirements of course 136 and others who may be admitted after try-outs at the beginning of the college year. Participation in the production of plays for public performance. Acting of various roles; work on stage, property, lighting and make-up crews. One-half hour of credit each semester.

335, 336. **DRAMATICS.** A continuation of Dramatics 236. Students are placed in more responsible positions on crews, act more difficult roles according to ability, and are eligible for offices in the dramatic club. One-half hour of credit each semester.

435, 436. **DRAMATICS.** A continuation of Dramatics 336. One-half hour credit each semester.

311. **HISTORY OF THE THEATRE.** A study of the development of theatre and drama from ancient Athens to modern Broadway. The important contribution of every nation to play-writing, acting, and methods of production. Analysis of the technique of dramatic structure necessary for the study and appreciation of plays. Text book and reading of representative important plays of each period. Open only to juniors and seniors, and to sophomores by permission. First semester. Three hours.

313. **PLAY PRODUCTION.** The primary aim of this course is to prepare students to direct plays. A study of the problems of the director, organization and duties of the production staff, analysis of dramatic structure, elements of acting, and the preparation of a director's manuscript. (The plays worked out in this course are produced in the laboratory course 136.) This course has little practical value unless followed or preceded by the course in stagecraft. Qualified directors must have satisfactorily completed the supplementary courses 313 and 314. Textbooks and the outside reading of plays. First semester. Three hours.

314. **STAGECRAFT.** A consideration of the visual elements of play production; the theory of scene design; the building and painting of scenery and properties; problems in costuming; the study of make-up; stage lighting. Practical workshop experience and assignments to various stage crews: Classroom credit two hours; laboratory credit one hour. Second semester. Three hours.

445. **PLAY DIRECTING.** Open to members of the dramatic club (Crimson Masque) who have satisfactorily completed Play Production 313. Each student will prepare a director's manuscript of at least one one-act play and

will produce the play either as a laboratory (work shop) performance or for the public. (Whether or not the plays are public will depend upon the program of the season as outlined by the program committee of the dramatic club). In general, student-directors will work with freshmen and new members of the dramatic club in the second semester of the college year. One hour of credit for that semester in which a play is directed. The course may be repeated for credit.

COMMENCEMENT HONORS AND DEGREES CONFERRED

FRESHMEN—CLASS OF 1951

<i>Name</i>	<i>Home Address</i>
Agamy, Albert Abe	Coal City, Illinois
Agamy, George	Coal City, Illinois
Alwin, Margery Georgeanne	Minneapolis, Minnesota
Anderson, Allen Byford	Pawnee City, Nebraska
Anderson, Carol Lee	Chicago, Illinois

Anderson, Gerald Julius	Woodhull, Illinois
Anderson, Jancie Rae	Chicago, Illinois
Anderson, Lawrence Arthur	Monmouth, Illinois
Anderson, Mary Teresa	Des Moines, Iowa
Anderson, Norman Frederick	Park Ridge, Illinois
Anderson, Robert Ross	Hutchinson, Kansas
Arnold, Mary Carol	Normandy, Missouri
Arnold, Richard H.	Waukegan, Illinois
Avey, Spencer Ernest	Mt. Morris, Illinois
Azbell, Kenneth Dean	Ipava, Illinois
Baehr, Lois Elsie	River Forest, Illinois
Bailey, James Bruce	Minca, Egypt
Baker, Barbara Joan	Earlville, Illinois
Baker, Margaret Elizabeth	Saginaw, Michigan
Barker, Norman Kay	Mazon, Illinois
Barkley, Thomas Joseph	Chicago, Illinois
Baumbach, Donna Kathleen	New Windsor, Illinois
Baumberger, Nancy Lee	Moundsville, West Virginia
Beckwith, Virginia	Springfield, Illinois
Beernink, Nancy Ruth	West Allis, Wisconsin
Behnke, Eugene Charles	Kewanee, Illinois
Bevenour, Patricia Jane	Monmouth, Illinois
Bird, Allan George	Oak Park, Illinois
Bletsch, Charles Edwin, Jr.	Highland Park, Illinois
Boggs, Bruce Jefferson	Ferguson, Missouri
Bogott, Lyle Chester	Rock Falls, Illinois
Boles, Robert Miller	Washington, D. C.
Bourne, Janet Jean	Oxford, Ohio
Bowker, Richard Loxley	Pittsburgh 21, Pennsylvania
Brandt, Charles Edward, Jr.	Baltimore, Maryland
Brantingham, Frances Joyce	Chicago, Illinois
Briden, Alberta Alice	Maywood, Illinois
Brockway, Ann Elizabeth	Rochester, New York
Brooks, Donald Williams	Monmouth, Illinois
Brooks, Paul Edward	Monmouth, Illinois
Brown, Edith Dorothy	Wauwatosa, Wisconsin
Bruhn, Jack Douglas	Maywood, Illinois
Bruning, Charles	Wilmette, Illinois
Bump, Donald Dean	Canton, Illinois
Burgener, John Albert	Hinsdale, Illinois
Busch, William Curtis, Jr.	Kewanee, Illinois
Buschart, Martha Jean	St. Louis 21, Missouri
Buzan, Doris Louise	Alton, Illinois
Calhoun, Joan	Evanston, Illinois
Calsen, Eleanor Jane	Moline, Illinois
Campbell, Ann	Newton, Iowa
Campbell, Dorothy June	Oak Park, Illinois
Cannon, Marion	Downers Grove, Illinois
Carlsten, Robert Allen	Chicago, Illinois
Carmichael, Lloyd Earl	Belvidere, Illinois
Carpenter, James Glenn	Coal City, Illinois
Castle, Mary Frances	Abingdon, Illinois
Chesnutt, William Lewis	Mt. Sterling, Illinois
Chestnut, Wendell Blaine	Kirkland, Illinois
Chew, Donald Daugherty	Wilmette, Illinois
Christie, Robert Bruce	Butler, Pennsylvania

Churchill, Frank Richard, Jr.	Alexis, Illinois
Clapp, Dean Warren	Winnetka, Illinois
Clark, Patricia Ann	Little York, Illinois
Cortelyou, Frances Eleanor	Media, Illinois
Crow, Eleanor Mable	Monmouth, Illinois
Cunningham, Bruce Boyn	Orchard Park, New York
Davis, Eugenia Perrin	Geneva, Illinois
Davison, John Russell	Stronghurst, Illinois
Daw, Edwin Wood	Riverside, Illinois
DeBruner, Betty Ruth	St. Louis, Missouri
Denker, Phyllis Hilda	Wasco, Illinois
DeVere, Don Lemont	Chicago, Illinois
Dolan, Paul Gregory	Richmond Heights, Missouri
Donaldson, Jane Gibson	Philadelphia, Pennsylvania
Dorman, Alan Richard	Elmwood Park, Illinois
Drake, Rex Eugene	Avon, Illinois
Drews, Cynthia Agnes	Chicago, Illinois
Dugan, Donald Russell	Xenia, Ohio
Dykhuizen, Anna Rowene	Des Moines, Iowa
Ebenezer, William Francis	Rock Falls, Illinois
Eighmy, Richard Allen	Rockford, Illinois
Elliott, Lila Jane	Chicago, Illinois
Engstrom, Newton Daniel	Fox Lake, Illinois
Erickson, Edith Anne	Sheridan, Illinois
Ericksen, Lois Ann	Toledo, Ohio
Farrar, Benjamin David	Rock Island, Illinois
Fassett, Lorrin Keith	Geneseo, Illinois
Fassett, Spencer LaVerne	Geneseo, Illinois
Faus, Barbara Rose	Chicago, Illinois
Felker, Albert Merrett	Mt. Morris, Illinois
Fitch, Frank Wesley	Bushnell, Illinois
Flack, William Duncan	Chariton, Iowa
Foglesong, Jacqueline Joy	Albert Lea, Minnesota
Follett, Harold Keith	Kewanee, Illinois
Foster, Louis Ashley	Oak Park, Illinois
Foster, Richard Hillen	Monmouth, Illinois
Franklin, Richard Anderson	Roseville, Illinois
Fredenhagen, Rita Grace	Naperville, Illinois
Freeman, Robert Franklin	Ravenna, Ohio
Gardner, Imogene Frymire	Monmouth, Illinois
Gardner, Leland Ray	Monmouth, Illinois

Wagner, Inamae June	Chicago, Illinois
Wagner, Nancy Lee	Evanston, Illinois
Walker, Robert Lee	Paris 16e, France
Walton, William Neil	Kewanee, Illinois
Watson, Margaret Louise	Sewickley, Pennsylvania
Weakman, Mary Jean	Piper City, Illinois
Weber, Phillip	Mt. Prospect, Illinois
Weber, Willard Lavern	Bensenville, Illinois
Wehmiller, Beverly Ann	Sidney, Nebraska
Western, Barbara	Waukegan, Illinois
Whannel, Murray Deane	Traer, Iowa
White, Nancy Ann	Silver City, New Mexico
Whitley, Vesta Pearl	Greenfield, Ohio
Wilcox, John Junior	Woodhull, Illinois
Williams, James Berry	Black Mountain, North Carolina
Williams, William Andrew	Viola, Illinois
Wilner, Edna Mae	Highland Park, Illinois
Wissing, Lois Bernadine	Oregon, Illinois
Wood, Robert Paul	Monmouth, Illinois
Yeager, Gerald Adrian	Uniontown, Pennsylvania
Young, John Newton	Roseville, Illinois

STUDENTS SUMMER SESSION—1947

<i>Name</i>	<i>Home Address</i>	<i>Field of Concentration</i>
Adams, William Arthur	Oneida, Illinois	Education
Albert, Arlene Ray	Roseville, Illinois	Econ. & Bus. Ad.
Albert, Eleanor Naomi	Galesburg, Illinois	Education
Anderson, Robert Valentine	Brooklyn, New York	Mathematics
Baird, Donald Wallace	Monmouth, Illinois	History
Baker, Faye Elizabeth	Monmouth, Illinois	Education
Bayer, Herbert Eugene	Wyoming, Illinois	Econ. & Bus. Ad.
Bossort, Dallas	Table Grove, Illinois	Geology
Braddock, Marion Lee	Dodge City, Kansas	Education
Bradford, Mary Louise	Monmouth, Illinois	Education
Bricker, Mrs. Grace	Kirkwood, Illinois	Education
Briggs, Malcolm Eugene	Toulon, Illinois	Econ. & Bus. Ad.
Brown, Edward Merle	Pittsburgh, Penna.	Econ. & Bus. Ad.
Browne, William Burt	Florham Park, N. J.	Physics
Buchanan, Robert	Burlington, Iowa	Econ. & Bus. Ad.
Burrill, Virginia Fern	Viola, Illinois	Education
Butler, William Earl	Curryville, Missouri	History
Calhoun, Ruth Anna	Geneseo, Illinois	
Camp, Jon Sumner	El Paso, Texas	English
Carson, Winifred Walters	Little York, Illinois	Education
Christian, William Hopkins	Evanston, Illinois	Econ. & Bus. Ad.
Clark, Laurence Otis	Abingdon, Illinois	Chem., Biology
Clark, Mary Ann	Oneida, Illinois	Music
Congdon, William Donald	Monmouth, Illinois	English
Davis, Dorothy	Roseville, Illinois	Music
Ewing, Evelyn Marie	Seaton, Illinois	Education
Eyler, Dorothy Mae	Monmouth, Illinois	Music
Faverty, Barbara Benson	Waukegan, Illinois	Physical Ed.
Faverty, William Clyde	Evanston, Illinois	Chemistry

Feeheley, Robert Donald	Saginaw, Michigan	Biol., Chemistry
Fisher, Robert Eugene	Pekin, Illinois	Econ. & Bus. Ad.
Forbes, John Edward	River Forest, Illinois	Econ. & Bus. Ad.
Foster, Robert L.	Monmouth, Illinois	Chemistry
Gantner, Donald W.	Pittsburgh, Penna.	Mathematics
Garabrant, Mildred Irene	Monmouth, Illinois	Education
Garabrant, Richard Vernon	Monmouth, Illinois	History
Gladstone, William R.	Walton, New York	Chemistry
Glas, Elizabeth Gail	Monmouth, Illinois	Mathematics
Gossett, Darrel Lee	Monmouth, Illinois	Chemistry
Graf, George Frederick	Peoria, Illinois	Biology
Hamilton, Richard	Monmouth, Illinois	
Hammerberg, James Hughes	Oak Park, Illinois	Econ. & Bus. Ad.
Hansen, Bruce Winston	Chicago, Illinois	Education
Hargrave, Glenn Ellis, Jr.	Mt. Prospect, Illinois	Biology
Hedberg, James Leland	Monmouth, Illinois	Econ. & Bus. Ad.
Heisler, Charles Rankin	Stronghurst, Illinois	Chemistry
Hershberger, Floyd Stewart	Waterloo, Iowa	Greek
Hess, Robert Lawrence	Evanston, Illinois	Econ. & Bus. Ad.
Hiett, Robert Alva	Monmouth, Illinois	Biology
Hill, David	Biggsville, Illinois	Chemistry
Hoog, Emmy Lou	Cleveland, Ohio	Music
Hoyt, John Lee	Roseville, Illinois	Chemistry
Huxley, Pauline	Swaledale, Iowa	English
Jacoby, Robert Edward	Cutler, Illinois	Mathematics
Jamieson, Mildred Frances	Everett, Washington	Education
Jenkins, Charles James	Chicago, Illinois	Biology
Johnson, Karl R.	Rockford, Illinois	Chemistry
Johnson, Robert Dean	Monmouth, Illinois	English
Johnson, Sarah Elizabeth	Monmouth, Illinois	Education
Johnson, Theodor Leonard	Evanston, Illinois	Econ. & Bus. Ad.
Kaepfel, Beatrice June	Milwaukee, Wisconsin	History
Kason, Harry Eugene	Chicago, Illinois	Econ. & Bus. Ad.
Keefer, Eldon Gale	Monmouth, Illinois	Econ. & Bus. Ad.
Kuntz, William Glenn	Monmouth, Illinois	History, Philos.
Latham, Ralph Howard	Albert Lea, Minnesota	English
Lauder, Charles Houlton	Monmouth, Illinois	Chemistry
Lauterbach, George Ervin	Bushnell, Illinois	Chemistry
Lazaro, Ream A.	Ingram, Pittsburgh, Pa.	Government
Leary, John Dennis	Franklin, Indiana	Econ. & Bus. Ad.
Lee, Lawrence Donovan	Kewanee, Illinois	Chemistry, Biol.
Lillig, Vernon Hugh	Riverside, Illinois	Political Science
McClintock, Robert William	Newburgh, New York	Chemistry
McIlvaine, Paul Robert	Geneseo, Illinois	Mathematics
McIntyre, Russell T.	Monmouth, Illinois	Chemistry
McLaughlin, Rosemary	Monmouth, Illinois	Physical Ed.
Mahler, Walter	Bengal, India	Chemistry
Marshall, Josephine	Greenfield, Ohio	Chemistry
Marshall, Ralph	Chula Vista, Calif.	English
Massingill, Mrs. Dorothy	Berwick, Illinois	Education
Matson, Robert T.	Monmouth, Illinois	Political Science
Milligan, Merle Wallace	De Moines, Iowa	Physics
Mings, Richard Woodward	Roseville, Illinois	Physical Ed.
Moore, Byron Calvert	Portland, Oregon	History
Murk, Virgil Loren	Monmouth, Illinois	Sociology
Murphy, John Lawrence	Roseville, Illinois	Econ. & Bus. Ad.

Murphy, Loren Edgar	Monmouth, Illinois	Political Science
Musgove, James	Monmouth, Illinois	Econ. & Bus. Ad.
Patterson, Charles Webster	Overland, Missouri	Mathematics
Pearson, Donald Clyde	Rockford, Illinois	Econ. & Bus. Ad.
Peyron, Albert Paul	LaHarpe, Illinois	Physics
Picard, Edward Earl	Carnegie, Pennsylvania	Econ. & Bus. Ad.
Pinson, Evelyn Juanita	Monmouth, Illinois	Education
Poling, Harold Arthur	Ft. Belvoir, Virginia	Econ. & Bus. Ad.
Porter, James W.	Kewanee, Illinois	Econ. & Bus. Ad.
Powell, Loren William	Lacine, Michigan	Chemistry
Richey, Charles M.	Stronghurst, Illinois	Econ. & Bus. Ad.
Rodger, Robert Hulley	Brooklyn, New York	Econ. & Bus. Ad.
Saunders, John Robert	Monmouth, Illinois	Physics
Sawyer, Farwell Franklin	Waterman, Illinois	Physical Ed.
Shaffer, Virginia Lee	Monmouth, Illinois	Education
Shaver, Glendora Catherine	Monmouth, Illinois	Music
Shields, James Christie	Des Moines, Iowa	Biology
Smedberg, Jon Keers	Evanston, Illinois	History
Smith, Dorothy Ruth	Aledo, Illinois	Music
Spiss, Gladys Caroline	Farmington, Illinois	Education
Stewart, Frederick Stire	Oak Park, Illinois	Econ. & Bus. Ad.
Stone, Howard DeLot	Chicago, Illinois	Philos. & Psychol.
Strangeway, Ruth Marie	Wilkinsburg, Penna.	English
Synwolt, Richard E., Jr.	Chicago, Illinois	History
Talkin, Robert Ralph	Roseville, Illinois	Physical Ed.
Thorwaldsen, Roland W.	Monmouth, Illinois	History
Urey, John Hume	Oil City, Penna.	Philosophy
Vance, William Scott	Chicago, Illinois	Physics
Ward, John Robert	Monmouth, Illinois	Econ. & Bus. Ad.
Watson, Jane Whiteman	Little York, Illinois	Education
Wayne, Joan Elizabeth	Monmouth, Illinois	Psychology
Weckerly, Mary Lou	Monmouth, Illinois	Education
Weckerly, Jack J.	San Diego, Calif.	Physical Ed.
Wedan, Carl Julius	Galesburg, Illinois	Journalism
Wharff, Keith Willard	Newton, Iowa	Econ. & Bus. Ad.
White, Gilbert S.	Marissa, Illinois	Econ. & Bus. Ad.
White, Ralph Edward	Burlington, Iowa	Physical Ed.
Williams, James Harold	Newburgh, New York	Biology
Williams, Robert Dean	Monmouth, Illinois	English
Winbigler, Mariorie Alice	Monmouth, Illinois	Education
Young, Helen Frances	Monmouth, Illinois	Mathematics
Zimmerman, Joseph Stewart	Etna, Pennsylvania	Chemistry

MUSIC STUDENTS

<i>Name</i>	<i>Home Address</i>
Anderson, Mary Teresa	Des Moines, Iowa
Anderson, Robert Ross	Hutchinson, Kansas
Asp, Noreen Ruth	Downers Grove, Illinois
Austin, Marion Priscilla	Chicago, Illinois
Bailey, James Bruce	Minca, Egypt
Baker, Dr. Frank	Monmouth, Illinois
Barnett, Mary Beth	Monmouth, Illinois
Benson, John	Monmouth, Illinois
Benson, Loretta	Monmouth, Illinois

Beveridge, Dorothy	Monmouth, Illinois
Birditt, Laveine	Monmouth, Illinois
Black, Jeanne Marie	Chicago, Illinois
Bowen, Sally	Monmouth, Illinois
Brown, Edith Dorothy	Wauwatosa, Wisconsin
Burford, Barbara	Monmouth, Illinois
Cannon, Marion	Downers Grove, Illinois
Chatten, Kenneth Richard	Quincy, Illinois
Clark, Marvin Elston	Monmouth, Illinois
Coen, Sibyl Winifred	Champaign, Illinois
Colvin, Doris Martin	Princeton, New Jersey
Cornelius, Shirley Jean	Chicago, Illinois
Cory, Elsie Rose	Waukegan, Illinois
Curtiss, Joanne	Chicago, Illinois
Danielson, Marion Ann	Leland, Illinois
Davis, Dorothy	Roseville, Illinois
Davis, Mary Joan	Springfield, Illinois
Donaldson, Jane Gibson	Philadelphia, Pennsylvania
Doty, Genie	Monmouth, Illinois
Dugan, Donald Russell	Xenia, Ohio
Dykhuizen, Jane	New Orleans, Louisiana
Earp, Marilyn	Monmouth, Illinois
Eckley, Anne	Monmouth, Illinois
Everett, Mrs. Maude	Kirkwood, Illinois
Eyler, Dorothy Mae	Monmouth, Illinois
Firoved, Edna Mae	Monmouth, Illinois
Forsythe, Marlene	Monmouth, Illinois
Forsythe, Walter James	Viola, Illinois
Gardner, Robert Lee	Monmouth, Illinois
Gerkin, Myrle Elizabeth	East Chicago, Indiana
Gibb, Shirley	Monmouth, Illinois
Goddard, Dorothy Jean	Monmouth, Illinois
Goddard Kathryn Louise	Monmouth, Illinois
Gottler, Jean	Monmouth, Illinois
Gowdy, Laura Ellen	Aledo, Illinois
Grabau, Iola Lee	Chicago, Illinois
Green, Joyce	Monmouth, Illinois
Gullberg, Susan Jean	Kirkwood, Illinois
Hancock, Roberta Mae	Danbury, Connecticut
Hardtke, Carol	Barrington, Illinois
Hennefent, Donna	Monmouth, Illinois
Hennefent, Joyce	Monmouth, Illinois
Hershberger, David J.	Waterloo, Iowa
Hershberger, Floyd Stewart	Waterloo, Iowa
Hessler, Virginia Ottilie	Oak Park, Illinois
Heston, Penelope	Monmouth, Illinois
Hill, Sarah Louise	Newton, Iowa
Hilsenhoff, Betty Carol	Monmouth, Illinois
Hipple, Doris Eileen	Waukegan, Illinois
Hogue, Janet Lucile	Monmouth, Illinois
Hoog, Emmy Lou	Cleveland, Ohio
Hoover, Lyle Leslie	Oskaloosa, Iowa
Howard, Rosalie Clare	Traer, Iowa
Huey, Marion Grace	Walsh, Illinois
Hull, Donna	Monmouth, Illinois
Johnson, Alice Irene	Wilmington, Illinois

Johnson, Delbert	Monmouth, Illinois
Johnson, Mae Charlotta	Chicago, Illinois
Johnson, Patty	Monmouth, Illinois
Johnson, Mrs. Raymond	Biggsville, Illinois
Johnson, Richard Joseph	Monmouth, Illinois
Kennedy, Anthony William	Oak Park, Illinois
Klaersch, Marjorie Emily	Oak Park, Illinois
Levine, Cerna	Monmouth, Illinois
McCoy, Geraldine	Monmouth, Illinois
McCoy, Josephine	Monmouth, Illinois
McCrery, Ella Kathryn	Monmouth, Illinois
McKissick, Martha Jean	Kirkwood, Illinois
Mancell, Robert	Monmouth, Illinois
Manlove, Duane	Monmouth, Illinois
Marshall, Ralph O.	Monmouth, Illinois
Mayall, Russell Chadwick	Summum, Illinois
Meier, Amelita Marie	Loveland, Ohio
Merion, Carol	Monmouth, Illinois
Merrill, Marilyn Jane	Avon, Illinois
Miller, Robert Frank	La Grange, Illinois
Milligan, Dale Keith	Des Moines, Iowa
Moffat, Mary Isabel	Galesburg, Illinois
Moore, Helen Elizabeth	Hanover, Illinois
Nickerson, Joan	Omaha, Nebraska
Norris, Erma Jeanne	Monmouth, Illinois
Osborn, James	Monmouth, Illinois
Osborn, Wanda	Monmouth, Illinois
Oyler, Martha Ann	Long Beach, California
Patton, Thoburn Gene	West Allis, Wisconsin
Petrie, James	Monmouth, Illinois
Peyton, Phyllis	Monmouth, Illinois
Phelps, Carolyn Alda	Monmouth, Illinois
Pierce, Charlotte Ann	Morning Sun, Iowa
Pinkerton, Lloyd Marrow	Nampa, Idaho
Quon, Grace	San Diego, California
Ralston, Margaret	Monmouth, Illinois
Reinecke, Joan Elene	Lombard, Illinois
Robeson, Patricia Clare	Monmouth, Illinois
Roesch, Jack Harding	Burlington, Iowa
Russell, Doris D.	Little York, Illinois
Sachs, Jeanne Marie	Waukegan, Illinois
Schaniel, Joanne Marilyn	Oak Park, Illinois
Shaver, Glendora Catherine	Monmouth, Illinois
Shaw, James Lee	Gary, Indiana
Shields, William Earl	Newton, Iowa
Shike, Doris	Monmouth, Illinois
Slater, Mrs. Vivian	Monmouth, Illinois
Slaughter, Aden	Monmouth, Illinois
Slaughter, George	Monmouth, Illinois
Smick, Robert Lewis	Avon, Illinois
Smith, Dorothy Ruth	Aledo, Illinois
Stewart, Sandra	Monmouth, Illinois
Stewart, Vida Fern	Monmouth, Illinois
Stinimates, Bonnie Jean	Monmouth, Illinois
Stinimates, John	Monmouth, Illinois
Streeter, Myrna Kay	Greenluck, Illinois

Struthers, Robert Dean
Sutherland, Alice Katherine
Talkin, Robert Ralph
Taylor, Norma Colleen
Thompson, Martha Ann
Thompson, Roberta
Tinsley, Sarah Payne
Towsley, Roderick Bruce
Tubbs, Frederica Irwin
